YOU CAN LIVE TO 100.

DOCTOR TELLS WOMEN. Chicago, June 9.—"The day is coming when women and men, too, will live 100 years," Dr. William S. Sudler told members of the Illinois Federation of Women's Clubs. "We have in the last 100 years lengthened life at least twenty years. The death rate proves it. There will be an aristocracy of race produced which will eclipse all other aristocracies." He also pleaded for stronger marriage laws and an accurate registration of brides.

Raid Champagne Supper.

Paris, June 9.—Since the earlier closing of cafes was enforced clandestine drinking parties have been on the increase in Paris. The police are increasingly active. They made a swift raid on a house near a refreshment bar, where unusual activity was displayed, and found 200 people comfortably partaking of a champagne supper. In another house they found fifty midnight revellers.

Gifts to Women Who Use Jiffy Jell

Jiffy-Jell users should write to the makers for a list of aluminum molds. Molds, spoons and measuring cups are supplied to users free.

Jiffy-Jell is the one dessert which has the fruit flavors in vials. A bottle of condensed fruit-jelly essence comes in the package. So a Jiffy-Jell dessert is a real-fruit dainty. The flavor is not artificial. The sweetening is sugar, not saccharine. Women who once try it will always get it. Your grocer has ten flavors. Try pineapple and loganberry first.

The only cheap thing in the world to-day

IN purchasing power the dollar has shrunk to almost 50 cents. This is true of all you buy, with one exception. Clothes, food, shelter, everything costs double. The one exception is bonds.

A Bond is the only thing that costs less

As in the past, the present condition will not last forever, and a warning should be taken from the lesson of history. The present return from invested capital will drop. Then the investor who has had the foresight to buy at present record low prices will continue to receive high income returns when the dollar has regained its full purchasing value.

The first form of investment to reflect this changed condition is always the highest type of investment—

Government Bonds

A Government Bond purchased today, if sold after conditions return to normal, will provide money that has twice the buying-power of today's dollar.

Because of unusual conditions now prevailing, Dominion Government Bonds may be purchased at prices to afford the highest income returns on record. The Dominion Bonds now available are the seven Victory Issues which afford, through their diversity of maturities, prices and returns, a broad selection for every investment requirement.

After careful consideration we have come to the conclusion that we should recommend the purchase of these bonds at present prices.
