## Afraid of Ghosts

Many people are afraid of ghosts. Few people are atraid of germs. Yet the ghost is a fanny and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a saflow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stormach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainfed spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret notirum but a medicine or known controstrion and with a record of 10 ters of cares. Accept no substitute—there is nothing "inst a secret." Ask war neighbors.

Uncertainty regarding the Govern-

Special Evening Telegram, LONDON, July 4.

Veto Bill has given rise to sharp doubts among Government supporters. Many Liberal members of the House of Commons have made private representations to the ministry in reference to the widespread rumors of a probable general election, and have protested against such an action. They hinted that should an appeal to the country follow upon the Lords' vote, they might possibly not stand as candidates for re-election. Members of the Cabinet are urging supporters to await patiently and confidently promised results. Edwards, M. P. for Glamorgan, during the course of a speech at Barry, declared he had received authoritative information that a general election would not be held on the subject of the Lords' vote. He assured his hearers that Asquith possessed sufficient guarantees and would light to a finish. Conservative headquarters assert firmly that a General Election is near at hand.
