IMPORTANT TREATIES WHICH HE NEGOTIATED.

Washington, May 24.-Lord Paunce fote, British Ambassador to the United States, died at the Embassy this morning at 5.35 o'clock. The improvement which had been noted in his condition during the past week suffered a sudden check about 6 o'clock last evening, when it was noticed that he was experiencing difficulty in breathing. Dr. Jung, his physician, was immediately sent for, and he decided upon a consultation with a local physician, in the meantime telegraphing for Dr. the idea of writing on a hen's egg for exportation thus: "Pearl Wright, Harrow, Ont. Box 386. The one that gets this egg please write. I will answer." The egg was exported with others, and was found by Mrs. Beeson, of Bexley street, Windsor, among some she bought. The invitation to write was acceptable with the second of t Osler of Baltimore. In his stead came Dr. Thayer of Johns Hopkins University, arriving about 2 o'clock this morning. The patient's pulse was still good, and when Dr. Thayer left the Embassy at 3 o'clock for Baltimore the Ambassador was resting so comfortably that a cablegram was sent to his son-in-law, Mr. Bromley, in London, that there was no immediate danger. Soon after 3 o'clock a distinct weaked, and the answer has been received, the young lady in Canada volunteering the information: "I am

New York, May 25 .- A special cable to The Herald from Paris reports that a terrible scene occurred at Arles during a performance of "Carmen," with a real builtiglit. A matador made several clumsy efforts to spear a bull, but, in-stead of killing the animal, he only inflicted gaping wounds in the poor brute's back. This drove the spectators to frenzy, the performers being pelted with all kinds of missiles by the excited crowd. Thirty young men finally enter-ed the arena and snatched the sword away from the matador. The bull then turned on his new opponents and badly gored three of the amateur bullfighters. The animal was eventually lassed and killed by the attendants with daggers. During the proceedings a panic ensued among the spectators.

Shortly after the appearance on May 18 of a cloud which was belched from the mountain, Egyptian darkness enveloped the village of Chateau Belair.
