Mrs. White immediately telephoned to the central police station and officer Ward responded quickly, but when he arrived the man who tried to enter the house had made his escape. The officer found only a couple of badly frightened women.

THE TORREY MEETINGS

Rev. J. Stuart Holden, the distinguished rector of St. Paul's church, London, has written to St. John cordially recommending "all my brethren in the Episcopal church to co-operate in the mission Dr. Torrey is about to hold." When in England, he states, Dr. Torrey had the hearty sympathy of all the leading evangelical clergymen such as the venerated Webb-Pole, of St. Paul's cathedral; Dr. Griff-Thomas and Rev. F. S. Webster, took an active part in the mission. The two foremost men in the management of the mission at Philadelphia were Rev. Dr. Floyd H. Tompkins, the famous rector of Holy Trinity, and John Converse, the president of the Baldwin locomotive works. The bishop of Pennsylvania at the conclusion of the mission wrote a letter for publication in which he expressed his opinion that Dr. Torrey's mission had resulted in great good to the city and had been the means of a large number of confirmations in the Episcopal churches.

Mrs. W. McK. Blewett, who has been visiting friends in the city, has returned to her home in Chatham.

ENCOURAGING REPORT OF LUMBER INDUSTRY

Lieut. Governor Tweedie Says Large Crews Are Already Entering the Woods—Men Scarce at Chatham.

Lieut. Governor Tweedie accompanied by Mrs. Tweedie, arrived in the city yesterday and will proceed to Fredericton today. His Honor when seen by a reporter, said that he was merely here on private business. Speaking of the lumbering industry he said that many of the companies operating along the Miramichi were already sending men into the woods, and that the prospects were that logging operations this winter would be conducted on the usual scale. "What about the reports that the prospects in the English lumber markets are not very encouraging?" he was asked. "Well, I haven't followed conditions in the English market very closely recently, and would not care to express an opinion on the prospects," he said. "But the market has been fairly good this summer, and a great deal of lumber has been shipped from the Miramichi. Possibly the market is dull at present, but I should judge from the preparations for winter work being made by the lumber operators, that they expect to dispose of the usual amount next year." "Are the pulp mills busy?" was asked. "Well, the output this summer has been fairly good, and all the mills seem to be working busily, of course this industry is not very profitable. England imports sulphide pulp from Sweden more cheaply than we can manufacture it, because labor and everything else is cheaper there. However, Chatham seems to be prospering. Men are scarce, and wages are good. Competent workmen ask from \$25 to \$34 per month."

GERMAIN STREET RESIDENTS ORGANIZE

Improvement Society Formed and Officers Elected at Meeting Held Last Evening—Removal of Telephone Poles

The spirit of the modern civic renaissance is having some interesting manifestations in the Loyalist city of St. John. Last night the growing band of the civic improvement society was augmented by the addition of an organization formed by the residents of Germain street, at a meeting held in the Board of Trade rooms. W. C. Allison occupied the chair and quite a number of the residents living on the two blocks where the Hassam Co. are at work, were present at the meeting. The new society was christened the Germain Street Improvement Association. Its objects are to plant trees, shrubs and grass in the unimproved plots on the boulevard between Princess and Queen streets. The election of officers resulted as follows: President—L. G. Crosby; vice-president, Lt.-Col. E. T. Sturdee; managing committee, W. C. Allison, Dr. T. B. Bishop and E. Peters. The secretary-treasurer will be elected later. The officers of the committee will draft a constitution and by-laws and submit them to the members at the next meeting. H. E. Gould, the florist, was present and addressed the meeting, giving valuable information regarding the planting of trees, etc., and describing the means employed in other cities to beautify the streets. It was announced that the telephone poles would probably be removed from the street and placed behind the buildings. The society then adjourned to meet at the call of the chair.

HAROLD PATTERSON SEVERELY INJURED

Young Man Fell from Roof of Palmer Building to Side-walk—Two Ribs Broken and Face Badly Cut.

Yesterday afternoon about four o'clock Harold Patterson, the young son of David Patterson, of Castle street, who was employed with the John E. Wilson, had a narrow escape from death on Princess street. The young man was at work on the gutter of the Palmer building about 30 feet from the ground. A chisel that he was handling slipped and he made to catch it he fell from the staging and struck the sidewalk with great force. The young workman was picked up and the ambulance summoned. He was sent to the General Public Hospital where it was found that he had broken two ribs, and his face was considerably cut. He will have to remain in the hospital for some time.

Harvey's Sale Ends Tomorrow. This brief notice of the closing of the most genuinely money-saving sale of brand new fall winter clothing and furnishings for men and boys of all sizes and ages, should make today and tomorrow the busiest of the season of bargains now about to end. Yesterday—in spite of the delayed opening—was a bumper occasion, crowds jamming the three stores until late in the evening. Prices have been ruthlessly slashed to effect a speedy outgo of as much goods as the clock can handle. The town is afire with news of the way in which Harvey is handing out the warm winter wearables, and something unprecedented in the history of local trade is promised for these wind-up two days.
