THE DESTRUCTION OF A GERMAN SUBMARINE CREW.

LONDON, To-day. A British official statement issued to-day says Sir Edward Grey, Secretary of Foreign Affairs, has answered a complaint by the Germans through American Embassies, regarding the destruction off the coast of Ireland of the German submarine crew by the British auxiliary Baralong, by referring to various German outrages. Sir Edward Grey offers such incidents including the Baralong case to an impartial tribunal composed of say officers of the United States navy. WASHINTON, To-day. There was no lessening of the ten-sion of the new submarine crisis to-day with President Wilson's return day with President Wilson's return to the White House to take personal charge of the situation, but there were marked indications of the President's intention to proceed carefully and deliberately before committing the United States to the next step in its already strained relations with the Teutonic Powers. At the State Department hope is expressed there would be an opportunity to settle the crisis amicably. It was stated the American Government believed that Austria's assurances in the last Ancona note were given in good faith. Two

IRELAND EXCLUDED.

LONDON, To-day.

Sir J. Simons has not withdrawn his resignation. The position of Mr. Reginald McKenna, Chancellor of the Exchequer, and Mr. Walter Runciman President of the Board of Trade, is still undecided, they are making the acceptance of the Government compulsion Bill conditional upon obtaining a concession to their views on the eventual size of the army. In this matter the Premier is in an embarrassing position. He is being strongly impelled from the outside, not to yield his support, and it is believed that a majority in the Cabinet itself is against their views. Ireland is to be excluded from the provisions of the compulsory service in the bill to be produced in the House to-day. The bill will be offered by Mr. Asquith, the Prime Minister, immediately after the question hour in the Commons.

A few reasons why an estate can be better administered by the Eastern Trust Company than by a personal executor or administrator:—

1. The Company affords the estate absolute security; it has a paid-up capital of \$931,000.00, and a reserve fund of \$229,300.00.

2. It has a long experience in the work of administering 2. It has a long experience in the work of administering estates; it is incorporated for this business of acting as a trostee, and, unlike many other trust companies, it does no other.

3. Its existence is perpetual. Your estate, in the event of the death of a personal executor or administrator, must look around for a substitute, and the work of administration is impeded during that time, and the new executor is unfamiliar with the policy of his predecessor, and confusion results. This company's existence is perpetual, and there is a continuity of policy in its administration that the death of its officers does not break.

4. It possesses the confidence of governments, universities d prominent charities and administers their funds.
