YESTERDAY ALL THE FEMININE WORLD WAS OUT.

The Marr Millinery Co., Limited, were holding an Opening Display, which will be continued today, of Fall Model Hats which have just been received from the foremost designers. For sheer beauty alone this Opening Display is more noteworthy than ever. With their beautiful new showrooms, they are showing, this Fall, more Models of all styles and in more complete array than ever before. Looking for styles will be a pleasure indeed in their showrooms. It would be impossible to describe so many charming Models, but possibly the Premier one is a small model from Fisk of silk velvet and fur priced at fifty dollars. Superiority and distinctiveness are the outstanding features of their endless variety of tailored and untrimmed hats. One most pleasing style is a chin, chin sailor of silk beaver with silk velvet facing and tailored with wide, gros grain ribbon, which sells, in their showrooms, at fifteen dollars. Just a word about the wealth of attractive trimmings they are using this season. Beaver strip and long, tapered fur felt are prominently used, pleasing by uncommon beauty of texture and coloring; there are many stunning, sporty models in the bright Fall colors of these materials. Chenille is used in many ways. Silk embroidery is as popular as ever and much handsomer than in previous seasons owing to a remarkably wide and handsome new range of colors. Silver and gold thread is employed in amazing new ways for hat embellishment, introducing that metallic touch so much sought after just now. The new fad for contrasting brim facings has brought a wealth of clever ideas to employ in this connection. At The Marr Millinery Co., Limited, deals exclusively in millinery, they have gathered together a complete variety of all the new modes in Fall Millinery for Ladies, Misses and Children. They invite your inspection, both of the Fall showing and their new showrooms.

Hon. Dr. W. F. Roberts returned at noon from Montreal, where he had gone on professional business. Colonel H. D. Johnson, A. D. M. S. Ottawa, returned to the city yesterday from Fredericton, where he had been on official business.

WEDDINGS.

Lavoie-Gorman.

In the Cathedral of the Immaculate Conception, yesterday morning, Rev. W. L. Moore, with Nuptial Mass, united in marriage Miss Maud Gertrude Gorman, daughter of Mr. and Mrs. P. H. Gorman, to Philip Arthur Lavoie, Moncton. Miss Edith Gorman, sister of the bride, was bridesmaid. The groom was supported by his brother, Aurele Lavoie, of Moncton, while R. Arsenault, brother-in-law of the groom, also of Moncton, presided at the organ.

After the ceremony, the bridal party drove to the home of the bride's parents, where a wedding breakfast was served. The home was prettily decorated for the occasion. The happy pair left on the C. N. R. for a trip through Prince Edward Island, and on their return will reside in the city.

Mosher-Chestnut.
At the Central Baptist church at 8 o'clock yesterday afternoon, Miss Alma Phillips, youngest daughter of Mr. and Mrs. J. P. Mosher, of this city, was united in marriage to Mr. and Mrs. John Chestnut, 191 Charlotte street, who was united in marriage with Hazel Ludolph, youngest son of Mr. and Mrs. J. P. Mosher, of this city. The ceremony was performed by the Rev. J. D. MacPherson in the presence of a large number of friends of the bride and groom, the church being decorated with potted ferns and golden rods. Mrs. A. E. McGarry, sister of the groom, acted as matron of honor. The groom was supported by A. E. McGarry, Edgar Campbell and Ronald Bond acted as ushers. Miss Edith McGarry presided at the organ and throughout the ceremony The Voice That Breathed Over Eden was softly played. Mr. and Mrs. Mosher left on the Montreal train on a wedding trip to several of the Upper Canadian cities. On their return they will reside on Rockland Road.

Yeomans-Wasson.
A quiet but most interesting wedding took place at Sussex on September 10, Wednesday, when James Yeomans and Miss Addie May Wasson were united in marriage by Rev. G. B. Macdonald. The bride who was unattended, wore a dress of brown silk and travelling suit of navy and black hat with sand trimmings.

OBITUARY

Alfred Charles Kerriison.
An active and useful life was ended last night when Alfred Charles Kerriison died at his late residence in the advanced age of 75 years. Always interested in the advancement of his native city and a friend who was all that the word can convey, his death removes one who will be missed among all who knew him.
The late Mr. Kerriison is survived by one son, Charles M., of the staff of Nagle & Wigmore, city, and one daughter, Mrs. Colin C. Carmichael, of St. John.
The funeral will leave the residence of his son, 116 Charlotte street, today at 2:30, daylight time.

COMMON COUNCIL REGULAR MEETING HELD YESTERDAY

Corona Candy Company Granted Concessions—Board of Trade Pointed Out It Was Desirable to Encourage Industries by Doing Same—Magistrate Ritchie's Request for Increased Salary Turned Down—R. N. Dean Makes Protest—Other Business Transacted.

At the meeting of the city council yesterday a letter was read from the Board of Trade, pointing out that it was desirable to encourage industries by various concessions as other cities were offering land and electric power at 1/2 cent per kilometer to induce some industries away from St. John. The council then decided to grant the Corona Candy Company a fixed assessment of \$40,000 for 20 years.

Commissioner Jones moved the following:
Resolved, That in view of the proposition of the Corona Candy Co., Limited, to enlarge their plant and premises in order to meet the increasing demand for their products, and also with a view to stimulate and encourage such industries;

Therefore Resolved, The common council of the City of St. John deems it expedient to promote such legislation at the next session of the legislature as shall enable the said Common Council to fix and determine the assessment on the real and personal property of the company used exclusively in its business for a period of 20 years next after the expiration of the term of the present Act (namely the first day of January, 1921) at the sum of \$40,000 instead of the sum of \$20,000, upon the understanding that the company shall agree to the inclusion of the provisions of the present Act in the new or amended Act. And that the minimum number of employees during the term shall be 100 instead of 50; and

Further resolved, That the amount to be rated, assessed and charged by the City of St. John for water supply in each year during the said period of 20 years shall be at the current rates from time to time charged to manufacturers.

Commissioner Jones said that in view of the few industries here and lack of cheap power, what industries we have should be encouraged. The Corona Candy Company planned to extend their factory and double the number of their employees. Under the former concession the company had not been paying water rates. If they had paid water rates their highest for 1918 would have been \$141.

Commissioner Bullock said the city would be able to secure the benefit of increased taxes, and retain the industry. He thought it was a good proposition.

Commissioner Fisher said it was a question of competing with other cities. He was in favor of concessions, but thought the assessment should not be extended beyond 10 years. The proposed assessment would cover the existing industry as well as the extension, and they were not in danger of losing the existing industry which has enjoyed concessions for ten years.

Commissioner Thornton thought the company should be encouraged in getting the former concessions. He would not mind making further concessions for another ten years, but not twenty years. An industry that could not pay reasonable taxes was not an asset to a community.

Commissioner Jones said the solicitor of the company made it clear that the company had been in the city for 20 years and would not be considered, but would build a new plant elsewhere.

Mayor Hayes said the city needed industries. The proposition was evidently a bona fide one, and if he had to make the casting vote he would vote in favor of it.

Commissioner Fisher — "Having made a fight for ten years limit I will agree to the proposition."
The motion was then adopted unanimously.

The Police Magistrate wrote asking for a decision on his request for an increase of \$300 in his salary. Commissioner Jones — "We have to deal with requests for increases from other employees in a day or so."

Mayor — "I don't think that this has anything to do with the other matter."
Commissioner Thornton — "The Magistrate apparently thinks he was granted a salary increase some time ago, but hasn't got it."
The Mayor — "We can't increase his salary without an act of legislature. The Magistrate is now getting the maximum allowed under the Act."

Commissioner Jones suggested that they appoint a committee to consider the matter.
Commissioner Thornton moved that the magistrate be notified that his request cannot now be granted.
Commissioner Bullock said the city had offered the magistrate a half salary after superannuation. This was generous compared with what some companies did.

underground conduit in Waterloo street from Union to Richmond.
Commissioner Jones — "The city engineer should be consulted."
Commissioner Fisher — "He will have to give the location."

The motions were adopted.
The building inspector reported that he had examined the floor trusses of auditorium of the Public Hall, West St. John, and found posts, braces, chords and tension rods in good condition, showing no sign of movement or sag in any section. The structure was in good condition and capable of sustaining full seating accommodation.

On motion of Commissioner Thornton it was decided to allow the Motor Agency and Repair Company to erect a gasoline tank in the yard of their premises on City road.

The following report from the Commissioner of Public Works was adopted:
"Regarding the letter of the 10th of September from Mr. W. B. Lane complaining of water from the street running into the cellar of his house No. 160 Wright street, and also complaining of increase in his taxes as compared with those of last year, your Commissioner begs leave to report that the surface water on the street in front of Mr. Lane's house is being well taken care of, all necessary catch basins having been installed and the sidewalk and gutter being in extra good condition, well shaped and thoroughly waterproof."

Regarding the taxes Mr. Lane can obtain details of his bill from the assessors, and if he should find an error can ask for a correction of same.

SIMPLE FROCKS.

In Paris, it would seem, women are content to pay \$240 for an evening frock which simulates, as nearly as may be, the fact of an appearance "mid nodding on." The scantier the dress the greater the price, seems to be the rule. Well, we have been told that the highest art is to conceal art, and this concealment of the fact of being dressed at all is, no doubt, a difficult and artful business. We need not, however, poke superior fun at Paris or criticise the extravagance of its fashions. Apart from the outrageous examples of those who must always be outrageous, whatever the fashion, the women and girls of England have taken a good lot since the war. Indeed, the wonder is how the old-fashioned survive the assaults made upon their prejudice by even respectable matrons showing still comely legs and ankles and an expanse of chest which must be bare, even if the sun burns it a horrid red. Morality does not depend on visible fashions, and these are transient gleams. The Restoration was as bad, so was the Second Empire. Some day —bless them—they will again shroud themselves in long skirts and mystery—London Express.

HER LITTLE GIRL HAD DYSENTERY

Bowels Moved as Many as 25 Times a Day.

Dysentery manifests itself with varying degrees of intensity, but in well marked cases the attack is commonly preceded by some amount of diarrhoea, which gradually increases in severity, and is accompanied by gripping pains in the abdomen. The discharge from the bowels succeed each other with great frequency, and the matter passed from the bowels, which at first resembles those of ordinary diarrhoea, soon change their character, becoming scanty, mucous or slimy, and subsequently mixed with, or consisting wholly of blood. Never reject what at first appears to be a slight attack of diarrhoea or dysentery may set in. Cure the first symptoms by the use of Dr. Fowler's Extract of Wild Strawberry.

Mrs. Jno. V. Tanton, R. R. No. 8, Warford, Ont., writes:—"My daughter was taken down, two years ago, with dysentery, and I could find no help for her until I got a bottle of Dr. Fowler's Extract of Wild Strawberry. She was only two years old, and also something different to what she was used to. She had as many as twenty-five movements a day, and mostly blood. We had the doctor several times, but no relief came until we used Dr. Fowler's. I would not be without it in the house for a good bit."

Be sure and get "Dr. Fowler's," when you ask for it. Price 35c. a bottle; put up only The T. Millburn Co., Limited, Toronto, Ont.

TEXTILES MADE IN GERMANY.

A friend whose business compels him to watch textile production the world over tells me there are more than a hundred thousand spindles in Germany just now turning out textile material from paper and nettle fibre. A big new society, the German Paper Yarn Manufacturers of Berlin, whose loaders own the chief mills of the country, is developing the paper and nettle textile as fast as it can. This information makes me think that there is something to be said in favor of the restriction of imports, or at least of some of them.
