

Campbellton Wiped Out by Fire.

TWO MILLION DOLLARS ESTIMATED LOSS.

Special to Evening Telegram. ST. JOHN, N. B., July 11. A message received here from Dalhousie to-night reports that the town of Campbellton has practically been wiped out by fire. People are homeless and are making for Dalhousie by way of Dalhousie Junction. The I. C. R. station is included in the catastrophe. There are said to be only two dwelling houses left standing, no trains are running as the track is destroyed. The loss is estimated at two million dollars.

Negros Conspire Against Whites.

Special to Evening Telegram. HAVANA, July 11. Col. George Valera and six others, most of them colored men, were arrested by the secret police to-day, charged with conspiring to start an uprising against the Government. The seven men were on their way to Bermeja in the Province of Matanzas to which place a trunk containing arms and ammunition and dynamite had been shipped from Havana. Letters and documents found on them who have been brought to Havana are believed to implicate many other persons in the conspiracy. The trunk was traced by the police to the Medical School of the Havana University. The janitor of that institute was arrested to-day and a large quantity of dynamite was found in his possession. It is not quite three months since the last negro conspiracy against the Government was nipped in the bud by the police. Agitation of the race question in various parts of the Cuban Republic culminated on April 3rd with the arrest of General Estenez, leader of the Independent Party of Color, and 4 of his associates. Following the detention of Gen. Estenez many arrests were made in various parts of the Island in compliance with orders from President Gomez who announced his determination to proceed with the utmost vigor against the people responsible for the agitation which in effect was regarded as a seditious movement calculated to develop open revolution against the Government. Indictments were returned against General Estenez and 22 of his associates, charging them with the crime of inciting rebellion and instigating anti-white violence. Later, however, all the negro prisoners concerned in the alleged conspiracy, with the exception of the negro leader, were discharged by a special judge who was appointed to try the case.

The Baltic Collision.

Special Evening Telegram. LONDON, July 11. The German tank steamer Standard which collided with the White Star liner Baltic, on June 30th, was sighted Friday last by the steamer Diamant about 500 miles due west of the North Coast of Ireland. The Diamant offered assistance but the Standard declined the offer. The collision occurred in a fog more than 1,000 miles east of the Ambrose Channel Light. The Baltic had a large hole stove in her bow, but covered it with steel plates and reached New York safely.

Boston's Baking Days.

Special to Evening Telegram. BOSTON, July 11. Such intense heat as has marked the past two days Boston has never before known since the establishment of the Local Weather Bureau nearly 40 years ago. To-day the maximum was 84 degrees, and there was one death and 18 prostrations on record to-night.

Fight Pictures Not Wanted.

Special Evening Telegram. LONDON, July 11. The British Government has no power to prevent the exhibition of pictures of the Johnson-Jeffries fight, according to a statement which Winston Churchill, the Secretary of State for Home Affairs, made in the House of Commons to-day in reply to a question put by Sir Howel Davies. There seems to be little disposition in England to exhibit these pictures. The leading London Music Halls have declined to show them.

High Flying.

Special to Evening Telegram. BOURNEMOUTH, England, July 11. A new British record for high flying was made by J. Armstrong Drexel at the Aviation meet here to-day, he reached an altitude of 1,850 feet.

St. Bon's and Collegians Draw.

The 13th match of the League football series took place at St. George's Field last evening, a large gathering of people attending. Excellent weather prevailed and a stiff breeze of wind blew from the westward. Though not a fast game it was doggedly fought and there was a good deal of applause for both teams from the spectators. The teams lined up: St. Bon's—W. Vall, goal; J. O'Flaherty, W. Fifth, backs; M. Power, W. Hearns, J. Rawlins, halves; E. O'Donnell, R. Brennan, J. Higgins, G. Rawlins, W. Templeman, forwards.

Collegians—B. Butler, goal; C. Thomas, G. Gear, backs; T. Sparks, F. Haddon, A. Pike, halves; H. Bastow, B. St. Hill, J. Aitken, C. Penny, S. James, forwards. St. Bon's took the western goal and during the first half had the breeze in their favor. At the start the Collegians got quickly west and Vall was called upon, and in saving the ball rebounded off one of the Collegians and rolled into the net, the Collegians thus scoring the first goal. St. Bon's now worked hard, kept the ball down on their opponents' goal for quite a while and tried hard to score, but the Collegian backs prevented this and their defence was admirable. The Collegians again got up the field but Higgins drove the leather from danger and St. Bon's again got down field and tried several times to score, but their shooting was erratic and at half time no further scoring had been done. When play was resumed it was thought that with the wind in their favor the Collegians would have an easy win, as they are a fine football aggregation and play a fast game. They kept the ball well down on their opponents' goal for quite a time and in a scrimmage, in the goal mouth they barely missed putting in the winning goal. Templeman getting the leather ran west with it, when Bastow touched the ball with his hands inside the twelve yard line, recording a penalty kick against his team. O'Dea placed the ball in the net, scoring the equalizer. After some very fast play the final whistle blew with the game a draw. W. J. Higgins refereed.

Two Fine Boats.

By the shore train last night there arrived two fine clinker built boats for the s.s. Fiona. They were built at Coley's, near Bay Roberts, and certainly reflect credit on the builder, a man named Isaac Bowring. Mr. Bowring is a first class shipbuilder; has worked abroad for years, and is a man of versatility as a mechanic being capable also of erecting first class houses. All who saw the boats highly approved of them.

A PLAYER INJURED.—Towards the close of the football match last evening B. St. Hill, one of the Collegians, was severely injured in the face, having been kicked by a man of the opposing team as he was stooping to head the ball. He was obliged to quit the field.

HARD TO PLEASE

Regarding the Morning Cup. "Oh how hard it was to part with coffee, but the continued trouble with constipation and belching was such that I finally brought myself to leave it off. "Then the question was, what should we use for the morning drink. Tea was worse, for us than coffee, chocolate and cocoa were soon tried; of milk was not liked very well, and hot water we could not endure. "About two years ago we struck upon Postum and have never been without it since. "I have seven children. Our boys now eighteen months old would not take milk, so we tried Postum and found she liked it and it agreed with her perfectly. She is to-day, and has been, one of the healthiest babies in the State. "I use about two-thirds Postum and one-third milk and a teaspoon of sugar, and put it into her bottle. If you could have seen her eyes sparkle and hear her say "good" to-day when I gave it to her, you would believe me that she likes it. "If I was mother of an infant's home, every child would be raised on Postum. Many of my friends say, "You are looking so well!" I reply, "I am well; I drink Postum. I have no more trouble with constipation, and know that I owe my good health to God and Postum. "I am writing this letter because I want to tell you how much good Postum has done us, but if you know how I shrink from publicity, you would not publish this letter, at least not over my own name. "Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

MARSHALL BROS.

Obituary. **MRS. BRENNAN.** On Saturday morning last there passed away to her reward one of the oldest residents of the Torbay Road, in the person of Mary, relict of the late John Brennan, farmer. Born in the "Emerald Isle," County Tipperary, 1827, she came to this country when a mere child, and by thrift, industry and honest dealings was enabled to live comfortable and happy. She was one of the old stock who are fast going from our midst. Being possessed of a kindly nature she lived up to it; charitable amongst her neighbours in time of sickness and want. Her home was a most hospitable one. She was a strict adherent to her Holy Faith. During her few months' illness she was attended by Rev. Fr. Sheehan. Her funeral took place yesterday afternoon and was largely attended, many going out from the city to be present. The funeral service was conducted by Rev. Fr. Sheehan in the Mortuary Chapel, Mt. Carmel Cemetery, and the final absolution given at the grave-side, when all that was mortal of this generous and Christian old lady was laid at rest in the family plot. She leaves a son and daughter to mourn their loss; John, who resides on the "Old Homestead," and Mrs. M. Bulger, King's Bridge. M. W. Myrick was in charge of the funeral arrangements.—Com.

Interesting Football.

Saturday afternoon at Bell Island an extremely interesting football match was played between the teams of the D. I. & S. Co. and the N. S. S. Co. Both teams play very good football and would give some of our best city teams much trouble to beat them. Fully 2,000 spectators were present, and in the first half W. Burke, for the D. I. S., took a beauty from midfield and landed the leather in the net. This was the only goal scored and the D. I. S. won. Much money was bet on the game, and at its conclusion the winning team was dined by their friends at Wabana House. To-night the winning team is also being dined, by Mr. Joseph Murphy, and about 70 covers will be laid. This match concluded the first round of the League series. The D. I. S. lead with 2 points to their credit; the N. S. S. 1, and the Wabana, nil.

Request for One Hundred Millions.

"A hundred Million pounds sterling is the immediate price which, according to certain distinguished officers of the Army and Navy, this country must pay to obtain security from attack," writes the Scotsman. "We publish the letter in which this startling announcement is made. It is addressed to the Prime Minister, and is signed by over a hundred flag officers and general officers of the two services. No responsible statesman on either side of the House has, however," adds the Scotsman, "suggested that, had as was the position, shown in March, 1909, it required for meeting the immediate expenditure of a hundred million pounds. It is enough to meet a new situation when it can be definitely foreseen, and it has yet to be shown that the present state of our defences justifies such a vast outlay. Moreover, the suggestion of the memorialists that the spending of this sum should be left almost wholly to the services themselves will hardly meet with universal approval."
