INTERESTING TO COMMERCIAL TRAVEL

The column for Minimum Thermometer shows the lowest temperature for every day. Whittier, the Poet has just passed his seventieth birth lay, which has called forth the almost universal congratulations of the press.

Yesterday, a young man named Melanson, while skating broke through the ice and was drowned.—Telegraph. Farmers do not consult their own interest when they neglect to provide

live stock in winter, to say nothing County.

to the pitiless storms and cold winter. The visual winds unprotected. I have seen is dead. The wife of King Victor Emmanuel farmers turn their cattle into a field

was a hay stack, and leave them there till the hay was consumed, or rather large stock of goods of all descriptions suitable for the

wasted, as it was thrown around upon MERRY led under the feet of the cattle and season of Christmas. Ladies Ties in

CHRISTMAS

suffering in the icy blasts. Can it be possible that any such farmers exist in 1878? Is there one so dull MIND

a reckless waste of fodder to feed cattle in this manner? Besides the inhumanity in thus treating cattle Come and get they require about one-third more

feed to keep them in good condition as to flesh than they do when housed hums en hand; just the thing to make your in warm quarters; and we may safely HAPPY

wintering stock in the fields, or in by presenting one. Come early and get one, cold stables, at from \$10 to \$15 per the number is limited. My Christmas Goods A cow ordinarily requires two tons of hay to winter her in warm quarters, with meal, roots, &c., if in milk; of the great decline in value of goods owing to depression in trade during the head, when hay is worth \$15 per ton. are all

must be added to her allowance, also extra meal, roots, &c.; consequently a farmer with twenty head of cattle, marked down who winters them properly, saves from \$200 to \$300 annually over the Lowest Figure, I am selling cost of wintering on the careless ALL system that some farmers adopt.

In twenty years he saves, say \$5,000; my other Groceries at equally Low Prices. some farmers get rich, while doing Stock is now completed and PATRONS

may rely on zetting bargains. HENRY HALL,

Opposite Bank of Montreal. I have a small quantity of No. 1 Dry Pine Boards on hand which will be sold low. Wanted Immediately, 1200 Raw Hides for which Highest Price will be paid. Ameri-How long will the Forests last? Under such a tremendous yearly drain, the question naturally comes up, how long will our forests hold out at the present rate of manufacture?—

Newcastle, Dec 17, 1877. It is really an important question, upon

which follows the inquiry as to what we are to do for building material when this magnificent wood—pine—is exhausted. One authority after another has entered formally upon its A. J. LOCGIE & CO. other has entered formally upon its solution, with satisfactory results in local instances, but very vague ones as to the field at large. At the rate we are cutting it to-day, from thirty to fifty years seem to be agreed upon

to fifty years seem to be agreed upon as about the limit. Twenty years ago there was apparently no limit, for the consumption was not only less, but Ladies Sacques and Sacque Cloth, HOthe means for its manufacture were primitive, and accomplished much smaller results than now. It seems Gloves and Mitts, lined and unlined;

All of which we are now selling at low prices and respectfully solicit your patronage. WHAT EXPLODED?-After reading so many indignant newspaper references to "the rotten boilers" and "drunken, incompetent engineer" as the cause of the terrible explosion in New York, it is an agreeable surprise to find that the boilers did not explode after all. Those who dug down to them found them intact and—what, it would seem, might have been observed and reported at first-the sidewalks above them neither torn up nor destroyed. The incident illustrates the

DR. FREEMAN. Newcastle, Sept. 11, '77.

St. John, Dec. 8, '77.

We have been Manufacturing IRON FRAME MOWERS For the last four years, and are now offering to the farming community this, the

BEST MOWER, Combin ng a greater excellence of mechanical simplicity together with greater durability and entire reliability for all the requirements of the field, than any other Mower extant. In construction they are similar to the celebrated Walter A. Wood's Iron Frame Mower, and the Richardson Buckeye, both American machines. Of the former there are over 200,000 in use, and the extraordinary number of 20,000 were manufactured and sold last season, by the Wood Company of United States. We have over 600 of our manufacture now in use, every one of which (no exceptions) stands as a monument of the grand and unprecedented success of home manufacture and our enterprise. A list of our Agents in this section of the Province will be found appended, and farmers are requested to ask information of them relative to our Mowers in use in their respective localities, which will establish beyond doubt their unquestionable superiority over any other mower to be had in our market.

The facility of procuring all parts or pieces within a nominal length of time must show beyond the shadow of a doubt the claims such an enterprise has upon the farmers of the Maritime Provinces.

For the coming Harvest of 1877 we will manufacture LARGELY in excess of our numbers of last Season, and trust that our growing enterprise may find such inducements held out to it as will be commensurate with its merits.

Let it be remembered we have no hesitation at all times, in entering in a friendly competition in the field with any other machine in our market. We GUARANTER OUR MOWERS TO BE INFERIOR TO NONE. Farmers would do well to enquire prices and terms before purchasing elsewhere.
