W. D. MONKMAN, BONDHEAD, ONT.

Leicesters

A few choice ram lambs and ewes of various ages. Also DUROC JERSEY SWINE. WAC. CAMPBELL & SONS, Harwich, Ontario.

There is a well-known editor who dislikes nothing more than superfluous questions.

On one occasion the telegraph editor approached with this query:

"Here's a story of a big landslide in the west. Under what head shall I put it?"

"You might throw it in with the real-estate transfers," caustically suggested the "old man."

QUESTIONS AND ANSWERS. Miscellaneous.

ENGAGING A TEACHER.

A, B and C are trustees. A, of Union-school section, is secretary. A and B are V—trustees, and C is an M—man. A notifies B and C to come to his home, and, while there, discusses the hiring of the present teacher. A is in favor of the teacher, and C against her. This night they met, B and C decided to let the teacher go, and ordered A to advertise for a new teacher. Later on, A's friends induce B to hire the present teacher. B comes to A's house, and teacher is hired privately, without consulting C in the matter. Is such an agreement legal?

Ontario.
Ans.—We think not.

ORGANIZING A SOCIETY.

In organizing a society, what are the duties of the officers: president, vice-president, etc., of an agricultural society, for instance?

Ans.—The president is one of the most important officers of an agricultural society. His duties are to act as chairman at all the Board meetings, and take an active part in the interests of the society. In the absence of the president, the vice-president takes the chair. The secretary should keep a record of all meetings and attend to the correspondence. At exhibition time, he is usually the busiest officer of the Board. It is also the secretary's duty to make the annual returns to the Department, and see that the annual meeting is regularly advertised. The treasurer's duty is to keep correct record of the financial transactions of the organization.

J. LOCKIE WILSON.

SALE OF UNSOUND HORSE.

A bought a horse of B for \$200, and after A got the horse home he discovered that it had a sidebone, and had the feeder taken out of the foot by an unprofessional man. The horse was going rather sound on the foot at time of sale. The horse has got so lame that he cannot put his foot to the floor. A gave his note for eight months. Now A will not pay the note. Can B collect it? A claims that a man cannot knife a horse and sell him without telling A all the particulars of the horse, and knifing him to make him go sound. The horse got gradually worse after sale, and in the course of six weeks he could not get out of the stable. Can B collect the price of sound horse, as A thought the horse was sound?

E. H. Ontario.

Ans.—B can probably recover, from A, the amount of the note; but A is apparently entitled to counterclaim against B for damages in respect of the unsoundness of the horse.

FEEDING VALUE OF THRESHED ALSIKE - RINGWORM.

1. What food value, if any has clean alsike straw, with the chaff in it, which has been kept inside after threshing?
2. Is it good for milk cows, or has it any effect upon the milk?
3. What will cure ringworm on calves?

A. M.

Ans.—1 and 2. Alsike straw, if from clover that has been cured without undue exposure to dew and rain, has enough feeding value to make it moderately useful, especially for use along with ensilage or roots and straw. It is best for sheep and cattle, other than milking cows. It is not good for the latter, being liable to make the milk bitter. It should not be fed to horses without dampening, and, then, only in small quantities—better not at all.

3. Wash well with warm water and soap to soften the scale; wipe dry, and rub well with a mixture of sulphur and lard, after which it would be well to sweep out the stable, and whitewash all over. Keep the affected animals separate from others, if possible, and clip the hair from around the affected parts so that they can be kept covered with the sulphur and grease.
