Would be read by thousands every evening**MARITIME BOARD OF TRADE****Eleventh Annual Meeting Closed Last Night at Yarmouth—It Was Most Successful—Many Important Matters Discussed.**

Yarmouth, N. S., Aug. 17.—(Special)—The eleventh annual meeting of the Maritime Board of Trade closed tonight. The meeting has been most enjoyable and successful, and many important subjects have been dealt with.

After enjoying a very pleasant drive about town in carriages and buckboards, the members repaired to the place of meeting about 8.30 o'clock.

The first business taken up was the abolition of statute labor in Nova Scotia and the improvement of roads in the provinces.

A resolution was moved by R. W. Starr, of Wolfville, seconded by Captain Reid, of Summerside, that the Maritime Board of Trade urge upon the governments of the three provinces the importance of improvement of the roads, and to take steps to diffuse information on the subject, especially by distribution of literature and appointing of an official who shall confer with county councils and lecture on the subject in various communities throughout the provinces.

Further resolved, that statute labor in Nova Scotia be abolished.

The resolution was adopted. H. C. Tilley introduced a resolution concerning roadways by the government of worn and neglected silver coins. He proposed the following resolution: That, in the opinion of the Maritime Board of Trade, Canadian worn silver coins should be redeemed by the government because the government has received full face value for the coins, and has made a very large profit out of their issue (on the present issues the profit being about 100 per cent), and can produce from worn coins of full weight at comparatively slight expense.

Second—China pass from current to uncurrent stage immediately, and the circulation of worn coins, when not redeemable, induces a large amount of small debts in the passing of coins and lowers public opinion of a government management.

Third—Great Britain and the United States redeem at face and recede their worn silver.

Also further resolved that in the opinion of this board the denomination of a new silver specie of the denomination of twenty cents, and call in the present circulation silver of that denomination. This latter clause was added at the suggestion of C. J. Macdonald, of Digby, and the whole resolution carried.

The committee appointed to confer on the question of union of the maritime provinces, brought in a resolution which was read by W. S. Fisher, who referred to the advantages which would result under present conditions. It reads:—Resolved, that in the opinion of this meeting, the time has arrived for the union of the three provinces of New Brunswick, Nova Scotia and P. E. Island, and that a memorial to this effect be forwarded to each of the governments and that they be urged to arrange for a meeting of representatives from each province at an early date.

The resolution called forth considerable discussion from Joseph Reid, M. G. DeWolfe, Mayor Armstrong, of Yarmouth, and others. Most of the speakers were in favor of the union, and the resolution was carried by a large majority.

Mr. DeWolfe, in moving this resolution, referred to the fact that at present one commissioner was from each province, and that the Maritime Board of Trade was a body of representatives from each province.

On resuming at the evening session, J. E. DeWolfe moved a resolution that the vacancy on the royal transportation commission be filled by the Maritime Board of Trade, and that the Maritime Board of Trade be appointed a maritime province representative. Mr. DeWolfe, in moving this resolution, referred to the fact that at present one commissioner was from each province, and that the Maritime Board of Trade was a body of representatives from each province.

GOING TO ALBERTA COLLEGE

Principal J. H. Riddell, of Alberta College at Edmonton, while on his visit to the Maritime Board of Trade, was a professor for the college and last evening secured the services of William Newson, son of John Newson, a prominent furniture dealer of Charlottetown. On Wednesday Mr. Newson came here from Charlottetown to talk over the situation with Mr. Riddell. Mr. Newson is about twenty-seven years of age and has a brilliant record as a student. He completed the course of Wales College in Charlottetown, and from thence went to McGill University, where he obtained his B. A. degree. He returned last and got his M. Sc. degree in a post graduate course. He then returned to his native place, Charlottetown, and became principal of West Kent street school, from which standing he but recently resigned. He had intended pursuing the study of science in Chicago, but received notification from McGill that Prof. Riddell had applied to the University for a science professor and he had been recommended.

In Alberta College, Mr. Newson will be professor of physics, chemistry and physical geography and possibly arithmetic. On Sept. 20th Mr. Newson will take up his new charge.
