

GRIND YOUR FEED

"Good Luck" Power with Grinder Attachment

As a power for driving any machinery with two or four horses the "GOOD LUCK" Triple Geared Power is unequalled. The above machine, set up with Arms and Tumbling Rod ready for horses and to drive another machine by rod direct, will be found one of the best time savers and effective dual-purpose machines now in use. The construction and finish are perfect. Thousands of them are now in active service and giving the highest satisfaction. A machine of highest capability.

Fleury's "No. 3 Rapid Easy"

The "No. 3 Rapid Easy" with 10-inch plates, and its SOLID FRAME or BED, is not only an extremely handsome looking machine but the character of its work and its great capacity make it one of the best "paying guests" on the farm. Feed trough is long and broad, giving feeding and screening capacity equal to the rapid work of the grinder. Heavy steel shaft with long bearings and heavy balance wheel. Rigid and durable, this machine is especially fitted for fast running and heavy work.

CUT YOUR FODDER

Fleury's Straw Cutter No. 2

Seven different styles of this popular and thoroughly efficient Straw Cutter are now made for hand, horse or belt power—with or without carrier or blower. Used largely by hand, it is equally successful when run by rod direct to main shaft (knuckle taking the place of the washer in front of knife-wheel) or by belt drive.

This machine cuts four lengths; is perfectly Simple, strong, well-fitted and finished. Will do more work with same power than any other style of cutter you can buy.

SAW YOUR WOOD

Fleury's Circular Saw Machine No. 3

Frame of steel, angle bars well braced and strongly rivetted together. Main Shaft is of fine machinery steel, of great wearing quality, running in boxes babitted with high grade metal. On the table is bolted a hardwood board and in end of table near the saw is placed a roller which carries the timber to the saw.
