

U.S. STEEL LEADS STRONG MARKET

Industrial and Utilities Register Smart Gains at New York.

New York, May 21.—Industrial, notably the steel and iron stocks, ruled to-day's active but relatively restricted market to an extraordinary degree. Enquiry for issues seemed to be prompted by additional trade advice of a highly favorable tenor. Extensive short covering and growing public participation were outstanding factors.

U.S. Steel occupied its customary commanding position and contributed almost 50 per cent. to the total of \$50,000,000 in stock sales within four points of its record in the latter part of 1916.

U.S. Steel's advance was supported by a number of other issues, notably Republic Iron and Steel, Republic Iron and Steel, Republic Iron and Steel, Republic Iron and Steel.

TORONTO MARKET QUITE STAGNANT

Few Buyers in Sight and Only a Few Issues Have Any Responsible Support.

Monday's Toronto market was almost stagnant. There were few buyers and except in a very few issues many more purchasers could have been supplied without influencing prices. Everyone is looking for the next turn in commercial circles.

HOLLANDER OUTPUT SHOWS REDUCTION

Result of Curtailed Production Evidenced in Latest Monthly Report.

The Hollander statement covering the period ending April 22, just published, shows a decided falling off in production from the previous four weeks. The effect of the curtailed output due to labor shortage evidently became more acute during the four-weekly period under review, and accounts for the fact that gross profits ran at \$194,683, as against \$210,749 in the preceding month.

The balance sheet shows current assets of \$396,802, as against \$394,837; current liabilities of \$426,148, versus \$469,176. Current liabilities consist of accounts payable, \$205,000, and unpaid wages, \$171,148.

Comparisons follow: Mar. 25, Feb. 25. Gross profits, \$194,683, \$210,749. Current assets, \$396,802, \$394,837. Current liabilities, \$426,148, \$469,176.

WEAKNESS SHOWN IN MINING LIST

Further Selling of McIntyre Brought Lower Prices—Holly at Low Record.

The mining market yesterday was generally weaker, with breaks in McIntyre and Hollinger to new low records the outstanding feature.

There seemed to be no news to account for the selling, as good progress has been reported from the property and the annual statement, which will make its appearance within a month or two, is expected to show extraordinary increases in ore reserves.

Big Dome was easier at \$11.75, although reports from the north reflect a bright future for McIntyre, which commenced a fraction to five. Dome Extension was about steady at 13 1/2 to 14.

Watermelons. The first car of watermelons for this season came yesterday to McIntyre, consisting of over eleven hundred melons, which are selling at 75c to \$1.00 per bushel.

Wholesale Fruits and Vegetables. Cabbage has declined in price, and is now selling at 85c to 95c per crate (about 100 lbs.).
