

Dependable Service at Reduced Cost

THEY
BURN
LOW GRADE
FUELS

Giant TRUCKS

The industry's greatest advancement is now available to truck users. **GIANT TRUCKS**, developed by the best engineering skill in America.

First to Burn Low-Grade Fuels

assure you dependable service and reduced fuel cost. Truck users will appreciate what an achievement this is for **GIANT TRUCKS**. They will understand what it means to them.

An exclusive **GIANT** feature enables this truck to attain full power on low gravity gasoline or mixtures of kerosene or distillate with gasoline. In burning low-grade fuels **GIANT TRUCKS** not only give maximum efficiency, but reduce fuel cost as much as 50 per cent.

Efficiency Plus Economy

That is what **GIANT TRUCKS** mean to truck users. This is the first truck burning low-grade fuels and making Giant truck owners independent of full reliance upon gasoline. Truck users must realize the possibility of further restrictions upon gasoline consumption, and the necessity for safeguarding their service.

GIANT TRUCKS are a war-time economy that truck owners cannot overlook. **BUILT IN 1, 2 AND 3½-TON MODELS.** Adaptable to every hauling need. Highly standardized throughout.

Safeguard your service with a **GIANT TRUCK**. Come in and see this truck to-day.
