WHY YOUNG GIRLS GROW PALE AND WEAK

The Blood Supply is Deficient and Unless the Trouble is Remedied Consumption May Follow.

When girls grow weak, pale and miserable, then is the time for parents to take prompt steps. Delay means danger—perhaps consumption. The girl has too great a development into a happy, robust woman without an abundant supply of rich, red blood in her veins. It is the lack of this good blood that is the great trouble with girls who grow pale and weak. They are appetiteless, lose their spirits, are breathless after the slightest exertion and suffer from headaches and backaches. When girls are in this condition there is no medicine can compare with Dr. Williams' Pink Pills in the use of these Pills there is splendid vigorous health, with glowing cheeks and sparkling eyes, for every unhappy fragile girl who is struggling to win command in a world of health. This is why thousands of girls and women, now robust and attractive, are constantly recommending Dr. Williams' Pink Pills to their suffering sex. Miss Edith Broun, of Savanah, B.C., says: "At the age of fourteen I became very anemic. I was as pale as a ghost, suffered from headaches, severe palpitation of the heart at the slightest exertion. I had little or no appetite and seemed to be drifting into a decline. I was attending high school in Vancouver at the time, and the doctor advised me to stop. I did so and took his treatment for some time, but it did not help me in the least. Upon the advice of a friend I began taking Dr. Williams' Pink Pills and in a very short time they gave me back complete health and enabled me to resume my studies. I have enjoyed the best of health since, and owe it all to Dr. Williams' Pink Pills."

These Pills are sold by all medicine dealers or may be had by mail, post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
