

THE WOMEN'S FOREIGN MISSION SOCIETY.

The Women's Foreign Mission Society beg to report that from the time of making up the last congregational report when their funds stood \$57.85 to the close of their own financial year in March, they were able to bring up the amount clear by all expense to \$134.38, which was transmitted to the Central Society the same month—March, and which corresponds exactly with the sum sent down the year before.

The membership continues about the same, and the Treasurer's book shows the money in hand to be \$71.17.

With the various efforts they take every opportunity of making the Society, and hope by March to make the results of their year's work come up to those of the years preceding, which they pray the Lord may sanctify and bless to His own use and glory, in the enlightenment of some of their sisters in India through the instrumentality of our Lady Missionaries there, in whose support this work is carried on.

All of which is respectfully submitted,

M. S. CHISHOLM,

Secretary W. F. M. S.
