### Blood That Dr. Williams' Pink Pills Actually Mak

A woman needs medicine more than a man. Her organism is more complex, her system more delicate. Her health is disturbed regularly in the course of tature. If anything happens to interfere with that natural course she goes through unspeakable suffering, in fact, the health of every function and the health of every moment in a woman's life depends upon the richness and regularity of her blood supply. That is the simple, scientific reason why Dr. Williams' Pink Pills are wo th their weight in gold to women of all ages, from early girlhood up-they actually make the rich, red blood ail wo-

Mrs. Edwin Ward, Brooksdale, Ont., ays: "For years I suffered from those aliments that make the lives of so many of my sex miserable. I would take weak spells and become so nervous that I could not go about. My stomach was out of order, and I frequently vomited the food I took. Headaches and backaches afflicted me nearall the time. Then I took a severe celd, which settled on my lungs, and I went to an hospital for treatment. I had the best of care, but the doctors gave me little hope of recovery. My face and limbs became swollen, and my system racked with a harsh, dry cough. As the doctors did not look hopefully upon my case I decided to try Dr. Williams' Pink Pills: By the time I had taken half a dozen boxes. there was a great change for the betstill continued to take the pills until I had used thirteen boxes and I am now enjoying perfect health. I have no hesitation in saying that I be-lieve Dr. Williams' Pink Pills saved

Dr. Williams' Pink Plils cured Mrs. Ward by actually making the new blood her system needed. That is all Dr. Williams' Pink Pills do, but they do it well. They don't act on the bow-They don't bother woth mere ptoms. They go straight to symptoms. the root of the trouble in the blool. That is why they cure all blood and herve troubles like anaemia, female irregularities, indigestion, rheumatism. headaches and backaches, sciatica, nervous prostration and St. Vitus' dance. Substitutes and imitations won't cure, purging medicines only make you worse; therefore, you must get the genuine pills, with the full name, "Dr. Williams' Pink Pills for Pale Peon'e" on the wrapper around every box. Sold committees, caused by the resignation ment for indigestion, as well as being on the wrapper around every box. Claim Made That Secret Effort Has Been Made to Balk Move to Appoint a Coadjutor.

Somewhat inharmonious were the oceedings of the Anglican Diocese of Toronto at the annual meeting, which opened its business session in St. James' school house yesterday afternoon at 3 o'clock, with Bishop Sweatman presiding. The proposal to bring about changes in the constitution which woulld allow of the immediate dealing with of the question of appointing a coadjutor to assist his lordshi pdeveloped a distinct line of cleavage. The charge was made that a meeting had been secretly and improperly held to check the suggested legislation, and that a circular, issued under its authorization, was an attempt to unduly influence the votes of delegates of whom about one hundred were in attendance. This assertion was refuted by Rev. J. Pitt Lewis and others, who declared the meeting and been called informally to consider the proposal, and that the circular was intended to give enlightenment to those signed members who were not well versed in the canon laws. The arguments advanced on both sides were warmly applauded, and lively interest was shown in the defence made by Rev. Mr. Lewis against his lordship's assertion that he (Rev. Mr. Lewis) had been concerned in unwarrantable proceedings.

The matter will be fully deliberated which opened its business session in

but had been more secret.

'They don't do their work in as manly a fashion as we do ours," he Element of Radicalism,

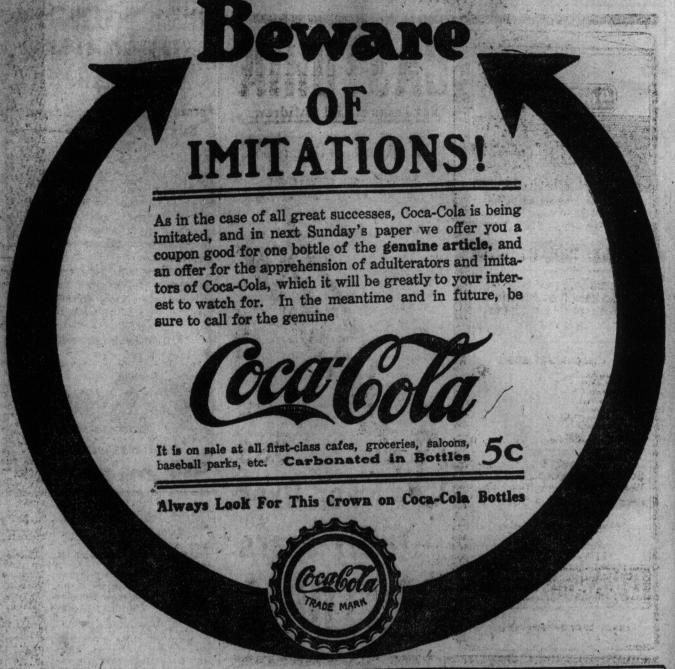

Rev. W. L. Creswick, Brighton, moved that Rev. Mr. Lewis be allowed to speak, and, there being no dissent. Mr. Lewis went forward, and made a brief address. He explained that the meeting had not been called on his personal invitation, but that n circular was presented, for the signa tures of those present, opposing the proposed constitutional amendment, as having an element of radicalism in it that wasn't approved of. It was felt that there was great danger in taking the step due to the great lack of inrmation as to the canons, particu larly among countrymen with changes in the country, who might vote without properly understanding. If a movement were good, it would get the support of two-thirds of the synod members. The speaker feared that if hasty legislation were allowable, the provisions surrounding the commutation trust fund might be changed, and Making Fixed Date.

Is weakness in every part and organ those of the superannuation fund also of the body. The action of the heart so that clergymen, who now wouldn't change the fiscal year. Mr. Foster is feeble, the stomach fails to digest receive more from both than \$100. might find even this meagre amount reduced. Lawrence Baldwin supported Rev.

Mr. Lewis, claiming that there had never been found disadvantage in the failure to confirm a canon introduced Impedes Progress.

J. R. Roaf spoke as a delegate of 21 years' standing, urging that the pre-sent constitution impeded progress. If

year. Provost Macklem endorsed Mr. Hodgins' motion as one that stood for rea-sonable freedom of action, and for honest judgment. As it now was, a well-thought out and reasonable mea-

ority who might successfully draw a herring across the trail. The present system was objectionable because it made for cliqueism and lobbyism, and the synod had been treated to a very flagrant illustration of it, and had before it an example of the injury that was to be done. A small group of persons was taking means not fair, open and above board. He had no objection to their meeting beforehand and giving the result of their deliberations to the synod, but was opposed to legislation that made easy such lobbyism.

its merits. As the house wasn't pro-perly constituted a vote could not then be taken.

very bethat Should Give More.

S. H. Blake, K.C., followed with a warm admonition that more money be contributed by the Anglican Church in Canada toward mission funds. A large amount of the fund, he said, was now being given by missionary societies in England, and the figures submitted showed that unless Canada's contributions showed a large increase the work would necessarily go back.

The report of the Synod investment committee, presented by Chairman J. A. Worrell, K.C., showed an invested capital, on which interest was being paid, of \$914,707.45, an increase over last year's capital of \$41,368.35. All property reverting to the synod under prior mortgages had been sold, except three properties of a total value of \$22,850.

TEACHERS! IMPACTABLE COMMITTEE TOWARD TOW Rev. W. E. Cooper asserted that the meeting complained of had been a private matter for consultation. There was known to be doubt among country clergymen as to the effect the proposed change would have, and circular letters had been sent them to give enlightenment.

Rev. T. W. Powell, Eglinton, spoke forcefully against hasty legislation.

On Its Merits.

Bishop Sweatman said it was desired to have the question settled entirely on its merits. As the house wasn't pro-

Fourteen had left the diocese in two years, but 17 were received by ordination, and 10 from outside places. Confirmations and baptisms showed a steady increase. The increase in the church population all tole was over 10,000. Revenues have grown 5 1-4 per cent in two years, while two churches destroyed by fire are being rebuilt, and two new ones are building. In addition several pastors' houses and schoolhouses are being built, and many churches altered and enlarged.

The bishop referred to the overcrowding in Toronto churches, and said Toronto must face the problem of building new churches, as the population was rapidly increasing, and the over-taxed seating capacity of these churches threw an unfair burden on members of the churches.

The mission fund was in a very head thy state, so that better salaries could be raid and more efficient work done. All the church glucational institu-The Endowment Fund,

Exception to the new high school geography was taken, on the ground that its teaching on certain matters was opposed to Christian doctrine and religious teaching. I put forth evolution ary ideas on the creation of the world, and presumed to say the universe was not the work of a creator. Pages 12 and 147 of the high school geography were particularly cited as being dangerous in their teachings to Christian faith.

The passages on the pages cited deal particularly with the evolution of the world in a gradual process and with rebular hypothesis as explaining the origin of the universe. In both cases church teachings are rather directly contradicted. The bishop, however was cautious in his criticisms and stated that the synod could only pass resolutions advising against the use of the books in the schools.

The enriching and changing of the Ritual and Book of Common Prayer alone Mness greated by a convention of bishops at Montreal of Arril 18, would be one matter to come before the synod.

Geography Version of Creation,

Ottawa, June 12.-(Special.)-The Anglican bishop of Ottawa, addressing the synod to-day, made the following remarks:

"I adopt as my own the statement which appeared in The Canadian the Canadian wheat fields, famed all churchman directing attention to the over the world, had once been the hunting ground of the Indian, and dehunting ground of the Indian, duced into these schools, under the false plea of teaching true science, which propounds theories diametrical-

ly opposed to holy Scripture and Christian doctrines.

"While the curriculum of these important educational institutions makes no provision for religious instruction of any kind, the religious public have clear right to expect that no trines opposed to the orthodox tenets of Christianity shall be taught therein. Without at all entering into the discussion of how far the theory of evolution—for it is only a theory—may be true, while it harmonizes with the fundamental laws of human progress. we can all understand its dar that the universe , and this world as a part of it, were not the work of a supreme being, but the product, on the contrary of chance or accident paid; while of the \$12,853.36 allotted to country parishes, \$2219 had been promised and \$2358.99 actually paid. Adding bank and other interest of \$2361.03 made the total of \$19.822.52, less expense of \$117.23, making \$19.705.29 on hand as against an allotment of \$33.483.68

Mr. Blake pointed out that there was nearly \$4000 unpaid of the amount
