

Ladies benefit by this oven test—

It allows you to use less flour. For only flour that makes more bread and better bread in our oven test is offered you.

From each shipment of wheat delivered at our mills we take a ten pound sample. The sample is ground into flour in a tiny mill. The flour is baked into bread. If this bread is high in quality and large in quantity we use the shipment from which it came. Otherwise, we sell it.

So your benefit from flour bearing this name is sure.

ROOFING SACRIFICED

Only The Labels and Wrappers Spoiled

The floor of our basement containing newly arrived stock of roofing was flooded owing to a break in the sprinkler system. The Roofing itself is as good as ever. Naturally water does not hurt roofing. But rather than re-wrap and re-label this roofing we have decided to sell it at a sacrifice.

REDUCED PRICES

	Weight.	Regular Price.	Reduced Price.
1 Ply Mica Coated Roofing	35-lbs.	\$1.85	\$1.45
2 " " "	45-lbs.	\$2.25	\$1.75
3 " " "	55-lbs.	\$2.75	\$2.15
4 " Marble " "	65-lbs.	\$3.10	\$2.45

All roofing is put up in full rolls of 108 square feet complete with nails and cement all ready for laying. Reduced prices are f.o.b. Hamilton. Roofing takes lowest freight rate.

ORDER QUICK—SEND NO MONEY

This roofing will go so fast that you won't have time to write for samples. Send your order at once. Tell us how many rolls you can use (each roll covers 100 square feet) and we will ship in our name to your station. Then when the roofing arrives you can examine it and pay for it, after you see what you are getting. If you are not entirely satisfied you don't need to take it.

If you expect to use Roofing this season do not delay your order.

When writing advertisers please mention this paper.

and one sister. She is not two years old yet. She is funnier than any of the others. I got a football and a lot of other games for Christmas. Do you like to go fishing or skating? I like both, and I like to get good big fellows, too. I guess I must close now, so good-bye.

KENNETH TAYLOR (age 11).

Blyth, Ont.

Dear Puck and Beavers,—I want to tell how my little sister and I amuse ourselves on a cold, sunny day.

We take a thick hand-mirror, with a bevelled edge. When the sun strikes the glass, it throws the light on the walls and ceiling just like rainbows, only they are a great many shapes and sizes. They shine violet, orange, green, red, yellow, and blue. The stronger the sun the brighter the colors. Try it yourself some day and see what good fun it is. I will close, wishing you every success.

SANDY D. CHAPMAN.

(Age 7, Sr. Primer.)

Almonte, Ont., R. M. D. No. 2.

Dear Puck and Beavers,—This is my first letter to your Circle. I have been reading "The Farmer's Advocate" for two years. I live on a farm in Ashfield. Our post office is Kingsbridge, Ont. I walk two miles to school. Our teachers are Sisters of St. Joseph. We had a very nice concert in our school before the Christmas holidays. One of the longest dialogues was "The Bogus School Inspector." The bogus inspector asked a girl "What is grass?" She answered, "Whiskers on the face of the earth," and everybody laughed.

I have a brother and sister younger than myself. Their names are Terence and Martina. If this is printed I will write again.

MARY IGNATIA HUSSEY.

(Age 9, Book III.)

Kingsbridge, Ont.

Dear Puck and Beavers,—As this is my first letter to the Beaver Circle, I will try and not make it very long. My father has been taking "The Farmer's Advocate" for about a year and a half, and we like reading it very much. We have a farm, and one cow and a calf.

My father is a section foreman on the Temiskaming & Northern Ontario railway. I go to school, and am in Senior Second class. Our teacher's name was Miss Clarke, and she went away. I live eight miles away from a town. The nearest town is Englehart. I guess I will close, wishing kind Puck and all the Beavers a very happy New Year.

WILLE SCHHEVERT (age 11).

Krugsdorf, New Ontario.

Dear Puck and Beavers,—I like reading the Beavers' letters very much. I have two brothers and two sisters; my brothers' names are Grant and Charlie, and my sisters' are Vera and Alba. I go to school every day. We have a mile and a half to go to school. One sister and one brother and I go. I guess I will close with a riddle. Hope this will escape the scrap-bag.

Why does a duck swim in water? Ans. —Because it can't walk in water.

MARJORIE THOMPSON.

Beaverton, Ont.

(Age 9).

Dear Puck,—This is the second time I have written to your charming Circle. I was disappointed not to see my first letter in print, but I thought I would try again. We are building a new henhouse, but did not get it finished before the snowstorm. We have about one hundred and thirty hens. Last year I got a pair of skates for Christmas, and had lots of fun learning to skate. It was very good weather to skate before the snowstorm, but it does not look much like skating now.

I go to school a mile from home. I am in the Third Class. I am going to try for the Fourth next summer. Our teacher's name is Miss Aldrich. Well, I guess my letter is getting rather long, so I will close with a riddle.

What do you do when you live backwards? Evil.

I hope this will escape the w.-p. b.

ROBERT RIPLEY (age 9).

Wallacetown, Ont.

Honor Roll.

THIS WASHER MUST PAY FOR ITSELF.

A MAN tried to sell me a horse once. He said it was a fine horse and had nothing the matter with it. I wanted a fine horse, but, I didn't know anything about horses much. And I didn't know the man very well either.

So I told him I wanted to try the horse for a month. He said "All right," but pay me first, and I'll give you back your money if the horse isn't all right."

Well, I didn't like that. I was afraid the horse was "not all right" and that I might have to whistle for my money if I once parted with it. So I didn't buy the horse, although I wanted it badly. Now, this set me thinking.

You see I make Washing Machines—the "1900 Gravity" Washer.

And I said to myself, lots of people may think about my Washing Machine as I thought about the horse, and about the man who owned it.

But I'd never know, because they wouldn't write and tell me. You see I sell my Washing Machines by mail. I have sold over half a million that way. So, thought I, it is only fair enough to let people try my Washing Machines for a month, before they pay for them, just as I wanted to try the horse.

Now, I know what our "1900 Gravity" Washer will do. I know it will wash the clothes, without wearing or tearing them, in less than half the time they can be washed by hand or by any other machine.

I know it will wash a tub full of very dirty clothes in Six Minutes. I know no other machine ever invented can do that, without wearing the clothes. Our "1900 Gravity" Washer does the work so easy that a child can run it almost as well as a strong woman, and it doesn't wear the clothes, fray the edges, nor break buttons, the way all other machines do.

It just drives soapy water clear through the fibres of the clothes like a force pump might.

So, said I to myself, I will do with my "1900 Gravity" Washer what I wanted the man to do with the horse. Only I won't wait for people to ask me. I'll offer first, and I'll make good the offer every time.

Let me send you a "1900 Gravity" Washer on a month's free trial. I'll pay the freight out of my own pocket, and if you don't want the machine after you've used it a month, I'll take it back and pay the freight too. Surely that is fair enough, isn't it?

Doesn't it prove that the "1900 Gravity" Washer must be all that I say it is?

And you can pay me out of what it saves for you. It will save its whole cost in a few months in wear and tear on the clothes alone. And then it will save 50 to 75 cents a week over that in washwoman's wages. If you keep the machine after the month's trial, I'll let you pay for it out of what it saves you. If it saves you 60 cents a week, send me 50 cents a week 'till paid for. I'll take that cheerfully, and I'll wait for my money until the machine itself earns the balance.

Drop me a line to-day, and let me send you a book about the "1900 Gravity" Washer that washes clothes in six minutes.

Address me personally,

I. V. MORRIS, Manager 1900 Washer Co.,
357 Yonge St., Toronto.

264 Page Book on Silos and Silage

1913 copyrighted edition now ready. Most complete work on this subject published. Used as text book by many Agricultural Colleges.
