

STOCK MARKET TALK!

Studebaker looks good for 5 to 7 points before dividend record date. It should then be a "sell" for a 5-point decline as it has enjoyed a spectacular advance recently.
Boston-Montana seems bottomed at 50 and this too is in line for a quick run-up. The "shorts" had better cover while the going is good. Pacific Oil, although as yet unseasoned, is one of the best speculations on the Board. Middle States is due upward a point or two before March 10, the dividend date.
Southern Pacific, Union Pacific and Canadian Pacific Railways are good buys, at the market, although the latter has already appreciated about 20 points from its low. Go easy on Dome. We believe it will sell under 20 soon.
