

Sunday School

EDUCATIONAL LESSON NO. IX. MAY 27, 1906

Commentary.—I. Jesus and His Disciples retire to a desert place (vs. 30-32). The apostles... told Him... a few weeks before this Jesus had sent the apostles out among the villages of Galilee...

II. Jesus teaches a great multitude (vs. 32, 34). The people—From John vi. 4 we see that the Passover was just at hand, and there were throngs of people going up to Jerusalem...

III. The disciples confer with Jesus (vs. 35-37). "When it is evening" the Jews had two evenings, the first began at six o'clock, the second at six o'clock...

IV. The multitude fed (vs. 39-42). He commanded—Christ had fed their souls, and healed their bodies, and now He purposes to feed their bodies...

V. The multitude fed (vs. 39-42). He commanded—Christ had fed their souls, and healed their bodies, and now He purposes to feed their bodies...

ed multitudes. Blessed—Jesus thus sets an example; we should never eat without first thanking God for our food and asking His blessing upon it. To His disciples—There has been much discussion as to just how the miracle was performed...

V. The fragments gathered up (vs. 43, 44). Twelve baskets—The word translated "baskets" means pockets or wallets. The baskets were probably the twelve wallets of the apostles...

VI. Follow Christ. I. In His compassion (vs. 34). The crowds did not come to Jesus for Himself, but for His gifts; they came for "loaves," not for love...

II. Feed on Christ. I. "The true bread" (John vi. 32). The fine flour in the Jewish sacrifices typified the humanity of Jesus (Lev. vi. 14-23; R. V.; xxiv. 5-9; Heb. vii. 26). Wheat has to be threshed...

III. The bread of life (John vi. 33, 35). More life is the cure for every ill of spirit, soul, or body. Christ, the life is food for the hungry, water for the thirsty, medicine for the sick, and comfort for the sorrowful...

IV. The multitude fed (vs. 39-42). He commanded—Christ had fed their souls, and healed their bodies, and now He purposes to feed their bodies...

C. P. R. TRAIN WAS HELD UP.

Train Robbers Got Little from the Imperial Limited.

Thieves Were After San Francisco Remittances.

Prof. Kennedy and Other Clericals on Board.

A Vancouver, B. C. despatch: There police bandits held up the Imperial Limited on the Canadian Pacific Railway at 11:30 p.m. on Tuesday, hoping to get a rich haul of cash sent from eastern points for the relief of San Francisco...

Valuable Letters Missed.

Professor Kennedy, of Knox College, Toronto, who preached the anniversary sermon of Central Presbyterian Church in this city, recently was a passenger on the C. P. R. train that was held up by robbers near Kamloops yesterday.

The robbers went no further. As a matter of fact, the registered letters in the pigeon holes contained over \$30,000.

McQuarrie was put out of the car and Willis made to climb in. The latter was asked if there was any more registered mail than the robbers held in their hands.

"Oh, all our registered mail," said the chief bandit. "Well, I'm sorry to have bothered you," he went on to Willis, who was half-dressed, "you must feel chilly."

The engineer was then made to run another mile along the track and again stop. The trio of robbers jumped down, and as they ran from the track they shouted to the railway men, "Good-bye, boys, take care of yourselves."

Big Reward Offered.

One suspect has been arrested at Revelstoke, Indian trail riders are on the trail of the missing mail.

The robbers were disappointed in not finding any Dominion express matter. The car was a combination mail and express, but on this train there was a big ocean mail to be handled, so the whole care was given up to the postal department and valuable express stuff was in the part of the train that had been left behind.

The hold up men had not sufficient courage to make the engineer take them back to the car. They told the engineer that they thought they had both mail and express, as it expressed, as it expressed, as it expressed...

Bill Miner's Gang Blamed.

It is supposed that the hold-up was done by members of Bill Miner's gang, who held up a train in this Province two years ago.

Most of the passengers knew nothing about the affair. The robbers did not molest them, and the majority slept through it all. They were only aware of the incident when they heard the

FOR BOTH

One disease of thinners in children is scrofula; in adults consumption. Both have poor blood; both need more fat. These diseases thrive on leanness. Fat is the best means of overcoming them; cod liver oil makes the best and healthiest fat and

SCOTT'S EMULSION

is the easiest and most effective form of cod liver oil. Here's a natural order of things that shows why Scott's Emulsion is of so much value in all cases of scrofula and consumption. More fat, more weight, more nourishment, that's why.

Send for free sample. SCOTT & BOWNE, Chemists Toronto, Ont.

Among the passengers on the train were a score of Methodist ministers, who were going to Victoria to attend the General Conference of British Columbia. The passengers included Rev. Dr. James Woodworth, Winnipeg; Rev. B. H. Balderston and Rev. J. H. Wright, J. W. Dean of Nelson, and two daughters, L. Thomas, of Hedy; J. D. Knox, Rossland; Rev. Dr. Henderson and Dr. Geddes, Kelowna; J. Wood, Vernon; Rev. J. H. Macdonald, Kamloops; Rev. J. H. Grey, Montreal; Mr. and Mrs. Crumb.

Market Reports

The Week.

Toronto Farmers' Market. The only grain receipts to-day were a load of spring wheat, which sold at 78c, and a load of oats at 41c.

Table with columns for various commodities like Wheat, Barley, Oats, etc. and their prices.

British Cattle Markets.

London Cable—Cattle are quoted at 104c to 115c per lb.; refrigerator beef, 9c per lb.; lamb, 15c; dressed weight.

The Cheese Markets.

Stirling, Ont.—To-day there were 435 cwt. of cheese, 235; Alexander balance 107 7/16.

Leading Wheat Markets.

New York ... 82 1/2; Minneapolis ... 77 1/2; Detroit ... 80; Duluth ... 80 1/2; Toledo ... 80 1/2.

Toronto Live Stock.

With the exception of a very few prime-picked cattle prices declined from 15c to 20c per cwt. compared with last Friday's market, and then there were several lots left over unsold.

Exporters—About seven or eight straight loads of exporters were on sale, the highest price of a straight load of 100 exporters, 1250 lbs. each, sold by McDonald & Mayber, \$5.10 per cwt.; but the rest of the shippers sold from 75c to 85c per cwt.

Butchers—Picked lots, \$4.70 to \$4.80, and there were what might be called light exports of extra quality, weighing 1200 lbs. and over. The best loads of butchers' sold at \$4.40 to \$4.50; medium at \$4.25 to \$4.40; good cows, \$3.90 to \$4.10; common cows at \$2.50 to \$3.50 per cwt.

Milk Cows—Prices ranged from \$30 to \$55 each. Veal Calves—Priced ranged from \$2 to \$5 per cwt. a few prime calves brought \$6.50 per cwt.

Hogs—Unchanged at \$7.15 for select and \$6.90 for lights and fat; sows at \$4 to \$5 per cwt.; stags at \$2.50 to \$3.50 per cwt.

Sheep and Lambs—Mr. Dunn bought as follows: 25 sheep at \$5 per cwt.; 125 lambs at \$7.25 per cwt.; 325 calves at \$5.75 each; 25 spring lambs at \$5.75 each.

THE WEEK IN TRADE.

The violent decline in prices of securities is no criterion of business conditions. Stocks fell about 10 per cent. from the highest point attained earlier in the year, but there was no corresponding depression in trade.

Railway earnings have continued to surpass those of the corresponding period in any previous year, the gain for April being 93 per cent. over the same month of 1905, and other standards of measurement make equally gratifying exhibits.

Liabilities of failures last month showed a decrease of 12 per cent. in manufacturing and 12 per cent. in trading branches of business as compared with the previous year. The only drawbacks regarding the future are the labor controversies and the temporary duration of the manufacturing plant.

Manufacturing plants report little idle machinery, and trade in reasonable merchandise feels the impetus of settled weather. Commodity demand and the crop outlook is fully as bright as usual at this date, while in many departments an increased average is under cultivation.

FUR ROBBERY.

Kingston, Ont., special despatch says: Charles Schacker, a merchant from Montreal, was to-day sent up for trial in June for participating in a burglary of furs at MacKay's store here.

Lawrence Wood, who turned King's evidence, testified that Schacker was the financial man in the deal. He profited the money for the enterprise, and for the furs, he paid \$600 to Feldman, to be concerned in the robbery. Feldman, Schacker, Woods and one Pelmer, who has not been secured, Mrs. Schacker and baby, from Montreal, were here for the preliminary trial.

COLD WEATHER IN JAPAN.

Millions of Dollars' Damage Done to Mulberry Trees.

Tokio, May 14.—After prolonged negotiations the copyright convention with the United States was signed to-day. This is the second week of the extraordinary cold weather that has prevailed in Japan. Further damage has been done to the mulberry trees, which will cause a shortage in the silk supply.

It is estimated that this shortage will amount to millions of dollars.

M. Ota, the Japanese consul at New Chungang, has finally started for Mukden to prepare for the opening of that city to foreign trade on June 1.

HOSPITALS CROWDED

MAJORITY OF PATIENTS WOMEN

Mrs. Pinkham's Advice Saves Many From This Sad and Costly Experience.

It is a sad but true fact that every year brings an increase in the number of operations performed upon women in our hospitals...

Every one of these patients had plenty of warning in that bearing down feeling in the left or right of the abdomen...

The following letter should bring hope to suffering women. Mrs. Robert Glenn, of 434 Marie St., Ottawa, Ont., writes:

Dear Mrs. Pinkham: Lydia E. Pinkham's Vegetable Compound is so well known that I do not need your recommendation, but I am pleased to add it to the many which you have in your favor...

Just as surely as Mrs. Glenn was cured of the troubles enumerated in her letter, so surely will Lydia E. Pinkham's Vegetable Compound cure other women who suffer from female troubles, inflammation, kidney trouble, nervous excitability and nervous prostration.

Mrs. Pinkham invites all women who are ill to write her for free advice. She is a daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. Address, Lynn, Mass.

MEALS AND FARES.

SAN FRANCISCO PEOPLE EXPECTED TO HELP THEMSELVES NOW.

Chicago, May 14.—The railroads ceased granting free transportation to San Francisco refugees yesterday, the privilege expiring by limitation last night.

All refugees hereafter will be dealt with by the Chicago Relief and Aid Society. Since the earthquake the refugee committee of the Chicago Commercial Association has cared for 2,151 persons from San Francisco.

A majority of these have been provided with clothing, meals and transportation to other points. The giving of free meals at the railway stations also ended last night.

Opened the Vault.

San Francisco, May 14.—The main vault of the City Auditor's office has been opened and everything contained therein was found to be intact.

This vault contained all of the valuable papers and books of the Auditor's office, including the bonds issued for \$17,000,000 for special permanent improvements, such as school buildings, the acquisition of parks, etc.

Besides these, the official bonds, books, vouchers, and financial accounts of the city tax collector, treasurer, and State controller and treasurer were found intact.

TRACING CHALABRAN.

DOMINION POLICE AFTER HIM—MORE GUARDS DEPECHED.

Kingston, Ont., special despatch says: The Dominion police are busy looking up traces of Chalabran, the escaped murderer. They are looking along the river, between Ganoung and Prescott. Their clues are slim. It is stated that Inspector Stewart, in view of his investigation, will recommend increases to the staff of guards and keepers.

Warden Platt has been economizing, but it is thought at the expense of efficiency, just as other wardens had created an excess of helpers, at needless public expense. In the insane ward one man has been doing what in other days three were engaged. A larger staff of guards will result from the escape.

SCRAP IRON CATHEDRAL.

"Head of Greek Church in America" Runs Foul of Building Laws.

Winnipeg, May 14.—Archbishop Serafin, styling himself the head of the Greek Church in America, is again in trouble over the construction of a place of worship for his flock in Winnipeg.

He is threatened with prosecution by the building inspector unless in three days' time he shaker has removed the partially constructed addition to his oddity built cathedral.

Last summer he claimed that it was his intention to construct an all brick building, at a cost of \$5,000. Investigation proves that scrap iron and discarded lumber are the principal materials being used in construction.
