We all know the story of the Egyp-tian sphinx and the famous enigma it was wont to propound. There are enigmas equally as difficult of solution, yet equally as important in the affairs of this world to-day. One the affairs of this world to-day. One of these is the contradictory atti-tude of the Government of France in regard to the acknowledged beno-factors of both the French nation and the whole human race. On this important subject Rev. A. Belanger, S.J., has contributed an excellent article to the "Messenger of" the Sacred Heart." Father Belanger sup-eers hieral in Ferral seated at the poses himself in Egypt, seated at the loot of the Sphinx and holding con-verse with that fabled monster of remote antiquity. So very novel is the form and so pertinent to the issues of the hour, as well as explanatory of them, that we cannot re-

frain from taking a few extracts from the article. It is thus the Jesuit Father begins :--

suit Father begins :--The Sphinx fixed upon me his great, mocking eyes, and in their cruel, stony gaze seemed concentrat-ed all the irony that forty centuries of contemplated human comedy can produce in the heart of a sphinx. "You like psychological enigmas," he said : "therefore, listen to this one, and solve it if you dare." And, while I sat between his en-ormous stone paws and felt the hot wind of the desert sweep across my brow, a story, beautiful as heaven and horrible as hell, fell from the heavy lips of the implacable poser of problems. "There was once a society all dried up with egotism, like the gray ands of the Sahra which are parch-ed by the sun, when, lol in its midst there appeared, as the green and women attacked by a strange, sublime madness. "Wait, said the cruel lips, "the equilibrium will be re-established ; thus far you have only drunk of the glory of your race, but you will soon taste its ignominy. Listen!" He said that he could not address them as eloquently as Father Burke had done, but his welcome was none the less heartifelt. He hoped and trusted that the good God would protect and guide the convention in its work. He prayed that God would bless their work. He thanked the delegates for from long distances, He especially thanked the priests, who had left their parochial duties to attend the convention. The delegates met at 2 p.m., with Vice-President Logue in the chair. Alderman Dwight Chapman, as the acting mayor of the city, extended a welcome to the delegates. Father Mo-Gillieuddy, the president, submitted his annual report, and reports were also made by the three vice-presi-dents. The Rev. J. J. Curran, of Scranevil. AND THE MARONITES. It is quite possible that many of

our readers, on account of the rare opportunities afforded them of meet. ing with Ofiental Cattolics, are not acquainted with the history of these people nor familiar with their rites. A recent issue of the "Evening Telegram," of St. John's, Newfoundland, contains an account of A Mass, and, contains an account of 4 Mass, chanted on Sunday, 21st July last, at the Cathedral, by Rev. Jos K. Yazbek, Maronite missionary of the Church of Our Lady of the Cedars of Lebanon, Boston. The Mass was celebrated with all the imposing lit-urgy of the Maronite rite. Prior to the Mass, His Lordship B shop How-ley delivered a very interesting aud instructive sermon, in the course of which he explained the Maronite "use," and gave a historic stetch of that Church. So clear and precise is that sermon and so much does it ex-plain that may be obscure to muny of our readers, that we will repro-duce the entire report. His Lord-ship spoke as follows:— "The Maronites are Syrians, who take their name from St. Maron, the founder of their principal uomaster-les. They own a large territory in the northwest portion of Palestine, and while they pay suzereignty to the Sultan they are practically inde-pendent, and are a striking example of the blessings of "Home Rule" among an industrious, moral and re-ligious people. It is their proad boast (though iff is stated to the contrary by some writers) that they have never fallen away, like the cest chanted on Sunday, 21st July last,

boast (though it is stated to the contrary by some writers) that they have never fallen away, like the rest of the Oriental peoples, into heresy or schism, but have always retained the full and true beliefs in the duc-trines of the Catholic Church, and have remained in firm and loyal ad-hesion to the Pope and the Roman See. In fact they boast, and with truth, that their Patriarch is the successor of St. Peter in his "see of Antioch, as Leo XIII, is in that of Rome. They have, however, retained the peculiar ceremonies and uses of the very ancient liturgy known as the Jacobite, and supposed to have been composed by St. James the Aposlie, the first lishon of Larger the very ancient liturgy known as the Jacobite, and supposed to nave been composed by St. James the Apostle, the first Bishop of Jerusa-lem. The principal feature of differ-ence between this and the Roman rite is that of language. When St. Peter came to Rome he abandoned many of the more ancient Oriental customs and took up the more ad-vanced Roman or Western slyle par-ticularly adopting, the Latin lang-uage, which was then the common tongue of Europe and the western countries. Changes were also made in the cut and fashion of the vest-ments to suit them to the tastes of the surroundings. It is these minor and unimportant differences which constitue, what are called the vari-ous rites; such as Coptic, Chaldean, Armenian, Greek, etc. But in all these the great fundamental truths of the priosthood, the sacrifice of the Marss, the mystery of Transub-stantiation, etc., are identically the same; and indeed, even the Oriental sects who have separated from the Pope and refused to own his supre-macy, and are hence called schisma-tics, all these have preserved the docirine of the priesthood and the sa-erifice of the Marss. In this they differ tics, all these have preserved the doctrine of the priesthood and the sa-crifice of the Mass. In this they differ from the denominations of Western Europe, who, at the time of the Re-formation, separated from Rome. Not only by rejecting the vestments and language of the Latin Rite: not only by rejecting the authority of the Pope of Rome; but by the fun-damental denial of the priesthood, the Mass, the real presence, etc. Of this we have a confirmation at the present moment, when the King of England is made to take the Coron-ation Oath, and swear that these doctrines are no part of the Protest-

minaries. Whereas, One of the great draw-backs to successful temperance work comes from a lack of individual in-terest of the members: Resolved, That we earnestly re-commend the adoption of such mea-sures by the local societies as will bring about a greater personal inter-est in the work and fidelity in at-tendance at the meetings. ation Oath, and swear that these doctrines are no part of the Protest-ant religion. This, of course, is true, and though we Catholics may regret that there should be any need of such a declaration at all, yet we must be

As an example of the universality of the Catholic Church, His Lordship instanced the fact that in his recent tour in Palestine he had the happi-mess of passing a night at the palaco of the Maronite Patriarch at Bekor-ki. Mount Lebanon, and of recogniz-ing in him a former fellow-student who had sat beside him in the clas-sic halls of the University of Propa-ganda in Home, in the sixties. The Bishop finished with a glowing tri-bute to the noble and upright, mo-ral and industrious character of the Maronite people; and he hoped our people would respect those inoffen-sive strangers who have come to live and do an honest business are in the habit of molesting and annoying the Maronites, and hoped he would not hear any more such complaints.
