

19 Okemarus asked me if he could get paid for some hay and wood that he furnished the Agency

Farm 10 Instructor Chaffy-Pettyguth,
Mistunasis and Atetutikahkoop Bands
Nos 102-103-104.

20 In the remarks Column I give the reasons submitted to me for the discrepancies between the quantities charged by the Agency and those received by the Farm. Some have not been satisfactory explained as in the case of wheat Six hundred & seventy six pounds charged and only Five hundred & seventy six pounds received, this difference was noted on the Bill of lading by the Instructor & should have been investigated by the Agent immediately.

21 It appears that none of the points shown on the Agency inventory will fit the Plows here.
