THE Summerside Journal in its issue

THE Summerside Journal in its issue of the 7th inst., acknowledges the ground-lessness of its statement regarding the postponement of the mission, for which we took it to task last week. At the same time it seeks to palliate its offence by saying, it was freely rumored that the funeral of Mrs. [Hodgson was the reason of the postponement, and that "the rumor was corroborated from the most credible sources." The latter part of this statement can have no foundation in fact. The person giving such information was cognizant of the facts or he wannot; if he wasaware of them he gave tales information; if he was not, he made a statement concerning which he knew nothing; so that in either case he was not a "credible" witness. Ghil's Comic Almanac.—There are few people in Canada who do not see this entertaining annual. It has just made its appearance for the eleventh year; and in many respects the new book is ahead of any predecessor. The illustrations are abundant; and all of the contents are of a very amusing character. A new feature s the calendar of "Remarkable Events," which runs through the year, and which, alone, is worth far more than the price. In this department it is certainly entertaining and helpful to be told the day and year when pancakes were invanted, when the half-holiday agitation was started, or washing-day instituted, or stolen aermons first used, or Frank Smith was ruined by the street railway (Jan. 16, 2006), or mother-in-law joke invented, or Chicago morally reformed (A. D. 5069), or boot-jacks first used as a cat cure, or the streets of Toronto finally fixed, or Friday discovered to be an unlucky day,—information on all of which, as illustrations, may be found in the January calendar. And the other mouths are quite as communicative. This book contains 32 pages, and salls at all bookstores at the old price, 10 cants; or, send to publishers, Toronto, and receive the book, post-paid, by return mail.
