He should have clean habits of the English sparrow, it ferent kinds as varying in strength hands, and should be kind and gen-(richness), according to the animals the with his cows, and milk them at facts is fully known which has been from which they come. Few ideas regular hours each day. are more fallacious. The value upon which the animal lives. The manure of pigs is ordinarily richer, because the common feed of pigs is much more nutritious. It is exactly so with all otier animal manures. Their value depends upon the food, and as scarcely two kinds of food are of the same digestibility,

MANURE.

The proper treatment of barnyard manure is a matter of pecuniary interest to the farmer. Prof. Weber, in a recent report issued by the Ohio State of Agriculture, says on this produced by the farmer fruit-groups.

MANURE.

Minuth mention on this subject in the possession of the Department was obtained in answer to circulars which it had distributed in all parts of the country. Thirty-'wo builders, Ribbons, Facthers, Aigrettes, Birds, which it had distributed in all parts of the country. Thirty-'wo builders, Flowers and Ornaments. Also Ladies' Wool Vests, Hoods, Fascinators, Yarns and replies have been received. The ravages of the sparrow are found to seriously -affect almost every crop or warriety. Trimmed Hats always on hand and orders promptly attended to.

State of Agriculture, says on this of food are of the same digestibility, State of Agriculture, says on this produced by the farmer, fruit-grower Newcastle, Nov. 14, 1887.
