

OCEAN QUEEN, 2-1, WINS OAKLAND DISTANCE RACE

Husky is Second and Centre Shot,
Favorite, Third—Gypsy King
Wins Mile Race

OAKLAND, March 4.—Center Shot proved the big disappointment when she failed to win the fourth race at Emeryville today. The Walker mare was regarded as almost a certain winner, but stopped badly after being in front at one stage of the race. Baldwin Will Probat.
LOS ANGELES, Cal., March 4.—The will of the late E. J. Baldwin, the famous turfman and plunger, disposing of property valued at about \$250,000, was placed in court by his attorney, Edward W. Lee, yesterday.

All of Baldwin's near relatives are reported to be of large bodies of land. The will is entirely satisfactory to all of the family, and that no contest will be made.

Baldwin's two daughters, Clara Baldwin and Bertha Baldwin, receive the famous Baldwin ranch at Arcadia, which includes more than 100 acres of land valued at upwards of \$100,000 a piece. Baldwin is survived by an unmarried son, Edward, who lives in San Francisco, known as the "Baldwin Annex," and a daughter, who lives in the Rancho La Puente, the county seat of Los Angeles.

Scottish-English Rugby Trouble Settled.
LONDON, March 4.—The dispute between the Scottish-English Rugby unions has been settled, England giving satisfactory assurances. The international match will be played March 29.

Goats of the Turf.
Secretary Fraser is home and the King's Plate entries will be out to-morrow morning.

The San Francisco Call says that Paul Mayford, a well-known follower of the turf and half-brother to Frank Baker, is ignoring the strongest kind of a hunch that he is being swindled by a man at the horse Silver Knight, who is on at Oakland on Feb. 25, at odds of 30 to 1.

With some friends Mayford, on the high preceding the race, tried to blindfold several winners from the entry list by giving them a succession of false names. By this means, they paid no attention to the names of the horses. The international match will be played March 29.

Some of Mayford's friends in San Francisco bet on Silver Knight, some hand books, which limit the odds to 25 to 1. Not a dollar was bet at the track on Silver Knight to win the race.

Damages to the extent of \$7500 have just been awarded to a jockey named McLain, who was badly injured at Lewiston, Idaho, at the state fair of 1907. The jockey was thrown in a race when a dog ran across the track. The jockey was sued by the fair association and the owner of the dog. The contract expires at the end of the season.

Mr. and Mrs. Joseph E. Widener are passengers on the Adriatic, which sailed for Europe yesterday. Mr. Widener is eager to see some of the best of the world's horses, under the management of J. Howard Lewis.

The name Ferte has just been conferred by August Belmont upon the two-year-old colt by Flatford out of Port Fern, now in England. Fern is an American mare which a few years ago won the Manchester National Handicap for Mr. Belmont.

Report was made recently to the English Jockey Club that the blood mare, owned by Major Phelps, had been prematurely by delivery of triplets two weeks ago. She is only five years old. The foals all died, but the mare is well.

Amely Minder, the well-known jockey, who broke his leg at Fort Erie last summer and broke it later in Nashville, was probably the leg, there being little hope of recovery to the extent that he could ever use it again. He is in the Chicago Hospital and every effort is being made to avoid amputation. Minder has been a prominent rider for several years, but his career has been filled with accidents.

Stanley Cup Goes A-Begging.
OTTAWA, Feb. 4.—William Foran, trustee of the Stanley Cup, this morning received a telegram from the Winnipeg Shamrocks stating that they would be unable to accept the trophy on account of the Stanley Cup season, but that they hoped to come next winter. Therefore, the cup may be sent to the Shamrocks, as Galt, Cobalt and Renfrew are too much affected by the ruling as to the players eligible to play in challenging games.

The Broadview Junior Football Club will organize for the season in the Broadview club to-day. All interested players are requested to attend, as important business will be discussed. The Broadview club will play on Saturday, March 6, and Intermediate C team of All Saints.

Jockey Sues for Racing Places.
OAKLAND, March 4.—A jockey suing to recover money paid to a racing association in the shape of fines—that is the innovation in turf affairs that threatens to revolutionize the present methods employed by officials in the management of race meetings.

Walter Miller is the disgruntled jockey who is behind the suit. Snarling under the enforcement of frequent doses of discipline in the shape of 250 fines—one after another—Miller has been engaged a lawyer to bring an action for the recovery of the money paid into the treasury of the California Jockey Club. Miller, in his complaint, alleges he was unjustly and harshly treated by the officials in the infliction of many heavy fines.

This is the first case of the kind to reach the courts. It has been the custom for all jockeys, trainers and owners to accept the rulings made by the turf authorities without applying to the courts.

In every case where a jockey was fined, he was to pay it promptly, so as to be in good standing on the turf. Until Miller's case, the jockeys were as a suspension of all privileges on race courses.

Histed, manager; Fred Good, captain. Jack Samble.

SCORED DR. HODGETTS
Anti-Vaccination Organizer Says Provincial Officer Shows Ignorance.

A vigorous attack on the practice of vaccination and particularly on its advocacy by Dr. Hodgetts, provincial health officer, was made by John H. Bonner of Leicester, Eng., organizer of the National Anti-Vaccination League, in addressing a meeting in Massey Hall last night. The audience, while not large, appeared to be strongly in sympathy with the anti-vaccination movement. Aid. Bredin was chairman.

Mr. Bonner said that Dr. Hodgetts showed absolute ignorance in instituting a comparison between the number of deaths from vaccination and the number of deaths from smallpox. He said that the number of deaths from smallpox was 1881 to 1889, there were only 33 deaths from vaccination, or an average of one in 14,000, while from chloroform the death rate was one in 2000.
