Five Young Nova Scotians Go to Sea in a Small Boat and Are Loct. DIGHY, N.S., April 14.—On Sunday afternoon five young men left Salmon River for Church Point in a small craft called the Dot. They sailed as far as Meteghan and finding the gale increasing and wind ahead, turned back to Cape Cove and ran the craft aground about one hun-drei yards from the wharf. A short time after going on board they were seen to get under way, and when last seen they were running before the wind under main-sail and jib. It is supposed they intended to work the craft in nuder sail and some-thing going wrong were blown off to sea and perished. They had neither food, water, compass, stove or light. Their friends have telephoned up and down the coast and can gei no tidings. Experienced seamen say that it was impossible for a little craft to survive at sea in the fearful storms. There were some fifteen or twenty boats engaged at the time and there was quite a scattering of the men on the appearance of the inspector's tug. In one instance it is reported the tug had to fire agun in order to prevent one of the boats from sinking their net, to save it from being destroyed. Realizing that the most advanced methods of doing business must be adopted by those wishing to march in the front rank, we will on Friday next inaugurate the bargain day system, and on that day we will give cash buyers the most irresistible inducements in every department.

Our twenty years' business record stands out bright and clear for honorable dealing and steady progress, and at no time were our every day prices so much in favor of the buyer as now. Still in order to largely increase our cash business, to make new friends and to give our customers advantages enjoyed by those living in large cities, we have decided to adopt this system, at the sacrifice each week of one days profit.

We give our word to do our part, and only need your co operation to make our Friday Bargain Day a grand success.
