The Transcript for Job Printing

District and General.

The Strathroy Age moved into its new quarters last week.

Dutton's county rate this year is \$1,405. Last year it was \$793.

In Leamington \$120 was raised by private subscriptions towards oiling the streets. The balance of the sum required will be provided by the town council.

While cutting wood on the farm of McGugan and Turner, Angus McGugan, of West Bothwell, killed a black snake 8 feet long and 8 inches in circumference. The reptile put up a fierce fight, but a blow from an axe sealed its fate.

Believed to have been dead over seven hours, following a severe attack of asthma, Mrs. Joseph B. Lawrence, of Glencoe, was restored by the use of a pulmotor, and by night was sufficiently recovered to partake of a substantial supper. A doctor declares that she is entirely out of danger.

A middle aged foreigner, styling himself Prof. Geismann, appeared in the police court at Ridgeway, and pleaded guilty to the charge of selling spectacles and optical goods without a license. Other charges of having obtained money by misrepresentation, etc., were not pressed. He was made to leave the district.

There are 4,000 prisoners of war in Canada, 3,000 of them are Austrians and 1,000 Germans. In addition there are a few Turks. Little trouble has been experienced with any of them, especially the Austrians. These are engaged mainly in outside clearing camps. The Germans are locked up mainly at Halifax, Amherst and Kingston.

Henry Ford, the motor magnate, expects to erect a vast plant in which he will manufacture a traction engine for farm use. Two of these traction engines have been tested on Mr. Ford's farm, it is said, and have proved successful. They pull wide gang plows, harrows or any other device used in tilling fields or harvesting crops.

Barton Walker, the oldest resident of Muncey, passed away Saturday morning as the result of injuries received in a runaway a few days ago. Mr. Walker was born in New York 83 years ago, and when a boy moved with his parents to the township of Yarmouth, where he lived for about 30 years, moving to Muncey nearly 50 years ago.

The success of the Canada temperance act campaigns in Perth and in Huron has been so gratifying to temperance forces that it was stated Saturday that campaigns will probably be undertaken in Middlesex and Elgin in the near future. It was stated that the Middlesex campaign would probably be brought on first, perhaps next year.

John J. Gosnell, living about 3 1/2 miles east of Ridgeway, had his fine big barn, drive shed and implement house destroyed by fire, together with a horse, a sow, six cows, two calves and all of his implements; also about 300 bushels of grain. The cause of the fire is unknown. The loss is estimated at about \$3,500 with an insurance in the Howard Mutual for \$2,200.

Bear Creek School Picnic.

Melbourne, June 22.—The picnic which was given under the auspices of the Bear Creek school on Saturday, June 19, on the beautiful old Indian camp-meeting grounds near Middlesex was the largest and most successful ever held in these parts. Dinner was served from 12 to 2 to a large crowd.

The chair was taken at 2 p. m. by H. James, of Delaware. Several musical numbers were introduced. The N. Timothy Company (Indian singers of Muncey) entertained the first, to some excellent selections, and won well-merited applause for each number. Master C. Auld, the young "Harry Laurier," pleased everyone as usual, with his beautiful old Indian camp-meeting grounds near Middlesex. Mr. Fisher, little Blanche Waddilove and the children of the Bear Creek school also delighted the crowds with musical selections. The "Hive and Drum" Band with their lively music was one of the pleasures of the picnic, and the always popular Oneida Brass Band, which was in attendance, rendered most excellent music during the afternoon.

Rev. Mr. Stevens and Rev. Mr. McTavish each gave a short but interesting address.

The lacrosse match between Oneida picked teams was very exciting, the score being 5 to 2 in favor of H. Williams' team. Baseball, races, swings, etc., were pleasing features of the afternoon, and the two large booths were well patronized.

Western Canada Crops.

E. D. Hull, formerly of Glencoe, who has recently been appointed special shipper for the Government of remount horses into Brandon, Manitoba, for Manitoba, Saskatchewan, Alberta and British Columbia, has had a first-class opportunity of seeing the crop conditions in Western Canada, as his work has taken him over most of the roads of the different provinces.

In a letter to The Transcript he writes—I am glad to say that the prospects at present are the best ever known, especially in Southern Alberta. There has been a much greater acreage put in this year than ever before, and in much better shape, and they have had plenty of rain and to spare. We have had no frost at all except in Manitoba and even then nothing was damaged except a little garden stuff and some of the small fruit. So, with favorable conditions from now on, Western Canada will surely have a wonderful crop to harvest.

CALL CAME SUDDENLY

Mrs. Moss Taken Ill at Church and Dies Shortly After.

Glencoe and vicinity was startled on Sunday by the unexpected death of Mrs. Moss, wife of the well-known barrister, Wm. D. Moss, of the firm of Elliott & Moss.

Mrs. Moss was in her usual good health on Sunday forenoon when she taught her class in Sunday School and attended service in St. John's church; in fact she had remarked to her friends how well she was feeling. After service Mrs. Moss was with the choir practicing the anthem "Jesus, Lover of My Soul" for the evening service, when she took a severe pain in the head and immediately became unconscious. She was taken to her home, where she expired about an hour later without rallying.

Mrs. Moss was formerly Miss Anna Simpson and was born in Glencoe about 47 years ago and had lived here all her life. Her father was the late James Simpson, who died several years ago. Her mother has been residing with her since the father's death. She leaves her bereaved mother and husband and a family of two sons and two daughters.

A lady greatly esteemed for her pleasing personality and interest manifested in church work and other good causes, her death, so untimely and sad, will be deeply regretted by all.

The funeral took place yesterday afternoon, service being at St. John's church and interment at Oakland cemetery.

HONORING THEIR TEACHER

Handsome Tribute Paid to Principal W. C. Allin and Wife.

Tuesday afternoon, on the closing of the Glencoe public school for holidays, an event of a most pleasing nature took place in the principal's room. In the presence of a number of the citizens of the town, the teachers and many of the pupils, Principal Allin and Mrs. Allin were made the recipients of handsome testimonials in recognition not only of Mr. Allin's faithful and efficient discharge of the duties of principal for a quarter of a century but as an expression also of the high esteem in which both have been held as citizens of Glencoe during that time.

The presentations consisted of a handsomely upholstered easy chair to each, and an engraved gold-headed cane to Mrs. Allin. The presentations were made by Miss Muriel Precious and Miss Frances Sutherland on behalf of the friends.

Mr. Allin, speaking for himself and Mrs. Allin, accepted these tokens of our friendship and esteem, and accompanied them with the hope that they both may be spared many long and happy years.

The address was read by Miss Dorothy Weir and the presentations were made by Miss Muriel Precious and Miss Frances Sutherland on behalf of the friends.

Death of J. L. McEachran.

After a wasting illness of several weeks, John L. McEachran, well known and esteemed farmer of Ekfrid township, a short distance east of Glencoe, passed away on Saturday last, in his 64th year.

The funeral took place on Monday afternoon. Service was held at his late home, conducted by Rev. Geo. Veir, and interment was made at Oakland cemetery. There was a large gathering of friends and relatives to pay their last respects.

John L. McEachran was born on the farm where he died. His mother's name was Margaret Lindsay, and she was a native of Scotland. Donald McEachran, his father, who died about 14 years ago, was born in Kintyre, Campbellton, Scotland. Besides his sisters he leaves two children—Margaret B., aged eleven years, and John A., aged eight years. His wife, Grace McNabb, died two years ago. His sisters are Mrs. Dugald McMillan, of Kintyre; Mrs. James Middleton, of Detroit; Mrs. Malcolm Brodie, of Aldborough; Mrs. Dan McMillan, of Kintyre; and Mrs. Wm. Gillett and Mrs. Baxter, of Rodney, Ontario, a brother, died in early life, and Alexander, another brother, died some twenty years ago, also a sister, Mrs. Robert Campbell, of Aldborough.

Mr. McEachran was a splendid type of citizen and will be much missed in the community. He held the position of president a few years ago and was also a director for some time of the Moss and Ekfrid Agricultural Society. It was mainly through his energy that the plowing matches held some years ago were established and carried on successfully. Mr. McEachran was also an officer in the Glencoe Sons of Scotland lodge for some time, and was a member of the Glencoe Presbyterian choir until recently.

MOSA PIONEER DIES

Charles M. Farris Settled in Middlesex Eighty Years Ago.

One of the oldest and earliest pioneer settlers of this district passed away on Tuesday in the person of Charles M. Farris, of the Longwoods Road, Mosah. Mr. Farris was born in Fredericton, New Brunswick, in the year 1827 and came to Westminister township in 1834 with his parents, who were natives of Scotland. Some forty years later Mr. Farris, long after his marriage to Miss Charlotte Fox, of Westminister, came to the township of Mosah and settled on the farm known as the Robert Conihard Farm on the River Thames. About four years ago he sold this farm and moved to the Longwoods Road where he has since resided, his wife dying about two years ago.

Mr. Farris was the eldest of a family of thirteen, five of whom are now living—Mrs. Farquhar, of Dorchester; Mrs. Brodie, of Detroit; Mrs. Thomas Willis, of Wetaskiwin, Alberta; Mrs. Andrew Strachan, of Toronto; and Mrs. Robert Clanchan, of Glencoe. His family also consisted of thirteen, seven of whom are now living—William Farris, of Wyoming; Mrs. David Wellington, of Cambridge; Mrs. Robert Thomas, of Sarnia; Mrs. John Thomas, of Mosah, and Maggie, Charlie and Walter, at home.

Up to a few months ago Mr. Farris had always enjoyed excellent good health and was quite active for one of his years. He was one of the hardy pioneers to whom Canada owes so much of its present day thrift and beauty of landscape. May their memory never cease to be cherished.

The funeral service will be held this afternoon at 2:30 at his late residence and interment will be at Oakland cemetery.

Soldiers' Comforts Appreciated.

Mrs. Hollingshead has received acknowledgement of a package of socks and handkerchiefs, forwarded by her some time ago for use of the soldiers at the front, in the following letter from a member of the Winnipeg Rifles who was fortunate to have them fall into his hands:—

France, June 1st, 1915.
Dear Madam—I take the liberty of writing a few lines to thank you for socks and handkerchiefs, which I received yesterday. They are much appreciated by all the boys. We received them after coming out of the trenches. We are resting at present but expect to go back to the trenches again some of these nights. The weather is beautiful and warm out here, where we are billeted on the banks of a canal.
Yours truly,
(1526) J. J. HERREN,
90th Winnipeg Rifles.

The Western Fair.

The special programme of attractions offered by the management of the Western Fair this year will be above the average. One act alone, the seven Adas, a troupe of aerialists, will be well worth the price of admission. The Seaberts, the whole World's Greatest Equestrians, with their beautiful horses will be an attraction long to be remembered. The Pekinese Troupe, real Chinese gymnasts will be something new and startling. Les Ortaeny's will furnish comedy that will please everybody, while the Bard Brothers are reported to be the best acrobats that ever appeared on the stage, also the Lefell Trio and many others. There will be music by the best band obtainable every day and evening. A change of fireworks programme will be given every night and will be the best ever seen in London. Two speed events will take place each afternoon in addition to the above. Single fare over all railways west of Toronto; fare and one-third from outside points. All information from the secretary, A. M. Hunt, London, Ont.

IN A STORM OF BULLETS

How Canadians Fought the German Masses Before Ypres.

Writing from a hospital at Carmarthen, Wales, to his sister, Miss Florence Quinn, of Vancouver, Private A. F. Quinn of the 72nd Highlanders at the front gives a vivid description of the stubborn stand of the Canadians against the Kaiser's hosts in front of Ypres, when the boys from the Dominion "saved the situation." After describing his life in the hospital, where, although given the best possible treatment, he is longing to be again in action, Private Quinn says:—

"It certainly was some scrap. The bullets were like hail and the shells were bursting all around us, blowing men in all directions. It was enough to give anyone the nightmare for the rest of his life.

"The first day of the fight I got through without a scratch, although the bullets were humming around like a swarm of flies and men were dropping beside me. The man I had chumped with for the past six months was killed and a lot of fellows I liked best. The second day we were sent into the trenches to reinforce the 8th Battalion and I tell you there was nothing slow about the Germans in front of us. I was looking through a loophole in the trench parapet and a shell burst nearly over my head—whack!—I thought my arm was gone. It felt as if someone had hit me in the arm with a sledgehammer. I had no time to take my coat off so I had one of the boys tie it up tight. The shells were dropping on us pretty thick and hitting some of us nearly every time. About an hour after the first one hit me another piece of shell hit me in the back of the shoulder and it is still in there. The medical officer at Cardiff said it would work its way out. It is only a small piece, but it felt like a cannon ball when it hit me. I began to think to myself that the third would fix me and by the way things were looking it wouldn't be long in coming.

"We knew the Germans were waiting until they thought their shrapnel and gas shells had about finished us, then they would rush out and rush our trenches. About 5 p. m. they came at us with a yell, but they didn't get far. We let them know that their shells didn't take all the life out of us, and we peppered them with our own. They did and sent them back to their own trenches in quick time.

"We all knew that we couldn't hold them back much longer and that we would have to retire or fix it in the hands of the Hun. The country behind our trenches was level and open and no reinforcements could get in to us in the daytime because the Germans could cover the top of our trenches with their artillery and machine guns.

"Well, we stuck it until 7:30 and then came the order to retire, and the few that were left started back, and we just started in again. The country behind our trenches was level and open and no reinforcements could get in to us in the daytime because the Germans could cover the top of our trenches with their artillery and machine guns.

"We had got used to them flying around. There were some reserve trenches about three-quarters of a mile back and we did some tall sprinting to get them before the Germans caught us. Most of us got to them and found a bunch of our own men were waiting for us. Many of them were over our trenches in hundreds and it seemed as if about ten million bullets were flying around us. One went through the top of my cap, another went into my water bottle, but we didn't mind the bullets, we had got used to them flying around. There were some reserve trenches about three-quarters of a mile back and we did some tall sprinting to get them before the Germans caught us. One went through the top of my cap, another went into my water bottle, but we didn't mind the bullets, we had got used to them flying around. There were some reserve trenches about three-quarters of a mile back and we did some tall sprinting to get them before the Germans caught us. Most of us got to them and found a bunch of our own men were waiting for us. Many of them were over our trenches in hundreds and it seemed as if about ten million bullets were flying around us. One went through the top of my cap, another went into my water bottle, but we didn't mind the bullets, we had got used to them flying around.
