THE MAY FIRE LOSS.

The fire loss of the United States and Canada for the month of May as compiled from the carefully kept records of the Journal of Commerce and Commercial Bulletin, N.Y., shows a total of \$18,823,200.

The following table gives a comparison of the losses during the month of May with those of the same month in 1908 and 1909, together with the losses since January 1, for those three years and the monthly losses for the balance of 1908 and

Total year \$238,562,250 \$203,649,150 During May there were 230 fires, each of sufficient destructiveness to cause a loss of \$10,000 or For comparison the following tabulation according to the amount of the loss caused is submitted.

Some thirteen fires during May caused a loss of \$200,000 or more in each instance, and of these the most important ones were:

| Ford City, Pa, plate glass works | \$1,500,000 |
|--|-------------|
| Kansas City, Kan., soap factory and other | 1,500,000 |
| Shelter Island, N. Y., summer hotel | 250,000 |
| Cleveland, Ohio., furniture store | 350.000 |
| Oak Grove, Ala., lumber plant | 300,000 |
| Elkhart, Ind., band instrument factory | 500,000 |
| Bluff Point, N. Y., summer hotel | 500,600 |
| Minneapolis, Minn., Implement warehouse and other. | 1,000,000 |

The May, 1910, losses aggregated about \$1,500,-000 more than the sum chargeable against the same month in 1909, and the losses of this year so far are now only about \$3,000,000 less than for the same period in 1909. The fire underwriters are quite discouraged at the present time owing to the combination of a prospective commission war in the East and a fall in the price of security values.

FIRES OF THE WEEK.

THAT SETTLED IT.

Superintendent of Insurance William H. Hotchkiss said at a dinner in New York, according to the New York World:

There are not so many people buying annuities from the insurance companies as there used to be. This, perhaps, speaks well for human nature. An annuity holder, you know, is apt to be selfish.

"I heard the other day, though, of an annuity holder against whom the charge of selfishness could not be brought.

This man lived on and on. Year after year his annuity was paid. Finally, when his age seemed about 110, the company sent a special agent to his house to make sure that James Montrose in his proper person was really getting the annuity.

"The agent found James Montrose, an aged man, but hale, making a chicken coop in the backyard.

'Are you Mr. James Flagg Montrose?' he asked.

"'Yes, sir; I am,' the old man answered.
"'Are you the Mr. Montrose who draws the annuity from the Dash Company?'

"'Yes, sir, I am, and my father before me,' said the old man.'
