

PRAISE FOR SANDSUCKER.

It Is Doing Good Work in the Settling Basin.

Chief Ten Eyck to Attend Convention at Grand Rapids.

Linwood Avenue to be Provided With a Main.

The Fire and Water Committee last night voted Chief Ten Eyck \$50 towards his expenses in connection with the Fire Chiefs' convention, which will be held this year at Grand Rapids, Mich. Chairman Clark announced that the Chief had been attending the convention for a number of years at his own expense, although he was given \$75 last year to go to Columbus, O.

The following were appointed permanently to the Fire Department: G. McKeown, W. Boylan, W. Robinson and T. Maloney. The resignation of R. Spratt, who was on sixty days' probation, was accepted and H. B. Ten Eyck will replace him.

The old trouble caused by electrocution on Birge street was responsible for the flooding of the cellar of A. Strong, who wrote to the city asking that he be reimbursed for damage done to his premises. The department has had trouble at this point for a number of years and the lead pipe will be replaced with a galvanized iron service, on the city engineer's recommendation.

A six inch water main will be laid on Linwood avenue at a cost of \$612 to supply the Simpson brick yards.

The city engineer reported against laying a main on Boulton avenue, between South and High street, until the street is graded.

The aldermen were informed that the old sand sucker was doing great work at the filtering basins. The filtering capacity is being greatly increased and the basins depended in front of the valve house to leave lots of room for any sediment that may enter the basins to settle.

15 MEN BURIED.

COLLAPSE OF A BLAZING BUILDING AT HALIFAX.

Fireman James Tynan Taken Out Dead, and Fourteen Others Received Injuries More or Less Severe—Loss \$30,000.

Halifax, June 9.—One fireman was killed, fourteen more were injured and thirty thousand dollars' damage was done by a fire that wiped out the shipping department of the Nova Scotia Furnishing Company this afternoon. When the fire was being gotten under control the whole structure collapsed, and fifteen men were entombed in the ruins. That the foundations of the building had been undermined by the construction of a building next to it, is the explanation now advanced by the collapse.

James Tynan, of No. 4 steamer, was taken out dead, crushed under the joists of the second floor; fourteen other men who were more or less badly injured were hurried to the Victoria General Hospital in ambulances, but all of them were able to go to their homes to-night.

Some of the firemen were on the roof and others inside when the building collapsed. There was a sudden quiver, the walls shook, and then with a grinding crash the building crumpled towards the south, before the eyes of the horrified spectators. Men on ladders in front of the building were pitched head first into the ruins. When the debris settled there came an instant hush over the scene which a minute before presented a contrast of sounds that always accompany a fire. Six engines stopped pumping almost instantaneously, the streams ceased to flow, and where a moment before there had been belching clouds of dense, black smoke there were nothing but a few wisps of steam. For an instant the hush lasted, then, with axes, saws and grapples, the uninjured men attacked the debris.

Two or three minutes elapsed before the first man was taken out. They came in quick succession until finally only Tynan remained unaccounted for. He had been at work with the plaster hook on the first floor of the building. The man who had been with him had wriggled his way out of the debris, and he pointed out where Tynan had been working.

Grapples were attached to the roof, and, aided by hundreds of willing hands, this was pulled away. Then Tynan was discovered pinned underneath the second floor. He was terribly crushed, but he was not dead. He was 38 years old, and leaves a widow and five children.

WOMEN MEET.

Stoney Creek Institute Held a Successful Meeting.

The monthly meeting of Stoney Creek Women's Institute was held at the home of Mrs. J. B. Walker on Tuesday afternoon, Mrs. Ham Lee, President, in the chair.

Miss May Glover, Secretary, read the minutes of the last meeting. Misses Ross and Alma Lee, played a piano duet. Miss Miller gave an impromptu talk on "As Others See Us," in which she gave many useful hints for the work of Women's Institute members individually, and as a whole. Mrs. Church played a mandolin solo, accompanied by Miss Alma Lee on the piano. Mrs. Cornman recited "Tabitha Tubbs of Slander-ville," by request. Mrs. McNeilly brought greetings from the Honorary President, Mrs. Houdless, who hoped soon to visit them. Miss Miller, Ontario Department of Agriculture, gave a capital address on "The Things Money Cannot Buy."

Refreshments were served and a social time was enjoyed. There was a large attendance. Votes of thanks were passed to Miss Miller, for her interesting addresses, and to Mrs. Walker for her hospitality.

Drowned in Shallow Water.

Kingston, June 9.—At Drysdale Mills, on the line of the Kingston & Pembroke Railway, Joseph Payel, aged 16, was found drowned in three feet of water. He was playing on logs in the creek, and it is thought he fell, and was rendered unconscious.

Plans are afoot for the reorganization of the Chicago Great Western Railroad Company.

CURL LEAF IN PEACHES.

Fruit Prospects Are Good In Spite of It.

The cold and wet spring has undoubtedly provided the right conditions for the appearance and rapid growth of the "curl leaf" on peach trees. This has attacked the orchards in curious streaks and in one or two instances orchards that have not been sprayed, have to some extent, escaped its ravages, which has led some unthinking persons to say that "spraying with lime and sulphur for curl leaf is no good."

This is very far from being the case, however. Curl leaf is a fungus disease, and spraying remedies for fungus diseases are preventive and not destructive. To make a success of spraying, the right mixture must be applied at the right time and in the right way. And if these three "rights" are not all attended to, the result is only a partial success.

In order to get the full benefit of the lime and sulphur spray for curl leaf, it must be applied very early in the season before the buds have unfolded. Here is where a great many growers fell down this year. They applied it too late.

At the right time—very early in the spring, by Mr. Smith, who is one of our most careful growers. The result is, that that portion of the orchard, consisting of several varieties, some of which are those most subject to curl leaf, is almost entirely free from the disease. The foliage on the trees presents a fine healthy appearance, and they are carrying a heavy load of peaches. One-third of the orchard, however, was not sprayed till about ten days later than the rest, and on it the curl leaf is pretty bad. About a dozen trees were left unsprayed altogether, and they again are in an infinitely worse condition than those which were sprayed late.

This goes to show that where the conditions of soil, etc., are alike, that immense benefits accrue from applying this remedy rightly prepared, in the right way and at the right time.

Precisely the same thing can be witnessed in orchards of Mr. T. H. P. Carpenter, also one of the prominent growers, and in a good many other orchards as well, here and in other places.

In spite of the prevalence of this disease the prospects for a good yield of peaches is fairly good, as most sprayed orchards have sufficient good leaves to carry the bulk of their crop, although they may lose some, which they can well spare.

Plums and pears are setting well, so far. Small fruits are looking well, and there is a fair prospect for apples.

Grapes have been injured to some extent by the late spring frosts, especially Niagara, Delaware, Vergennes and the Rogers varieties. The Concord has, however, almost entirely escaped.

The citizens of Hamilton can therefore be prepared to expend what little money they may have left, after paying Hydro-Electric power expenses, in the purchase of fruit.

GIVEN PRIZES.

Highlander Road Race Winners Received Their Rewards.

The "Kitties" paraded last night for the first time since the inspection, and though the turn-out did not have quantity, it had quality, as evidenced by the splendid marching of the men. After a short march out the regiment returned to the armory and Lieut.-Col. Bruce presented the prizes to the members of the regiment who took part in the races on Victoria Day. He complimented them on the showing they had made, and also spoke in a congratulatory vein of 91st Highlanders' Athletic Association. He expressed the hope that they would do even better in future trials. The following were presented with cups:

Charles Cook, who came second in the Marathon; George Richards, winner of the boys' race; and Jack Smith, who came second in the mile-named race.

The Army Service Corps held a parade in the old Drill Hall last night, when kit bags and haversacks were issued to the men. The corps is in excellent condition for camp, being up to full strength, and should make a good showing this year. An extra fine bunch of horsemen has been secured for the mounted men. Another parade will be held on Friday night, when any further camp business will be transacted.

CONVICT USED AXE.

Desperate Fight With Guards at St. Vincent De Paul.

Montreal, June 9.—Details have leaked out of a desperate fight which occurred at St. Vincent de Paul Penitentiary last Saturday, between a Polish convict named Stanislas Ava, who attacked the guards with an axe, and was, after a struggle, shot in the arm. Ava is serving a twelve-year sentence, and as soon as he is out of the hospital will have to face the courts on another charge.

MARRIED AT CALGARY.

A wedding that will be of interest to many Hamilton people and vicinity, took place on Tuesday evening, May 25th, at the residence of Mr. H. L. Burch, Calgary, Alta., when Mr. Burch's youngest daughter, Beulah, became the bride of Mr. Arthur Berkley Thompson, manager of the Crown Lumber Company of Stettler. The ceremony was performed by Rev. R. Pearson, of Central Methodist Church. Miss Carrie Burch, sister of the bride, acted as bridesmaid, and Mr. A. J. McWilliams, of Stettler, supported the groom. The groom's gift to the bride was a handsome piano; to the bridesmaid a pearl ring, and to the groomsmen a gold locket. Invitations were sent to friends in Winona, Scotland, Brantford, and Mt. Vernon, Ont., also Vancouver, and Calgary, Mr. and Mrs. Thompson will reside in Stettler and will be at home to their friends after June 15th. The bride was a student at Hamilton Business College, and has a number of relatives and friends in the Ambitious City.

WOMAN'S WORK

Schools For Girls and Hospitals For Women.

Meeting of Methodist Women's Missionary Society at Guelph.

Guelph, June 9.—Where there are schools for boys there must be schools for girls. Where there are hospitals for men there must be hospitals for women. The policy of the W. M. S. is to follow the wonderful plan of the Laymen's Movement. Hitherto we have been able to do so, but there is reason to fear that we will not be able to keep up the march with the brethren.

This in her annual address to the W. M. S. Society at Hamilton Conference at Norfolk Street Methodist Church did the President, Mrs. J. E. Baker, of Brantford, strike the keynote of the work of the Women's Missionary Society. Her address was a review of the situation in China, Japan and western Canada, with an appeal for financial aid, teachers and missionaries to help on the work. The list of delegates, 180, is the largest in the history of the association. The report shows an increase of \$2,434.54 in contributions, but a decrease of 133 in annual members.

In the address upon conditions in China Mr. J. L. Stewart of Chentu, attributed the fecundity of the race to ancestral worship and the idea that descendants had to provide for the spirit hereafter. Quantity rather than quality was wanted in children; \$150,000,000 was annually wasted in this worship.

Addresses have been delivered by Miss Swan on hospital work in China; Mrs. Hardy; Mrs. W. C. Morton and Miss Jamieson, Hamilton; Miss McGuffin, Toronto; Mrs. Gayler, Hamilton; Mrs. Kitchin, Waterford; Mrs. Crews, Guelph, and others.

3-5THS CLAUSE.

It Was Not Upheld by the Montreal Conference.

Pembroke, June 9.—It is a most unfair statement of the position of Montreal Conference's attitude on the temperance question to print a big heading as the Mail and Empire does to-day saying that "The three-fifths clause is upheld as fair." The report goes on to say that: "After a four hours' discussion on temperance issues the Montreal Methodist Conference to-day refused to condemn the three-fifths local option clause of the Whitney Government, the main opposing it being a local option, who contended that in order to carry out local option a safe majority had to be back of those supporting it."

The fact is that there was no vote at all on the straight issue of three-fifths or majority. The Temperance and Moral Reform Committee reported dissatisfaction with the clause and urged a simple majority. There were the usual arguments pro and con, and so to prevent a straight division on the endorsement or condemnation of the Government, a substituting clause was carried urging that where a local option is a majority, but not a three-fifths vote, it may be submitted again within one year instead of three as now required. This was carried, and was substituted for the original clause. There was no vote on the original clause, the discussion being the only test of force, strong advocates speaking on both sides.

BAN ON LIQUOR.

Western Methodists' Policy on the Liquor Question.

Edmonton, Alta., June 9.—The report of the Temperance and Moral Reform Committee was adopted by the Methodist Conference to-day. It set forth that prohibition is the only solution of the liquor traffic, and members will do their utmost to elect temperance men to the next Legislature. A request will be made to the Government for a local option law and abolition of intoxicants at clubs.

An effort will be made to prohibit licenseholders securing a seat in municipal councils or in the Legislature.

KILLED IN COLLISION.

C.P.R. Workman, of Schreiber, Buried Under Engine.

North Bay, June 9.—Two work trains on the C. P. R. met in a head-on collision this morning, near Dalton, 300 miles west of North Bay, wrecking both trains and causing a delay of eight hours to traffic.

A workman named McGrath, of Schreiber, in charge of one of the work-trains, was buried beneath the engine and killed.

George Coleman, trainmaster, White River section, received severe injuries, but will recover. A number of others received minor injuries, scratches and bruises.

SUES CHIEF JUSTICE.

Toronto Lawyer Issues a Writ Against Sir Wm. Meredith.

Toronto, June 10.—Mr. J. B. Mackenzie applied before the Divisional Court yesterday for a habeas corpus on behalf of Frank Miller, of Stouffville, now in custody of the Sheriff, on a charge of a violation of the Liquor Act. Miller was sentenced to four months in jail and his term expires on Friday, the 11th inst.

Mr. Mackenzie has already applied in other courts to obtain the discharge of his client. His last application being before the Exchequer Court, which has not yet rendered judgment.

Chief Justice Meredith, who presided, after hearing the history of the case, declined to hear the application, as the Exchequer Court had not yet delivered judgment.

Mr. Mackenzie at once proceeded to the writ office and issued a writ against Chief Justice Meredith for £500 sterling, penalty for refusing to grant a writ to Frank Miller, a prisoner in the county jail. The statute under which Mr. Mackenzie is proceeding against Sir William Meredith is XXII Charles II, chapter 2, section 6, and Ontario, amplifications and extensions thereof.

COST OF TENT

Discussed at Meeting of the Cemetery Board.

Very little business was discussed at the meeting of the Cemetery Board last night and the session lasted less than an hour. Mr. F. C. Fearman was chairman. The members were well satisfied with the inspection of the Cemetery, as everything was found in good order.

The question of investing the perpetual care funds was again discussed, but it was decided that nothing be done until after Monday's Council meeting. The chairman will then call a special meeting of the Board.

The gate posts at the Cemetery are not in very good condition, and the Board considered the advisability of replacing them with new ones, which would cost \$500. As the fence is not in first-class condition, some of the members thought the new posts might make it look worse than it is. The matter was laid over.

Considerable discussion was raised over the question as to whether the Board should keep tents and erect them for funerals and charge a nominal cost for the use of them, or leave the undertakers to look after the supplying and erecting of the tents. A tent would cost about \$40, and would last at least three years. The cost of the labor for erecting and taking it down would be about \$1.50 and the wear and tear would amount to 25 cents, which would make the total cost about \$1.75, whereas, it was stated, the undertakers charge between \$5 and \$10. The matter was left over until the next meeting.

The Board decided that no meetings be held during the months of July and August.

BROKER MISSING.

William S. Mitchell Charged at Ottawa With Defrauding Syndicate.

Ottawa, June 9.—William S. Mitchell, a mining broker, formerly of Halesbury, charged before the Assizes here with having misrepresented the conditions of purchase of a Cobalt mining property to the loss of the purchasing syndicate, for which he acted as agent, has disappeared, and Chief Provincial Detective Joseph Rogers, who is working on the case, says the authorities have no trace of Mitchell's whereabouts. The charge against Mitchell is that he obtained a bogus option on a mining property at \$130,000, while the real option, a private one, was \$85,000.

FINE CROPS.

Can Almost See the Northwest Crops Growing.

Winnipeg, June 9.—The ninth crop bulletin issued by the C. P. R. this morning is even more optimistic than any of those which have preceded it. Summed up, it states that the weather has been ideal for growing purposes, with plenty of rain and warmth. It states that all the wheat has been sown and that there remains only a small acreage of coarse grains to be seeded. At Strasburg, in Last Mountain section, wheat is up twelve inches; at Burnside, Man., it is from ten to twelve inches above ground; at Otterburne, on the Emerson branch, it is one foot high; at Emerson it is up from seven to ten inches; on the Long branch, from eight to ten inches; Wetskiwin, four to seven; Lacombe branch, seven inches, and Crow's Nest branch eight inches in height.

All over the three Provinces conditions are ideal, and there is every prospect of a beautiful harvest from 80 to 90 days.

WILL REVOLT.

British Government Warned That Nationalists Will Oppose Budget.

London, June 9.—John E. Redmond, the Nationalist leader, hoisted the signal of revolt in the course of the debate in the House of Commons this afternoon on the second reading of the financial bill. He notified the Government bluntly that the Nationalist party would vote against the budget on the ground that it was grossly unfair to Ireland and constituted a breach of the act of union. Mr. Redmond's objection was to the proposed increases in the taxes on whiskey, which he characterized as a crushing impost on one of Erin's few remaining industries.

BOOK TICKETS.

Hamilton Public Library Board Might Look at This.

Toronto, June 10.—A sweeping innovation will take place in the method of obtaining borrowers' tickets, if a motion is carried at the September meeting of the Toronto Public Library Board. It is proposed to make it easier to get the tickets by arranging that if a man's name is in the city directory that will be taken as prima facie evidence that he has a right to apply for a ticket, and if his name is not there he must obtain as a guarantor some man whose name is in the directory. At present a person cannot get a ticket in his own name alone, and no one who is to a property owner can guarantee for another.

At a sale of public school lands held at St. Anne de Cheyne, Man., the Dominion Government auctioneer disposed of 78,000 acres in one afternoon at prices ranging from \$5 to \$24.75 per acre.

TRISCUIT

The Favorite Tit-Bit for Supper

Buttered Triscuit (Shredded Wheat Wafer) with cheese or marmalade.

Wholesome and good for the stomach.

At all Grocers.

1447

LUCKY MR. BROWN.

If it had not been for Fruit-a-tives, Mr. Lemuel Brown, of Avondale, N. B., would still be living on stale bread and porridge, and suffering tortures with indigestion.

His stomach was so weak that he had to give up all kinds of meat, potatoes and other vegetables, and even deny himself the comforts of a cup of tea. Fortunately, Mr. Brown read about "Fruit-a-tives," bought a box and was so much improved by taking the tablets, that he used four boxes altogether.

"I have been a great sufferer from indigestion for fifteen years. About two years ago, I read about Fruit-a-tives and concluded to give them a trial. I used nearly four boxes of 'Fruit-a-tives' and they have made me feel like a new man. I can eat all kinds of hearty foods and enjoy tea and coffee." This is not a rare case, but the regular experience of everyone who uses "Fruit-a-tives" for Weak Stomach, Indigestion and Dyspepsia. Try them, 66c a box, 6 for \$2.50, or trial box, 25c. At dealers or from Fruit-a-tives Limited, Ottawa.

HONOR BRAVE.

Thomas Riley, of Cobalt, Banqueted For Saving Life.

How a Heroic Miner Rescued His Mate From a Terrific Death.

Cobalt, June 9.—On Saturday night the management and staff of the Nova Scotia mine tendered a banquet to Thos. Riley, a miner, on the eve of his departure for the Emerald Isle for a three months' vacation. On May 11 Thomas Riley and his partner were sinking a winze some 75 feet in depth from the main shaft at the Nova Scotia. Having loaded the round of holes, a seven-foot fuse was used, and ordinarily this would have allowed the men to reach the next level in safety, requiring as it would about seven minutes before the explosion. Evidently the fuse was defective and haste became necessary. When the men had been hoisted about ten feet Daniel Sullivan, Riley's partner, in some way fell from the bucket down to the bottom of the winze, where the explosion would shortly take place. Riley did not hesitate a second, though life and safety were above and a terrible death was probably below. He rang to the engineer to send the bucket down again, reaching the bottom grappled with his dazed companion, even using his teeth on Sullivan's clothes to get him into the bucket. He finally succeeded in landing him safely at the next station. Both men were badly injured. Sullivan being hurt about the head, while Riley sustained an injury to his right arm that will require three months' rest.

The banquet in Riley's honor was attended by one hundred and fifty employees of the mine and friends. Immediately after the supper Manager Biskley presented Mr. Riley with a medal, on behalf of the company and employees, amounting to \$157, together with the company's cheque for his time in full from the date of the accident. Mr. Sullivan, the other injured man, also received his pay cheque in full.

In addition to the purse of silver Riley was presented with a medal, with the following inscription engraved: "Presented to Thomas Riley by the Nova Scotia Mine, Cobalt, for bravery in saving the life of Daniel Sullivan, May 11, 1909." The medal was made of solid silver from the mine.

A communication was read by Manager Biskley from Mr. F. M. Wilmot, manager of the Carnegie Hero Fund Association at Pittsburgh, wherein full particulars of the accident and rescue were requested in order that the Carnegie Association take up the matter at once, and reward Riley for his act of heroism. Mr. Biskley is also in communication with the Royal Humane Society.

KING'S ELECTION.

No Opposition Expected in North Waterloo to New Minister.

Berlin, Ont., June 9.—There is every indication that Hon. W. L. Mackenzie King, Minister of Labor, will be unopposed at the by-election in North Waterloo on June 20. The Registration Court opened this morning in Berlin, four sittings being held, and only three voters were registered. Neither party had representatives present at any of the courts, and no organized effort, it is reported, will be made to get out the registered voters. Usually the Conservatives secure a majority of the manhood suffrage voters, and the fact that they are not paying any attention to the registration is taken as a sure sign that the new Minister of Labor will be re-elected without opposition.

The announcement of Mr. Allen Huber's intention to oppose Hon. Mr. King is not taken seriously here, as he received only 153 votes in the last election, and lost his deposit.

Mr. David Boyle Honored.

Toronto, June 10.—The University of Toronto have decided to confer the honorary degree of LL.D. upon Mr. David Boyle, the veteran Curator of the Provincial Museum, and well-known ethnologist and archaeologist. Owing to Mr. Boyle's illness the university will confer the degree at a special function at his home on Saturday.

At a sale of public school lands held at St. Anne de Cheyne, Man., the Dominion Government auctioneer disposed of 78,000 acres in one afternoon at prices ranging from \$5 to \$24.75 per acre.

THE RIGHT HOUSE

HAMILTON'S FAVORITE SHOPPING PLACE

Friday, Special Value Day

Hour Sales Extraordinary

Very popular with all classes of Right House customers have become these Friday Hour Sales. Worthy goods at extremely low prices for one hour only prove solid bargains of much merit and are weekly welcomed by thousands. Try these to-morrow. Note the hours.

25c floor oilcloths at 17 1/2c

SHARP at 9 o'clock, 1,500 yards go on sale for one hour only. All are perfect, fine qualities in good floral and block patterns and nice, assortment, desirable shadings. Two yards wide and sold everywhere specially at 25c. For one hour only (no phone orders taken, no C. O. D's sent) 17 1/2c

Special 13c huck towels 9c

FOR one hour only—9 to 10 o'clock—we will sell our special 13c Huck Towel (incomparable we think elsewhere at 15c); a nice medium size in splendid wearing quality; absorbent Huck weave; hemstitched hems. Our special 13c Towel, for one hour only 9c

88c blouse frontings 19c

At the Embroidery Department, sharp at 10 o'clock and for one hour only we will sell hundreds of beautiful new, just received Embroidery Blouse Frontings; wide 18 to 27 inch widths. Dainty to elaborate designs of eyelet, blind and crochet effects on nice wearing quality Swiss muslin. One of the greatest Embroidery bargains. Real value 88c yard, for one hour per front only 19c

35c nice Summer belts 9c

WHEN, even only for one hour, you can buy good elastic and fancy Belts at less than half of what they cost you should not miss this rare opportunity. Practical, new styles, dip and straight fronts, tinsel, silk and elastic with good buckles. All shades and white and black; our 15c, 25c and 35c Belts for one hour 9c

\$1.50 muslin blouses 59c

FOR one hour—11 to 12 o'clock—we shall clear about 40 odd White Muslin Blouses. Some are a little mused by handling. Pretty lace and embroidery trimmed and tucked.
