

CARNEFAC

FED TO THE BEST BY THE BEST

Who Knows Better, or Who is Better Known?

Than **Prof. T. Shaw**, late of the Ontario Agricultural College, Guelph, Ont., now editor of St. Paul Farmer, and **Robert Belth**, the noted Canadian horse breeder?

St. Paul, Minn., Dec. 10, 1902.

This is to certify that the ingredients used by Mr. W. G. Douglas, Winnipeg, Man., in the manufacture of his Carnefac Stock Food have been submitted to me for my opinion regarding their value. I may say with reference to them that I am satisfied they are all beneficial. If properly blended they should make a splendid tonic for live stock, more especially when the digestion is not in the best working order. They will act as an appetizer and will also tend to stimulate the digestion, so that when fed to animals not in good condition of thrift the result should be to quickly improve their condition. I would suppose that this food would be especially helpful in feeding horses in preparing them for spring work, and in putting in tone the stomach of cattle, sheep and swine that have been pushed too hard in feeding. It should also render good service when fed to calves that are not prospering because of indigestion.

THOMAS SHAW.

Waverley Farm, Bowmanville, Ont., Oct. 25, 1904.

To THE CARNEFAC STOCK FOOD CO., Toronto and Winnipeg, Gentlemen.—We have been using Carnefac Stock Food for the past six months, and I take much pleasure in telling of the wonderful results we have experienced since we commenced to use it. Our Hackney horses, led by Stakon, being prize winners at the World's Fair, St. Louis, Miss., require and get, beside the best possible attention the best possible diet, and this necessarily guides us in our selection of either Stock Food or Condition Powder.

We first used Carnefac for some horses who had distemper, with the result that it kept their stomachs in splendid condition and kept feeding so the disease was thrown off quickly and the horses did not go back in condition.

To owners of high-class horses, we can cheerfully recommend Carnefac.

Farmer's Cyclopedia of Agriculture

A Compendium of Agricultural Science and Practice on Farm, Orchard and Garden Crops, and the Feeding and Diseases of Farm Animals, by **EARLEY VERNON WILCOX, Ph.D.**, and **CLARENCE BEAMAN SMITH, M.S.**

This is a new, practical and complete presentation of the whole subject of agriculture in its broadest sense. It is designed for the use of agriculturists who desire up-to-date reliable information on all matters pertaining to crops and stock, but more particularly for the actual farmer. The volume contains Detailed Directions for the Culture of every important Field, Orchard and Garden Crop grown in America, together with descriptions of their chief insect pests and fungous diseases, and remedies for their control. It contains an account of modern methods in feeding and handling all farm stock, including poultry. The diseases which affect different farm animals and poultry are described and the most recent remedies suggested for controlling them.

Adapted to the Conditions Peculiar to Canada

The Farmer's Cyclopedia embodies in its many articles, a digest of local and state experience, and a Compendium of general knowledge, all of which will prove of indispensable helpfulness to everyone in this section. A postcard will bring further particulars. Price is within the reach of every farmer. Price, \$3.50.
