Y.M.C.A REFUSE TO ALLOW MEETING

Daughters of Canada Disallowed Hall-Misunderstand-

reporter on Saturday.

According to Mrs. Kantel, the association was incorporated in Decem-ber last under a Dominion charter,

France, and so on.

Asked why the Y.M.C.A. had refused to allow the association to hold the meeting, Mrs. Kantel said that Mr. Hopkins, secretary of the Y.M. C.A., informed her that owing to a call upon, him by the Royal Canadian Mounted Police, he considered it better to cancel the meeting. "We had meetings in the Y.M.C.A. before, and no objection or hindrance was offered no objection or hindrance was offered our holding our meetings," said

Mrs. Kantel added that the association had been subjected to adverse criticism, but for what reason she

did not know.

Asked what stand the association took in regard to conscription, Mrs. Kantel said the association had not this question into consideraion, and as to the personal views of members, she was not aware of Mrs. Kantel personally was not against conscription, but advocated the conscription of wealth before

conscription of man power.
Mrs. Kantel admitted that the association had passed the following reso-lution: "(1) That the Daughters of ciation had passed the Daughters of luttion: "(1) That the Daughters of Canada are emphatically and unalterably opposed to spreading the germ of militarism in Canada; (2) that we protest with all the power within us against the idea of military training in the public schools of Canada."

Mrs. Kantel was very emphatic that military training should not be com-bulsory in the schools, altho she was both for girls and boys, so that if the time should unfortunately arrive, the boys would be in good shape to enter

he fighting lines.

Sorry to See Conscription.

Mrs. Kantel admitted that at a meeting of Local Council of Women she had said she would be sorry to see conscription brought upon Canada on the grounds of efficiency. In regard to her connection with Jane Addams, Mrs. Kantel said she had been chairman of the Interational League for Peace and Freedom, but she did not hold that position now.

Mrs. Kantel concluded by stating that a room had been assigned by the Y.M.C.A. to the association for their

meeting on Thursday next, when Prof. Wrong is to give an address.
Inspector Beyts of the Royal Canadian Mounted Police, seen yesterday morning, informed The World that he had taken no steps to have the meeting cancelled. All he did was to inquire the names of the association.

Mr. Hopkins, secretary of the YM. C.A. stated that the meeting referred to was cancelled owing to a misunder-"There is nothing else to

UNIVERSITY NOTES

No event within recent months has roused such a furious controversy in the university circles as the cancellation by Professor Molver of the intended visit of Miss Jane Addams ing, Says Secretary.

"Yes, it is quite correct that the service students on questions concerning their work. Graduates, undergraduates and members of the staff have been discussing the question hotling to us about ten days ago, declined to allow us to hold our meeting," said Mrs. Kantel, president of the Daughters of Canada, to a World reporter on Saturday.

According to Mrs. Kantel, the asso-of allowing the Chicago woman to of allowing the Chicago woman to of allowing the Chicago woman to lecture here, and some are hot in their ber last under a Dominion charter, having, amongst öthers, for its objects "to develop a spirit of true Canadianism, based on love and pride in country." In other words, devotion to Canada, the same as Scotchmen have for Scotland, Frenchmen for France, and so on.

Asked why the Y.M.C.A. had refused to allow the association to hold the meeting, Mrs. Kantel said that the transfer of the y.M. denunciation of those who have work-

ity of Trinity College.

The agitation which finally resulted in the cancellation of Miss Addams' lecture course was begun by the Daughters of the Empire at their convention, held two weeks ago in Hamilton. The controversy was taken up by the students and by one of the daily papers, with the result that last Thursday Professor McIver, head of the social service department, tele-graphed to Miss Addams, canceling the invitation. Commenting on the cancellation of the visit, Professor Needler, professor of German at University College, and commanding officer of the O.S.T.C. during the war, declared that he should be served. declared that he should be very sorry to have Miss Addams or any other speaker subjected to any embarrass-ment while addressing a university audience. Now that parliament is in session the Varsity veterans have started their spring offensive. Five thousand soldier students in ten Canadian universities have their guns trained on Ottawa. This time the pen is doing the work of the sword. Petitions are being circulated in every Canadian college, asking the government to reconsider the problem of re-establish

ment as applied to students. Ex-service men will find this peti-Ex-service men will find this peti-tion with their faculty representative, and are asked to sign it immediately. CHARMING SIMPLICITY

BY LILLIAN M. SCOTT.

To dress well one must know how to select. Curtailing one's allowance does not mean that the wardrobe should necessarily be chosen sans taste. The clever woman knows that to dress well one must have either taste and time or taste and an unlimited income. The frock purchased with its qualities considered vaguely is truly the expensive frock in the end, because it is ill-chosen and therefore rarely worn. To be smart and distinguished one must be absolutely certain what to buy. She who is possessed of taste is first of all conservative and chooses for street wear the frock which is discreetly dark in color, simple and graceful in line. There is an unexcelled distinction about the plain frock. Especially suitable for early spring is the model above with its short sleeves and rather tight bodice. Crepey novelty slik in a soft champagne shade is the material used.

The first annual concert of the Toronto Police Union of Canada, given at Massey Hall last night, was an entertainment for which the organizers are to be complimented, the program as a whole being one of the finest of the season, a feature being the fine band of the force in Highland costume, which opened the evening with Scottish selections under the baton of Pipe-Major Thomas Ross.

AGAINST MOTHERS' BILL

Protests against the new mothers' pensions bill as drafted by Dr. W. A. Riddell's department is being made in a communication from the Women's Labor League to the Toronto Trades Council, this protest being based upon the lack of provision in the draft for ment and to the government.

NE of the greatest American millionaires said the other day to his physician, "A million dollars, Docter, spot cash and no grumbling, for a new stomach," and then the sick man groaned and turned away. All his wealth could not make him happy or contented. for happiness largely depends upon digestion. Without health where does happiness come in, and of what use is many millions of dollars or even one million? One of a man's greatest pleasures is that born of a keen appetite, vigorous digestion and a good dinner, and this belongs to many a good fellow who is living on small wages but is able to buy a beefsteak now and then and have the healthy digestion to assimilate it, but the rich man without a stomach has to forego the juicy steak and the good things of the table because his stomach rebels. After all the stomach plays a great part in everyday life. Without a healthy stomach and a good digestion our blood is thin, watery and poor, our heart action is weak, our liver does not do its duty, and man is miserable and unhappy. In this condition one is prey to the germs of influenza, pneumonia, malaria and all the ills that one is heir to. Prevent disease by putting the house in order and strengthening the system against the germs of disease.

Dr. Pierce, of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., years ago understood diseases, and their prevention. After a long period of experiment he discovered certain rects and herbs which were nature's remedies, and succeeded in putting them up in a form that could be easily procured at the drug store. This he called Dr. Pierce's Golden Medical Discovery. Along with its use he advises every one to take exercise in the outdoor air, to get all one can of God's sunlight and air; also a mild breathing "Medical Discovery" gives no false stimulation because it contains no alcohol or any narcotic. Listen to this:

Lindsay, Ont.—"Dr. Pierce's Golden Medical Discovery is the best medicine I have ever taken for stomach trouble. For many years I suffered with gastric stomachatrouble and nervous indigestion. I would be so bad at times that it was necessary for me to be in bed two or three days at a time. I have doctored and taken many different medicines with little relief. Just recently I began taking the 'Golden Medical Discovery' and it has given more relief than all the other medicines I have ever taken. My stomach does not bother me and I have not had any indigestion since taking this medicine. I can highly recommend the 'Discovery' to others who suffer with this ailment."
