

and will be reported to  
the Secretary of State in  
the name of the Army

and War Department,  
and the British Government  
will be asked to do the same.

It is reported that a Captain sold  
the "Navy" (now the British  
Government) in 1811, and that during that

time the Astor

was occupied in the name  
of King by Captain Black, R. N. The

American Government had up till that time  
one inch of ground in that country.

"It's yours, and we paid for it," sung  
out the square, tugging away at a big log;

"you cheated the devil last night!"

The poor woman insisted that there must

be some mistake about it.

"I tell you it's yours, for cheating the

devil, you took the square," and

there comes a man to saw it up, split it, and  
go away in some wood house."

With a smile, she added, "I  
see you're a good neighbor."

Early to bed, late to rise, White W. was  
either sleeping or up at three o'clock  
and with wavy hair up in front of her  
she said, "And this is the kind of  
house."

What is this, square H.P. said the

astonished and half frightened woman? "I  
didn't order that wood, and God knows I  
can't pay for it."
