and goings are surrounded new importance. This if, of course, the great time of the year for children's parties. All over the West End, any afternoon about four o'clock waiting motor-cars may be seen at the steps of countless fashionable houses. When the house loors open, two, three, or very occa sionally nowadays four tiny beings in gala costumes, with all the fus and flurry of "going to a party," ar shered into the smart motor-car tucked in, and presently whirled to some expensive fairvland. Gone ar the days of pique frocks, blue sashes a plain tea, and a conjurer. The ric Londoner's child to-day expects (and gets) floral decorations from the Royal Arcade, a tea rather like a bal supper; perfectly polished floor on which to dance, a Christmas tree with valuable presents, and many other amusements, and when it gets home it tells its anxious mother, "It wasn't bad." Above all, the small girl of the period expects "something to wear"-that is to say, that in place of the old white washing frock of long ago exquisite dresses, costing anything from three to ten guineas. are worn by the Httle misses of today at each other's parties, with stockings, shoes, fans, and tiny opera cloaks equally costly.

## AT THE NICKEL TO-DAY! A BIG WAR FEATURE IN 2 REELS-2 "The Retreat from Moscow."

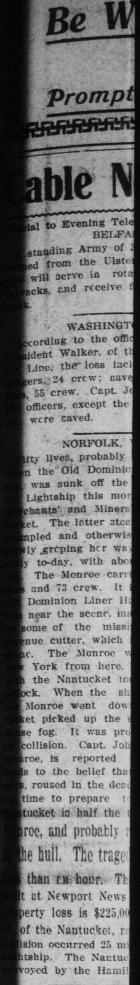

China and Glass Dept.

The historical retreat of Napoleon's army from Moscow in 1812. Reconstructed with the aid of ten thousand of the Imperial Russian Army. Every phase of the epoch-making incident is shown with an accuracy which makes this production one of the most remarkable motion pictures ever produced. The burning of Moscow after Napoleon's arrival, and the pathetic plight of the retreating army are re-enacted in all the grim tragedy of war. The scenes are photographed on the actual sites, and the ensembles were modeled after the famous paintings by Verestchaguine.
