THE HACKING COUGH.

One of the meanest things to get rid of i One of the meanest things to get rid of is a hacking cough. There is apparently no cause for it. No soreness, no irritation at first; but the involuntarily effort of the muscles of the throat to get rid of something is almost constant. Of course, with many cough is a habit, but it is a bad habit, and should be stopped. When you realize this and try to stop it, you find you can't, for by this time there is an actual irritation, which will never get better without treat-ment.

ment. It is a curious thing that nearly all treat-ment for cough actually makes the cough worse. Then, too, most medicines for cough have a bad effect in the stomach. This is especially true of so-called cough ramedies that contain a narcotic. The true treatment for cough is one that heals the irritated sur-faces. This is what Adamson's Botanio Oough Balsam does. It protects the throat also while the healing process is going on. When this remedy was first compounded our old men were young boys, and all this time it has been doing a steady work of healing throats. The mest obstinate hacking cough will quickly show the effect of the Balsam. People who have been trying for years to break up the mean little cough, will find a sure friend in this old-time southing com-pound made from the barks and gums of trees. All druggists sell Adamson's Botanio Balsam. 25 cents.
