NOTES

Death prompts walkway

ST. JOHN'S (CUP) — The blockade of a Memorial University of Newfoundland road ended October 21 when the provincial government promised to construct permanent crossing facilities on the parkway which recently claimed the life of a MUN student.

Judy Ford was killed October 17 on a pedestrian crosswalk on her way to class. Over 2,000 students set up barricades on the parkway, which runs through the campus, demanding that an overhead skywalk be constructed to end the dangerous conditions.

Newfoundland Premier Brian Peckford said October 21 the provincial government would pay 75 per cent of the \$1.5 million cost of constructing two skywalks and installing traffic activated lights on the parkway. The university and the City of St. John's will share the remainder of the costs.

The demonstrators are currently negotiating with the university to ensure that no one who took part in the blockade will be penalized academically.

The protest was supported by the National Union of Students, the Association of Student Councils, Ford's parents, and many Newfoundland colleges and high schools.

Free booze, drugs and car

(ZNS) — Students in Sacramento, California are earning \$50 a day to smoke free marijuana, drink free liquor, and drive around a test track in an official state car.

A federal-state study of this kind has been underway to determine the effects of pot and alcohol consumption on driving skills.

You'd think that volunteers would be beating down the doors to get into the program. But *The Los Angeles Times* reports that half of the 36 volunteers who signed up a few months back have dropped out of the program after just one day of being stoned on the course.

Robert Drake, the project's director, says that while it sounds easy and fun, it's really hard work.

"It sounds sexy, but you go out there and do it and it's pretty damn dull. You get your arm poked every half hour, and draw blood. You start drinking at 8 am. That's pretty exciting? Then they cut you off (from liquor and pot) at 11 am, and keep you out there until 4 pm when you want to sleep."
