sible for a condition known as
"sweeny."

It has been the earnest endeavor
of this article to show that the
farmer is directly responsible for
the sore shoulders of the young
horses; that by observing a few
simple things he may avoid loss
of time, expense and suffering or
perhaps permanent injury to his
animals.

If an accident occurs and in
spite of careful attention a horse's
shoulder becomes injured, do not
wait until a fistula has developed,
or an abscess has formed, or the
animal is "sweened," but seek the
advice of a veterinarian while
there is still a chance to check the
progress of the injury. This is
not the proper place to teach the
treatment of such conditions after
the injury has been done; it takes
years of school work to do that,
but it is a good opportunity to
impress upon the minds of horse
owners that such unfortunate
things may be entirely avoided.

The following is a list of Can-
adian patents recently issued

ments in tires; Donald Rawstron,
improvements in moulding and
casting re-inforced brake shoes;
Jas. Martin, picker spindles for
looms; Chas. S. Brand, extraction
of zinc; Geo. J. Ogden, Electric
oven; F. Lilienthal and G.
Lauer, treatment of mica; Wil-
liam Rickmers, improvements in
explosives; William Rickmers,
improvements in explosives (2);
Chaimsonovitz P. Elieson, Elec-
tric accumulators; Arthur J. Bed-
ford, tubular fence dropper.

Granite Harvester Oil

For Reapers, Threshers,
Plows, Harrows

Insures better work
from the new machine
and lengthens the life of
the old. Wherever bear-
ings are loose or boxes
worn it takes up the play
and acts like a cushion.

Changes of weather do not affect it.

Gasolene
and
Kerosene
Engines

Standard Gas Engine Oil

is the only oil you need. It provides per-
fect lubrication under high temperatures with-
out appreciable carbon deposits on rings or
cylinders, and is equally good for the ex-
ternal bearings.

Steam Traction
Engines
and
Steam Plants

Capitol Cylinder Oil

delivers more power, and makes the engine
run better and longer with less wear and tear,
because its friction-reducing properties are
exactly fitted to the requirements of steam
traction engines and steam plants.

Traction Engines,
Wagons, Etc.

Mica Axle Grease

makes the wheel as nearly frictionless as pos-
sible and reduces the wear on axle and box.
It ends axle troubles, saves energy in the
horse, and when used on axles of traction
engines economizes fuel and power.
