

### Absolute Security

Security is the all-important feature in making an investment; the rate of interest promised is a secondary consideration.

Probably the safest investment in the whole world is a monthly income policy on the endowment plan taken in The Mutual Life Assurance Company of Canada for the following reasons, among others:

If the policyholder survives the term of the endowment he receives an income monthly which is guaranteed for at least 20 years—or will be paid until his death.

If the policyholder does not survive the endowment term the payments are made to his beneficiary.

Should the beneficiary survive the 20 years during which the payments are guaranteed they will be continued until her death.

### More heat without pipes Pay less for fuel!

**BANNER PIPELESS FURNACE**

The Banner has no pipes to retard or waste the flow of heat. No maze of pipes to "take your measure" every time you walk about the cellar. It can go far on a few shovelfuls of coal. The result is that the

keeps the home comfortably warm at less than the cost of the usual furnace. It is well suited to the farm house because no walls, or partitions have to be cut up or torn down to put it in. Full instructions as to how to erect the Banner are sent to each customer. Send a rough plan showing location of rooms and dimensions of house and our heating engineers will specify a furnace best suited to your needs. We will also send you a copy of our booklet, "Winter Comfort in Your Home," which describes the Banner Pipeless Furnace in detail.
