THIS thirty-two page illustrated book-let is of vital interest to every farmer in Canada. It answers the questions you have been asking. It solves the problems you have been wrestling with. It gives you just the kind of information about tractors and tractor farming that you have been looking for. Sent free to any one. Mail the coupon to-day for your copy.

Why the Cletrac TANK-TYPE TRACTOR Best Meets Your Needs

The Cletrac is a "year round" tractor

We believe that we can prove to the average farmer that he can get *more* work out of the Cletrac, *more* days in the year than out of any other tractor on the market. The Cletrac is useful in winter as well as in summer. It makes money for you in the fall as well as in the spring. It is a "year round" machine. Send for the booklet shown above. It will open your eyes to the tremendous possibilities of tractor farming with a machine you can use *twelve months in the year*.

The Cletrac has a wider range of use

It is small enough to be used economically on light jobs, yet powerful enough to handle most of the so-called *heavy* work about the farm. It plows, harrows, plants, reaps, binds, threshes, hauls, cuts ensilage, fills silos, saws wood, and does practically all the work formerly done by animal and stationary power.

The Cletrac is built to stand hard usage

It is rugged—and *powerful*. It is designed and built by practical men

who know what a farm tractor must stand. It is economical in its use of kerosene and oil.

Don't wait! Get your Cletrac now

Orders are coming in fast and we are filling them as rapidly as we can. In another month we will be behind again. If you want your Cletrac promptly *order it now—to-day!* Don't wait! Every day's delay means a later start in reaping the greater profits that are bound to come with year-round Cletrac farming.

Send for this booklet: "Selecting Your Tractor." It goes into *your* problems—and *solves them*. It doesn't do a lot of theorizing, but gets right down to cold, hard facts that are of real live interest to every progressive farmer. Fill out this coupon *now*—and mail it *to-day*.
