#### USED MEN AT THE OFFICE **WOMEN IN THE HOME** CHILDREN AT SCHOOL

AND Every day in the week and TIRED every week in the year men, used up and tired out. The strain of business, the

cares of home and social life and the task of study cause terrible suffering from heart and nerve troubles. The efforts put forth to keep up to the modern "high pressure" mode of life in this age soon wears out the strongest system, chatters the nerves and weakens the heart. Thousands find life a burden and others an early grave. The strain on the system causes nervousness, palpitation of the heart, nervous prostration, sleeplessness, faint and dizzy spells, skip beats, weak and irregular pulse, smothering and sinking spells, etc. The blood becomes weak and watery and eventually causes decline.

is found in the many testimonials of those who have tried Shiloh and been cured. Mrs. Archie Taylor, Asaph, Pa., writes:—
"I bought a bottle of Shiloh's Consumption Cure and found it very beneficial. I have two children, and they had a terrible cough. I gave them everything I could think of, but they got no better, until one evening my husband bought a bottle of Shiloh. We gave it to the children when they went to bed, and they slept all night. It cured them completely. I shall always keep it in the house."

cares not whether the grain buyer cheats him or gives him full value, but the average farmer figures that he cannot afford to buy a farm scale when the crops are light and the

prices low. Under either condition the necessity of a farm scale is plainly evident. When prosperity smiles on the farmer a little inaccuracy in his dealer's scales means a big loss, and when light crops and low prices prevail, though his loss is less all told, he can less afford to lose the amount.

One of our contemporaries has figured out the cost to farmers of a big loss for the farmer, and gives the following illustrations:-

"Suppose a certain farmer newspaper article describing their thirty hogs weighing 200 pounds each, peverty. He consulted the vicar, receiving for these five cents per suffering from the evil of alcohol-Rev. Mr. Davidst and at once pound. If the scales are out of the ism. His grace believes that temgave his check for \$500. He examined into the question further sells 200 bushels of wheat at 75c. per. and decided that emigration to bushel. If the scales are out 1-40 it Canada was the best means o will mean a loss to him of \$37.50.
Now the above examples are by no He makes no stipulation as to seen from the above figures that the conditions, and it is of no benefit | total loss incurred would be \$52.50, to his own race, as it is said there enough to purchase a good set of are not half dozen Jewish scales to guard against all future loss. It is never an equable proposition to measure farm produce when selling it. Vicar Davids has assisted others Hay measured in the stack is only so

organized at once, and it is hoped overrun one-fourth in weight, and the that the first immigrants, which farmer who sells by measure is simply losing one bushel in every four." These other reasons are given by our contemporary why a farmer should

own a scale: "The careful, progressive farmer wants to know which portions of his but only through weight. The feeder of stock is also very desirous to know or result from a cold than from any just what progress his animals are other cause. This fact alone should making as a result of his efforts. With a set of farm scales they can no danger whatever from a cold when be weighed regularly, thus accurately it is properly treated in the beginning. For many years Chamberlain's Cough Remedy has been recognized as the with one kind of feed is not satisfactory most prompt and effectual medicine in the can forthwith change the feed and use for this disease. It acts on nature's note the result—with scales on the plan, loosens the cough, relieves the farm this is not difficult, but it is

A SUDDEN DISMISSAL

George Skeffington, I. C. R. Chief of Police Discharged

Moncton, Deg. 30--George Skeffington, chief of polic. of the I C. R. has been notified that his services will be no longer required by the railway after Dec. 31st.

Notice of Inspector Skeffington's dismissal came in the form of a notice to that effect from Mr. Jones, secretary of the railway department, at Ottawa, on Thursday night to General Manager Pottinger. Inspector Skeffington has been In

the Intercolonial service for twentyseven years and previous to that was detective for ten years in the service of the provincial government of Quebec. He is a comparatively young man yet and has won a high reputation as a detective and is held in high esteem by officials and employes generally.

No reason is given for dismissal. Recently Mr. Skeffington has been engaged in ferreting out the stamp thieves in the I. C. R. general offices.
