According to the Vancouver News-Advertiser "A meeting of the master plumbers was held on Thursday night to endeavor to arrange a settlement of the difficulty existing between the masters and men. The trouble does not arise so much over a question of wages as over the rules of the union to which the journeymen plumbers belong. The matter was discussed at length and the masters decided that they could not change their terms. The 'open shop' principle in the local plumbing trade will thus be adopted."

Fruit is Nature's Laxative.

Fruit contains certain principles which act like a charm on the liver and keep the whole system well and strong. But these principles in the fruit juices are too weak to have any marked effect on the internal organs. The value of

Their action is the action of fruit greatly intensified. They have a marked effect on the liver, and it is up-making it active. LOCAL COMPANY TO ERECT NEW PREMISES

Melrose Firm Will Build a Five-Story Building to Accommodate Its Trade.

The Melrose company has decided upon erecting a five-story building, fronting Broad street, which will join at the rear of the premises of T. Lettice, fronting Fort street. About a year ago the amalgamation of the business of the Melrose company and T. Lettice took place. The necessity for new quarters has long been felt, and the present plans, it is felt, will afford the company the best means for handling its business.

The company is entirely a Victoria one. It has in addition to the lucrative trade in various lines in Victoria the most extensive wholesale trade in the branches of business handled by it in the province. It holds the sole agency for British Columbia for some of the largest manufacturers in the world, including wall paper firms, paints and varnishes. In this way the firm is able to order immense quantities of goods with corresponding reduction in prices.

Hitherto with limited accommodation for storing the manager, H. E. Newton, has been obliged to direct orders from the wharf and railway station to the arrival of various shipments. Three premises were occupied, the present headquarters on Fort street, the T. Lettice store, and the store rooms on Mason street. In spite of all the space available the premises were crowded to a degree which made it most unsatisfactory.

With every faith in Victoria as the best place for headquarters for the firm, the decision has been reached to erect a commodious building connected with the present premises of T. Lettice.

The Lettice property will be improved by the clearing of the small, narrow strip of land in the front part of it. The whole front, 30 feet wide, will be utilized by the Melrose company. With plate glass fronts it will be used as a show room for the local trade. Partitions will be removed and the building will be extended back an additional 20 feet. The present depth of 50 feet will thus be altered to 70 feet, where it will join the new building fronting Broad street. This will be 33 feet wide and 50 feet in depth. With a basement under the entire building, the Broad street premises will be five stories in height. The ground floor fronting Broad street will be 16 feet in height. Broad doors nearly the entire height of the story will be provided, so that drays may drive in for purposes of loading and unloading heavy materials and plate glass. The racks for the latter will be on this floor, and a conveyer will be provided for carrying them to and fro. Conveniently situated will be a large lift 6 feet by 10 feet for carrying goods up and down between the various flats.

The upper stories will be arranged for the accommodation of the heavy stock. The present Lettice premises will remain in the meantime at two stories in height. The new part at the back will be continued up to the same height as the new building on Broad street.

Later on it is intended to raise the Lettice premises to the same height as the new part. This will be delayed at present in order that the building may be occupied and the order to facilitate the completion of the other part, which is urgently required.

It is anticipated that the new premises will be available in about three months.

BUSINESS BEFORE ANNUAL CONVENTION

Open Session of Epworth League and Sunday School Association Held Monday Morning.

(From Monday's Daily.) This morning the first business session of the twelfth annual convention of the Epworth League and Sunday School Association of the Methodist church of British Columbia was held at the Metropolitan church. O. S. Keith, of New Westminster, presided, and delegates from all districts of Vancouver Island and the lower Mainland were present. The programme, published in these columns, was followed, although some of the brief papers and the subsequent five-minute discussions were omitted. The convention is continuing this afternoon, and will be continued to-night and all day to-morrow.

As announced in Saturday's issue, the delegates went on a long car ride in the afternoon, being taken to Esquimalt, Beacon Hill park, and other points. The outing was much enjoyed and, judging by the profuse thanks extended members of the local entertainment committee their efforts to make the short stay of the visitors pleasant were appreciated.

Yesterday morning a brief fellowship service was held at the Metropolitan church. It was led by Mr. Keith, of New Westminster. There were one or two very short addresses, after which an adjournment was taken to the auditorium, where the usual Sunday forenoon services took place, the pastor, Rev. G. K. B. Adams, occupying the pulpit. He first delivered an address of welcome. The representatives of outside districts were welcomed because of their blood relationship with local Christians through Christ, and also on account of the necessity of all Sabbath school workers to pull together in order that the most satisfactory results may be obtained. His sermon, the text of which was "Christ's Fishermen," was more than usually eloquent.

In the afternoon a grand rally of the Methodist Sunday schools of the city was held in the Metropolitan church. The teachers and scholars from all the churches arrived shortly before 2:45, and were assigned places in the body of the church. The great auditorium was well filled with the pupils, and a most enthusiastic meeting was held. The superintendent of the Metropolitan Sunday school, E. A. Lewis, presided. Rev. G. K. B. Adams assisted in the devotional exercises. Instructive and interesting addresses were delivered by Rev. Mr. Hetherington, of Mount Pleasant church, Vancouver, and Hinkson Siddall, of Victoria.

Rev. R. J. Wilson, M. A., pastor of St. Andrew's Presbyterian church, Vancouver, occupied the pulpit at the Metropolitan church in the evening, talking for his subject "Wrestling Jacob." His remarks were very interesting and instructive, and were listened to with close attention by the exceptionally large congregation. There was an appropriate and particularly fine musical programme, the choir rendering the anthem entitled "Awake, Awake," while Mrs. Gladstone Hicks gave that beautiful selection, "Tarry With Me O My Saviour," and Messrs. Hicks and Russell rendered a duet in excellent voice.

Properly at 9:30 o'clock this morning the convention was called to order by Mr. Keith, the chairman. The usual devotional exercises were held and, after a period of prayer and discussion, a paper on "The Relation of the Sunday school to the mission" was read by a delegate from the Wesley Sunday school, Vancouver. An excellent paper by Mrs. Rev. Lashley W. Hall, of Cumberland, on "Necessary Qualifications for a Successful Teacher" was read by Dr. Gillespie of that district. It provoked quite a debate, and was unanimously voted an exceptionally good summary of all that an instructor of children needs in order that they may thoroughly grasp his meaning and thereby gain an insight into the scriptures. "Decision Day and How to Conduct Same" was the subject of a paper read by Rev. J. P. Westman, of the Centennial Methodist church. A representative of the Mount Pleasant church, Vancouver, association then read a discussion on "The Best Method of Conducting a Quarterly Review," which brought the session to a close.

The afternoon meeting, in progress as the Times goes to press, consists of a number of papers and five-minute debates.

A public meeting will be held this evening, when Rev. G. W. Dean, of the James Bay Methodist church, will speak on "The Book of Books." To-morrow's programme follows: Tuesday Morning. 9:30 to 9:45—Prayer service. 9:45 to 10:30—Bible reading, by Prof. Sippell, B. A., B. D. 10:30 to 11:00—Paper, discussion, "The Sunday School a Direct Evangelistic Agency," by a member of Spring Ridge Sunday school, Victoria. B. C. 11:00 to 11:45—Open parliament on Sunday school work, conducted by Rev. R. J. McIntyre, Victoria West.

Tuesday Afternoon. 1:30 to 2:00—Devotional exercise, by Mt. Pleasant League, Vancouver, B. C. 2:00 to 3:00—Question drawer, by Rev. W. E. Peckott, Wesley church, Vancouver, B. C. 3:00 to 4:30—Reports of the committees, election of officers, choosing place and date of next convention, 7:30 to 9:00—Song service, 9:00—Scriptural lesson, by Rev. Hermon Carson, Victoria. Grand rally of all Young People's Societies of Victoria, B. C. Short addresses by Rev. E. Le Roy Jukin, Emmanuel Baptist, Victoria; Rev. B. Newton, Powell, Princess street, Vancouver; Rev. W. Leslie Clay, St. Andrew's Presbyterian, Victoria. Special music. Collection. Blessing be the Tie That Binds." Misses benediction.

H. Askins and C. Boket, soldiers from Work Point barracks, while out sailing off Esquimalt lighthouse on Sunday had a narrow escape from drowning. Their boat capsized in the heavy wind prevailing, and the two men were in the water for a considerable time before Capt. Johnson, the light-keeper, saw them and went to their assistance. When rescued both were pretty well exhausted. Capt. Johnson's work in connection with the affair was very prompt, and his judgment was excellent.
