The New Dry Goods STORE.

—OF—

Thos. A. Clarke

is in the Sargean Building next above the Post Office.

The most interesting feature of the Store is inside.

We propose to make it SO INTERESTING, that those who come once will be sure to come again. This is our plan, to secure as fast as possible a

First Class Stock of Goods

and sell them at low price FOR CASH.

By the way it might be worth your while a call and see what we have now. There are lots of good things, and the prices are right.

There are some things it would be nice to have about Christmas.

Our Motto

Good Goods, Low Prices,

CASH.

The Montreal Witness.

The Montreal WITNESS, which is to move into its own building next spring, will be by far the best equipped newspaper in a mechanical point of view in Canada. Its immense Hoe quadruple machine will be capable of turning out 60,000 eight-page papers an hour, printed complete on both sides, cut, pasted, and counted in piles of fifty. This will be one-third faster than any other press in Canada. In addition, its matter will be set on the Mergenthaler Minotype, which gives a new, clean face of type every issue, and its form will be compact and beautiful. The WITNESS, although old and reliable, is up to the front in respect of enterprise, and its readers expect and are not satisfied with anything but the best. The price of the DAILY WITNESS is three dollars a year, of the WEEKLY WITNESS one dollar, and the NORTHERN MESSENGER, published from the same house, is thirty cents. Agents wanted in every town, village and P. O. Specimen copies will be sent free to any of our readers, on application to the publishers, JOHN DOUGALL & SON, Montreal.

The subscribers of the UNION ADVOCATE can have it and the Montreal DAILY WITNESS for $3.00, the UNION ADVOCATE and the WEEKLY WITNESS for $1.60, and the NORTHERN MESSENGER with either of them for twenty-five cents extra.

Christmas Tree.

The ladies of St. Mary's R. C. Congregation will hold a Christmas Tree Festival in the Masonic Hall, Newcastle, on Tuesday afternoon next, at which the prizes at the lotteries of the 1st of July will be drawn for. Admission 10 cents.

Accident.

Mr. John Hopkins had his right hand lacerated in the machinery in his store on Union Street on Saturday evening. The tops of two fingers and the thumb will have to be amputated.—*Globe.*

ORANGEVILLE, April 4 th, 1892.

DR. L. A. SMITH & Co.

DEAR SIRS,—Anti-Dandruff is evidently giving satisfaction. I have sold about half of the gross I bought from you on the 23rd of January last. I use it in my own family and like it well. Can recommend it to all who are troubled with dandruff.

Yours truly.

THOS. STEVENSON.

A Dull Time.

Owing to the rough condition of the roads business keeps very quiet and there is hardly any country trade at all. A foot of snow would very much enliven trade, and all are heartily wishing it may come as then they would be assured of a good Christmas trade at least.

Its Excellent Qualities

commend to public approval the California liquid fruit remedy Syrup of Figs. It is pleasing to the eye and to the taste, and by gently acting on the kidneys, liver and bowels, it cleanses the system effectually, thereby promoting the health and comfort of all who use it.

Closer Trade Relations.

We have received a pamphlet containing the addresses delivered by Mr. Evastus Wiman in the Maritime Provinces, and which bears the title of "Closest Trade Relations Between the United States and Canada."

A Libel Suit.

Rev. A. F. Thomson has instituted proceedings for libel against the St. John Telegraph, as an outcome of discussion in that journal on the Bathurst school question. J. Gordon Forbes, Q. C., has been retained by Rev. Mr. Thomson.

Reopened.

Mrs. P. Leighton has opened the house formerly known as the 'Mitchell House,' and it will be known as 'The Derby House.' Transient and permanent boarders will be received at reasonable rates. Good stabling attached to the premises.

A Liberal Offer.

All For $1.75.

THE STAR ALMANAC,

To be issued shortly, the finest Almanac ever published, entitled 'THE STAR' ALMANAC, consisting of 400 pages of information of the most absorbing interest, together with 6 colored maps, constituting one of the most valuable works of the kind ever published in any part of the world. A compendium of statistics covering a multitude of important subjects. A book of reference for all Canadians and Americans, and having a special value for all strangers in all lands desirous of knowing about Canada and Canadians.

The STAR Almanac, after inspection by the most competent judges, has been pronounced the best Almanac the world has yet produced. This sweeping opinion is fully borne out by the facts.

THE FAMILY HERALD AND WEEKLY STAR.—Known to everybody as the best and cheapest family paper in all Canada, contains each week twelve pages of most interesting reading matter, and has no rival.

THE UNION ADVOCATE, published every Wednesday, and the two publications mentioned above will be sent to any subscriber in Canada for $1.75.

Send $1 75 to this Office and we will send you all three of these publications for one year. Address

Correspondence

DEAR EDITOR,

Allow me to sound a note of warning to your readers with regard to a book which is now being sold by subscription, and goes by the name of 'Bible Readings for the Home Circle.' It is a suspicious circumstance that the author and publisher's names are not given, and as their apparent design is to spread the peculiar and anti scriptural dogmas of the seventh day adventists under a fictitious title, it is not to be wondered at. Of course there are portions of the book which are not objectionable, but in the main it is misleading and worthless.

HENRY PENNA.

Derby, Dec. 12, 1892.

Newcastle, N. B., 6th Dec., 1892.

DEAR ADVOCATE,

After I handed you my last week's communication, I was glad to notice that the Road Commissioner had caused the dumping of Mr. Murray's waste water to be diverted from the brow of the landing to the fire Engine house block—this is as it should be.

I also understand the Police Committee have dismissed the incapable and are looking abroad for an efficient man to fill his place. This is good, and I trust that within a reasonable time they will have secured one; if after a 'reasonable time' no good and efficient man is placed on the service I mean to call public attention to the matter again.

External (to the gaze of the public) post office irregularities have also undergone a change and it is to be hoped the necessary amount of nerve, to continue the change, will be exercised. The internal management—if dame rumor be correct—can also stand a revolution.

By the way Mr. Editor where is the Commissioner of highways that he is allowing a fence opposite your residence, on the opposite side of the road, to remain so long moved when I understand it was only moved out temporarily.

In the near future I may call the attention of the people to the moving out of other fences.

Yours &c.

AN UNIMPORTED DETECTIVE.

To Editor Union Advocate.

Escuminac, Dec. 1, 1892.

Our settlement was startled the other day at the appearance of two fishery overseers wending their way East towards the lighthouse. We naturally thought a whale had been cast ashore and was going to swallow all the bass in the freezers at the Point, and we were not far wrong, as it turned out that one of the officers from your town had been sent by the inspector to ascertain if such a fish as bass had been frozen last autumn in the several freezers, and on examination, to the officer's amazement, the whale had swallowed them all and grounded. After an explanation by Ambrose, the officer returned satisfied, and made his report accordingly.

Now, sir, what stupidity is still manifest in the department of fisheries, to send its officer to look for bass at a place where everybody who reads knows that even if the officer had seen bass in the freezers he could not lay a finger on one to seize it, as every fish was caught in season and in the waters of Kent county, which washes the shore near the freezers and bought from the fishermen there.

The only county where bass are prohibited from being caught is Northumberland, its river and tributaries. Point Escuminac fishermen can fish in Kent county waters and sell their catch after September in any year, and they can ship at their own station at St. Louis too. And if our merchants choose to buy they are free to do so and ship at Chatham if they choose. All that is required is a certificate from the local officer that they were not the produce of our river or bays. The whole farce is looked on as a ruse to get overseer Williston's scalp. Overseer Noble was scalped, also your ex Chatham overseer, and as Jack was one of Peter's appointees as well he may look for a beheading soon.

Truly Yours,

ESCUMINAC.

General Intelligence.

NEWFOUNDLAND.

The St. John's Telegram, the organ of the government of Newfoundland, is quoted as authority for the statement that at the ensuing session of the legislature the question of confederation will be considered, and submitted to a plebiscite of the electorate. Should a favorable verdict be given by the people, a scheme of union would be carried into effect at once without dissolving the legislature and making another appeal to the people. We have not seen the issue of the Telegram to which reference is made, but it would not be surprising to find this course followed by the colonial government of the Island.—Halifax Herald.

A BAFFLING POINT.

WHICH TROUBLES THE GOVERNMENT IN THE LIZZIE BORDEN CASE.

BOSTON, Dec. 6.—It is thought that the arraignment of Lizzie Borden for the murder of her parents will take place in about two weeks, when the prisoner will be taken into court at Fall River to plead. At that time, it is understood, a special session of the court will be arranged for and time and place set for the trial. The Providence *Journal* says that one of the baffling points in the investigation by the government was the method used by the murderer to destroy the garments which he or she had worn during the committal of the deed. In the evidence submitted at the preliminary trial it was developed that, upon the arrival of the police officers at the scene of the murder, they lifted the covers from the stove and discovered the dying embers of a fire, with the presence of ashes, the latter giving indications that an attempt had been made to burn something. It is known that the grand jury was told that a dress was burned in the stove on the day of the murder, but there is no evidence to show that it belonged to Lizzie Borden.

NEWS FROM EVERYWHERE.

HORTON, Kansas. Dec. 8.—A typical Kansas blizzard is raging here. The Rock Island Denver limited train is lost somewhere in the snow and numerous freight trains are snowed up in various towns. The wires are down and no information of the lost trains can be obtained. The storm extends into Oklahoma and reports of terrible suffering among the settlers are coming in. The snow drifts here are as high as the houses.

WASHINGTON, Dec. 8.—Senator Frye has introduced a bill forbidding merchandise to be carried in vessels owned wholly or in part by aliens from one port of the United States to another, either directly or via a foreign port. The President may suspend the right of carrying merchandise in bond through the United States in case Canada deprived American citizens of the use of Canadian canals on terms of equality with Canadians, or levies export or other duties on lumber or timber cut in Maine on territory watered by the St. John and its tributaries and floated to the sea to be shipped to the United States.

NEW GLASGOW, Dec. 8 — This town was startled this morning by a report that the Drummond colliery was on fire. This is the property of the International Coal Company an I has been of late exceptionally well worked and the output largely increased. Enquiry, however, shows that as yet there have been no lives lost and comparative little injury done. The fire is in a tunnel connecting the main workings with a disused pit, popularly known as the 'Sinking Willie' pit, and is as yet some considerable distance from the nearest spot where the men are at work. The plan being taken to put out the fire is likely to prove successful. A heavy stone wall is being built across the mouth of the tunnel, shutting it off from the main passages. Air being thus excluded, it is hoped it will soon burn itself out. No serious danger is as yet anticipated. The men are at work as usual and the horses have not been removed. How the fire originated is a mystery.

NEW YORK, Dec. 7.—Archbishop Corrigan is authority for the statement that one of the first-fruits of Archbishop Satolli's mission to this country from Rome is to be the restoration of Dr. Edward McGlynn to his faculties as a priest in good standing in the Roman Catholic Church. Dr. McGlynn was excommunicated by the Pope in 1887 for refusing to go to Rome after his suspension by Archbishop Corrigan. It is said he has frequently expressed a desire to be reinstated in his faculties in the church, and when Archbishop Satolli arrived in this country he applied to him. There was a conference, at which Archbishop Corrigan and Dr. McGlynn were represented. Archbishop Satolli, it is said, induced both sides to make certain concessions. Just what these concessions were is not known. The result of the conference was that Dr. McGlynn is to be received back into good standing. It is believed that he is to make a public announcement that he is penitent for the manner in which he denounced the Catholic Church authorities after his excommunication.
