ONTARIO'S NEW FUEL.

If the experiment of converting peat into a fuel of equal value with coal proves successful, it will be a discovery of very great importance to this province. Ontario, as is well known, does not possess a single coal mine. The success of the experiment will mean almost as much for Ontario as the discovery of actual coal fields. The amount of peat that is available throughout this province is practically unlimited, while the manufactured product is said to be fully equal to coal. A company will shortly commence operations near Barrie to manufacture peat into the new fuel. The manufactured peat will sell at from \$3.50 to \$4 per ton. With increased output the price will soon decrease. If the estimates of those in the business are to be believed it is quite possible that the new fuel may sell at \$2.50 a ton, or one half the present price of anthracite. There is no doubt about the ability of the machinery to produce the fuel, and it is equally true that the fuel has given great satisfaction to the several concerns which have made a test of it.

COLLEGIATE INSTITUTES AND BANK CLERKS.

There is force in Mr. Embree's argument in reply to the recent criticism of Mr. Byron Walker on the inefficiency of the Collegiate Institutes in preparing boys for commercial positions. Mr. Walker made the statement before the Bankers' Convention, that he found an alarming illiteracy, especially in the matter of spelling and writing, among the applicants for positions in the banks. He threw the blame on the collegiate institutes, which he held were neglecting the practical side of education for the non-essential and theoretical. Mr. Embree is right in stating that the youths who apply for bank positions are by no means representative of the efficiency of the collegiate institutes. If Mr. Walker were to select his clerks by educational merit he would have little to complain of about their spelling or writing. Bank clerks receive their appointment by influence, not by merit. It is not the young man who is best qualified in spelling, writing and arithmetic that gets a bank position, but he whose relatives and friends have the most influence with the bank manager. Let Mr. Walker select his clerks according to their merit, as proved by the collegiate institutes, and we imagine he will have little reason to complain of their illiteracy.

SAVE THE CLUB.

We agree with Col. Davidson that it will be a standing disgrace to the city if its leading citizens allow the Toronto Athletic Club to be closed up. The demise of the club will be a severe blow at honest amateur sport in Toronto. It is to be hoped that the suggestion of Col. Davidson will meet with general approval and that a committee of prominent citizens will be formed at once to devise some plan to save the club's fine quarters in College street from being sacrificed at a sheriff's sale. The club should not be allowed to go out of existence. There is no necessity for its demise. A committee of business men will have no difficulty in reviving the institution and placing it on a sound, permanent basis.

PICKLES AND VINEGAR.

The World's suggestion favoring the establishment of a high-grade pickle manufactory in Canada has created considerable discussion among those directly and indirectly interested in the business. The discussion has brought to the surface the important fact that the vinegar combine has decided on closing all the vinegar factories outside of Toronto and centralizing the whole business in this city. Among the others the Hamilton vinegar works will be closed. The ambitious City will consequently put in another week reviving Toronto for its hogshead in stealing its factories. In this case, least, it cannot be charged that Toronto has offered any special inducement to secure the combine's proposed big factory. Toronto was selected because of the many advantages it possesses as a manufacturing and shipping centre. In addition to becoming the centre of the vinegar business in Ontario, Toronto will also witness a new development in the pickle industry. We are given to understand that a local firm will make a specialty of pickles and manufacture an article second to none in the market.

THIEVES AT THE WHARF.

They Attempted to Rob the Garden City Ticket Office—Ocean to Come in To-Night—Wharf Notes.

At noon hour yesterday thieves attempted to rob the ticket office of the Garden City wharf, and had broken the glass in the entrance door, when they were frightened away by the approach of Mr. W. A. Geddes. The door was boarded up and also the windows and will remain in that condition all winter.

The steamer Ocean is due to arrive this evening from Montreal. She will clear a few hours later for St. Catharines and Hamilton and return again on her way down east.

The schooner St. Joseph came in yesterday from Oswego with 325 tons of coal for the same port.

The steamer Queen City has discontinued her trips to Queenston, and will tie up for the winter in the Church-street slip.

Over 100 people are expected to sail from St. Catharines on the steamer Lakeside. Instead of making her last trip to-day, the Lakeside will continue all next week between St. Kitts and the city.

The John Hanlan was towed over to the Toronto Electric Light Co.'s wharf yesterday, where she will receive repairs.

The first-venue Baptist Church anniversary will be celebrated to-morrow.

Case Still Affords Many Interesting Stories of Political Dodging.

Will Be Resumed This Morning—Evidence Taken Yesterday—The Dog Deal Extended—Court Room Was Crowded—Just Half a Cord of Wood Appears—There Are Other Facts.

One hundred and ten are the charges in the West York election case, which resumed yesterday in the judge's court. The famous puppy dog story, which took up so much of the time of the court on Thursday, was resumed yesterday, but was not continued until the afternoon, when the judge adjourned the court until 10 o'clock in the morning.

The evidence taken yesterday was that of the dog dealer, who was called to the stand. He swore positively that the dog was bought on March 4, and was a female, and was sold to the defendant on March 11. He swore that he had no other dealings with the defendant, and that he had no other dogs for sale.

Proceedings opened at 10 o'clock in the morning, with the reading of Mr. Pearson's evidence, who was too ill to attend court in person. George Angus, the stenographer who was on the stand yesterday, was not on the stand today, and was called to the stand. He swore positively that the dog was bought on March 4, and was a female, and was sold to the defendant on March 11. He swore that he had no other dealings with the defendant, and that he had no other dogs for sale.

With regard to the story which Armitage and his wife swore to yesterday, namely, that Pearson had sold the dog to her hand on a street car while the lights were out, Henry Harwood, who was on the stand yesterday, was called to the stand today, and was called to the stand. He swore positively that the dog was bought on March 4, and was a female, and was sold to the defendant on March 11. He swore that he had no other dealings with the defendant, and that he had no other dogs for sale.

A big crowd of ladies will come to the city from Bowmanville, Oshawa, Wainwright and other points on the 10th and 11th of this month. The excursions will be run over the Grand Trunk, and will be under the auspices of the Ladies' Aid Society.

Mr. John R. Baird, chairman of the Canadian Freight Association's Committee, left on a trip out west yesterday. He will return on Monday.

The earnings for the Grand Trunk, for week ending Oct. 31 were \$728,180, and for the corresponding week last year were \$724,087, showing an increase of \$4,093.

The Canadian Pacific will run a special train from Hamilton to the city this afternoon, showing off the new cars.

The Canadian Pacific earnings for week ending Oct. 31 were \$851,000, against \$850,000 last year, the decrease being \$2000.

Mr. Foy Is Assured.

Mr. J. J. Foy, Q.C., M.L.A., is out of the woods at last. The attempt to unseat him has come to nothing. The Liberals admitted as much yesterday, before Osler and Maclellan, when Mr. Foy's opponent, Mr. W. D. McPherson, for Mr. Foy, Mr. Foy did not ask for costs, so the case was dismissed without cost.

Parkdale Methodist Church.

Parkdale Methodist Church Choir propose holding a Service of Praise in their church, on Monday, Nov. 14. A very fine program will be presented by the choir, which they will be assisted by Mrs. Julia Wyman of New York, contralto; Mr. Harold, tenor; Mr. L. Fulton, violinist, and Miss Hobson, soprano. The choir have added a number of new voices, and are making remarkable progress under their new choir-master, Mr. H. M. Blight.

The Man Is Considered.

The man is considered the most reckless of men who risks his life by putting his head into the mouth of a savage lion. The men who perform this foolhardy act are few and far between. There are tens of thousands of men who daily do a much more rash and dangerous deed. They are the men who overwork and neglect their health. No man can do this with impunity. The inevitable result is serious illness and premature death. One of the most common results of carelessness in regard to health is consumption. There is one, and only one, unfailing remedy for this dread disease. It is Dr. Pierce's Golden Medical Discovery. It has a record of thirty years, during which time it has cured 95 per cent. of all cases of bronchitis, throat and lung affections. It acts directly on the digestive and nutritive organism. It creates a healthy appetite for food, facilitates the flow of digestive juices and promotes the assimilation of the life-giving elements of the food. It is the great blood-medicine, flesh-builder and nerve-tonic. In cases of nervous prostration it builds up the nerve fibres and gives sound, refreshing sleep.

"I took a severe cold with sore throat," writes a man from New York. "My throat became so sore that when I coughed it seemed as though my side would burst. The physician said I had pleurisy. I took his medicine for some time and got no better. All through the spring and summer I used mustard plasters and fly-balls on my neck and over my shoulders. At last I could hardly endure it and at times almost smothered. My breath was so short that I could scarcely talk. Several of my near relatives had been cured of consumption by Dr. Pierce's Golden Medical Discovery. I took two bottles of it and two of his 'Pleasant Peppery' and am a new man. I would not take any money for the benefit received."
