

### Each grate bar has three sides—long wear

When only *one* side of a grate bar is continually next to the fire all the wear is *concentrated* on that one side. The life of the grate bar is thus naturally just *one-third* as long as when the wear is *distributed* on three sides.

That explains why Sunshine grates have *three lives*. Each of the four grate bars has *three sides*. Each time the ashes are "*rocked down*" (no shaking with Sunshine) the side next to the fire can be changed. Thus the life of the grates is greatly prolonged.

When desired, the heavy bull dog teeth on the grates will seize hold of clinkers, grind them up, and drop the particles into the ash-pan.

THE Commissioners wish to announce to the farmers of Manitoba that they have secured permanent offices for the transaction of their business, and all communications should be sent to the Commissioners at the above address. Petition forms and all information needed by farmers in order to secure elevators at their points will be mailed upon application. The Commissioners solicit the co-operation of the farmers of Manitoba in the work of establishing a system of public owned storage elevators in the province.

### Make a big profit from every Cow

Do you know what your cows are doing? Do you know which ones are profitable— which ones are eating their heads off? It will pay you to get rid of the robber cows.

#### The Automatic Milk Scale and The Facile Jr. Babcock Tester

will show you in a short time which cows in your herd are paying a profit.

The Automatic Scale is made especially for weighing milk in the pail. There is a loose indicator on the dial that can be set at 0 by a thumb screw when the pail is on the hook. Then when the pail of milk is placed on the hook this indicator gives the exact net weight of the milk. It has another indicator that records the same as any spring balance so it can be used for weighing anything up to 30 pounds—larger sizes weigh up to 120 pounds.

The Facile Jr. Babcock Tester is designed especially for use in the dairy and on the farm. It is extremely simple in construction and operation. The working parts consist of but two cut gears and they are enclosed in a cast iron case to keep them free from dirt and to prevent their catching clothing, towels, etc. It turns easily without vibration or jar. It is sent complete with glassware, bottle brush, acid and full directions for use. It will pay you to have this scale and tester whether you milk three or thirty cows.

### ROBIN HOOD FLOUR IS DIFFERENT

#### IMPRESS UPON YOUR MIND THESE TWO SPECIAL FACTS

Robin Hood Flour must satisfy you in two fair trials or you can have your money back—it is the guaranteed flour.

Robin Hood Flour absorbs more moisture than other flours—therefore add more water when you use it and get a larger, whiter loaf.
