

BEDRIDDEN WITH RHEUMATISM

Felt That He Would Never Walk Again
"FRUIT-A-TIVES" Brought Relief.

MR. LORENZO LEDUC

3 Ottawa St., Hull, P.Q.
"Fruit-a-tives" is certainly a wonder. For a year, I suffered with Rheumatism; being forced to stay in bed for five months. I tried all kinds of medicine but without getting better; and thought I would never be able to walk again.

"One day while lying in bed, I read about 'Fruit-a-tives' the great fruit medicine; and it seemed just what I needed, so I decided to try it.

The first box helped me, and I took the tablets regularly until every trace of the Rheumatism left me.

I have every confidence in 'Fruit-a-tives' and strongly recommend them to every sufferer from Rheumatism."

GOOD WORDS FOR CANADA.

Under the caption "There Stands Canada Like a Stone Wall," the Baltimore Evening Sun of the 18th inst. says:

"Suppose this country had been fighting for more than three years, had raised an army of 5,000,000 volunteers, had lost of that army upward of 1,000,000 men killed, wounded and missing, and on top of that should vote for conscription—that proportionally was what Sparta little Canada did yesterday.

"Four hundred thousand and more of her bravest and best are overseas, fighting in the trenches, or under the sod, and all the slackers are at home, where they can vote, and still conscription wins.

"Nor was the opposition to the Borden government solely on account of conscription. Politics was in it, racial feeling and dissatisfaction of all kinds which every government must face at the polls, and the opponents of the War Premier, were led by that astute veteran of Canadian politics, Sir Wilfrid Laurier, and still the war party wins decisively.

"Gallant, grim never-say-die little Canada!"

THE HAND OF THE HUN.

The Germans and their Agents have been at work in South Africa and have tried to incite the Boers and other to a revolt, asking for a Republic Premier Botha announces, that strong military measures are being taken to cope with the situation.

Keep your lettuce growing in a shaded place, put a cheesecloth frame, if necessary over the plants that are beginning to head up and water the plants night and morning. Sow lettuce at least three times in July.

Only 12 per cent of all the women in Canada belong to organized bodies or Societies. Get together for Red Cross work; for knitting; for canning, or gallant gardening; work en masse. Cum munity is the better way to work.

How are your peas getting along in your garden this year? If the destroying pea aphid is clattering on the leaves spray with nicotine sulphate, two teaspoonfuls to one gallon of water. If there is mildew on the leaves and pods dust the plants with sulphur and repeat every few days till this disease disappears.

R. Emmerson, Manager of the Bank of Nova Scotia in Oxford, has resigned and is engaged forming a brokerage company.

Hoe your garden every day at least; and always after a big rain or excessive watering in order to break up the crust. The more you hoe; the less watering you will have to do.

The winter wheat in the United States this year the crop will be about 1,000,000,000 bushels and the price is \$2.26. This is 350,000,000 bushels more than last year and will be an ample supply for the United States as well as for their Allies.

The U. S. government has fixed the price of copper at 26 cents a pound; a rise of 2-1/2 cents.

Some 2000 women in Vancouver have pledged themselves to confirm to the Food Board regulations and to apply the laws governing restaurants to their homes.

Police Officer Peter McGillivray, now of Truro, was in his home town for a day this week. Officer McGillivray is getting along well in Truro. It is too bad that a man and citizen of his calibre and qualifications had to leave his native town to get a similar merits are recognized. Officer McGillivray is every inch a man, a gentleman, and an officer, and is a son of Pictou County, whose demeanor deportment and work is always marked by gentlemanly courtesy, ability and efficiency—New Glasgow Enterprise.

On Monday July 1, 1867, the railroad from Truro to Pictou Landing was opened.

Ask for Canadian made goods as far as possible. Let us do without foreign imports, and then the balance of trade against us, in the United States especially, will put an exchange of a sounder basis.

Be ready with your money as soon as the Red Cross man approaches you. Do not keep him waiting. Give liberally give freely.

The Maritime Merchant, has increased its subscription price to \$1.50, a year; it has been \$1.00 heretofore. This well informed and reliable "Commercial Review" is worth to the business man more than double the advanced subscription price; and we wonder how it has remained at the Dollar price so long.

Mr. and Mrs. Leonard G. MacKenzie and family, with Rev. W. P. Grant and Mrs. Grant as guests, left today on a three or four days auto trip. They would go via Amherst to Port Elgin, and return around the North Shore via New Glasgow.

The war gardens best friend is the hoe; keep hoeing; you need not hoe deep, an inch will do but keep stirring up the earth. A plant grows better and produces more if you keep hoeing around it.

Unprecedented Fire Waste.

Up to the present, the fire loss of the Dominion of Canada is 25 per cent. greater than for the corresponding period of last year. If this rate of destruction continues, the loss will exceed thirty-two million dollars in 1918, and, together with expenditures upon insurance and fire protection, will constitute a burden of over \$65,000,000. This means about \$10 out of the pocket of every man, woman and child in Canada, or almost \$40 for the average family.

FOOD BOARD FLASHES FOR FEMININE FOLK.

Two thousand women in the city of Vancouver, recently pledged themselves to conform exactly to the requirements of the Canada Food Board and to apply the food regulations governing restaurants and bakeries to their homes.

They added a rider to this. They would discontinue all social functions which promoted the consumption of wheat products, pork, sugar and fats.

Vancouver, is one city in all Canada. Wouldn't it be stimulating to all classes of women in the community if this were done in every big city in the country?

SCIENTIFIC RESEARCH PAYS BIG DIVIDENDS.

Large United States Concern Makes Millions From One Discovery Made in Its Laboratories.

The great laboratory of the General Electric Company at Schenectady is maintained at an annual cost of five investigators, including among them several who are eminent in the world of pure science. One of its products is the tungsten lamp which is now manufactured by twenty-two factories scattered over the country. This lamp, according to a very careful estimate made in 1911, was, at that time, effecting a power saving valued at \$240,000,000 per annum. Since then, the consumption of this type of lamp has increased three-fold and further research has increased its efficiency of light production nearly 25 per cent. The research workers are discouraged from thinking of financial results as discoveries are more likely to be made by those who are working in the scientific spirit.—Prof. J. C. Fields.

Sure! High Heels Cause Corns But Who Cares Now

Because style decrees that women crowd and buckle up their tender toes in high heel footwear they suffer from corns, then they cut and trim at these painful pests which merely makes the corn grow hard. This suicidal habit may cause lockjaw and women are warned to stop it.

A few drops of a drug called freezone applied directly upon a sore corn gives quick relief and soon the entire corn, root and all, lifts out without pain. Ask the drug store man for a quarter of an ounce of freezone, which costs very little but is sufficient to remove every hard or soft corn or callus from one's feet.

This drug is an ether compound and dries in a moment and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Clip this out and pin on your wife's dresser.

APPLY IN THE PROPER QUARTERS.

Our friend, Mr. Peter Barrett, complains of the smoke nuisance, and its great destruction to his growing garden from the locomotives in the C.G.R. Roundhouse and on the near-by railway tracks. The News certainly can not prevent this nuisance. We are powerless in this respect.

Let Mr. Barrett apply to the C.G.R. authorities and see what can be done. We always accomplish more by going to the proper authorities to remedy any of our grievances.

FOOD BOARD FLASHES FOR FEMININE FOLK.

See that there are no masculine loafers around. Maybe you do not know it, but there is now a law which makes it punishable to be a loafer. If you know any man that the police authorities seem to have missed and who, in plain Canadian is "bumming," report him immediately. Every man is needed on the farms, and every woman should make it her duty to see that the anti-loafer order is enforced by the police. It's time for every Canadian to work—and to work with might and main.

Take the keenest interest in the voluntary rationing scheme. The provincial committees of the Canada Food Board are busy drawing up rules and regulations for the different provinces.

You are going to be their chief helpers in carrying out those regulations. Make it a matter of provincial pride and competition. Aim to make your province outdo the other eight, and see which of you can do the most
