Town and County News

A new hotel on a large scale is to be
established in Orangeville.

Day has received a fresh supply of
Harper's Weekly for September—a
capital number.

The annual gathering of the Caledonian
Society of Hamilton, will be held at
the Crystal Palace grounds in that
city, on Friday next.

Prof. FRANKS.—We call attention to
a notice in another column giving a num
ber of very flattering testimonials from
leading citizens of the merits of Professor
Franks' spectacles. Read it.

ACCIDENT.—On Saturday a boy named
Cyrus Beasley, while assisting at the
threshing on the farm of Mr. Charles
Austin, in Paisley Block, fell from the
stack on which he was working, thereby
breaking his arm.

FOR HOME.—Mr. John and Mrs. Albig
leave Guelph to-morrow morning for
Bavaria in Germany, their native place.
Mr. Albig has been 13 years in Guelph,
and stands well with the community as
an upright business man. It is probable
he may reside permanently in Bavaria.

DEATH OF MRS. CHADWICK.—It is with
regret we record the death of Mrs. J. C.
Chadwick, of inflammation of the lungs,
after five days illness. The deceased
was an estimable lady, and was greatly
respected for her kindly and benevolent
disposition.

TONICS FOR WOMEN.—Nothing makes
a woman age so rapidly than overwork—
the reason, probably, that American wo
men fade so soon. Sunshine, music,
work, and sleep are the greatest medi
cines for women, who need more sleep
than men. Their nerves are more sen
sitive and they are not so strong, and
exhaustion from labor or pleasure takes
place sooner than with men. Never per
mit yourself to be roused out of a
deep sleep in the morning. In fact, one
should never be awakened. The body
rouses of itself when its demands are
satisfied. Take a warm bath occasionally
before going to bed—at least once a
week. Retire as soon as you feel sleepy
in the evening. Don't rouse yourself
and go to work. You need rest then
and will pay for the trespass on your
physical nature the next day if you
disobey.

BREATH.—The Orangeville Advertiser
says:—When the court for the revision
of the Amaranth voters' list was being
held at Laurel, week before last, Con
stable Hall went to serve a subpoena on a
man named Thos. Brown, near the vil
lage. When the constable and him drew
the document, Brown knelt to him down
and jumped upon his back, and striking
several wounds on the head and face of
the constable. A warrant has been issued
for his arrest, and we trust he will re
ceive the punishment which his brutal
conduct deserves. Constable Hall being
an old man and lame, an attack such as
this is a powerful man is cowardly in the
extreme. This is but another ex
ample of the Tory ruffianism which we
hear of and see exhibited almost every
day.

A SUGGESTION FOR THE WINTER.—You
know what a racket is caused, even by
the most careful hand, in supplying coal
to a grate or stove, and how, when the
performance is undertaken by the servant,
it becomes almost distracting. If you
don't remember, take notice the first
time you are ill, or you have a dear pa
tient in your care, or the baby is in a
quiet slumber. Let some one bring on
the coal-scuttle or shovel, and revive
your recollection. Well, the remedy we
suggest is to put the coals in little paper
bags, each holding about a shovelful.
These can be laid quietly on the fire, and,
as the paper ignites, the coals will softly
settle in place. You may fill a coal-scut
tle or box with such parcels, ready for
use. For a sick-room, a nursery at night,
or even for a library, the plan is admir
able. Just try it. Besides, it is so simple
if you don't choose to provide your
self with paper bags, you can wrap the
coals in pieces of newspaper for your
leisure, and have them ready for use
when occasion requires.

UNSOLTED WHEAT AS FOOD.—Wheat
may be styled "The King of Cereals" for
no other grain enters so largely into the
daily food of all civilized nations. There
are substantial reasons, too, why it should
be preferred to most other grains. Its
superior flavour is, no doubt, an import
ant consideration; but, perhaps, the true
reason for the preference given to it, lies
in the fact that wheat contains more of
all the elements required to keep the sys
tem in a healthy condition than any
other grain. By the ordinary method of
preparing wheat for use—making it into
fine flour—an important proportion of
the nutriment departs with the bran. The
chemical proportions of the grain, as ar
ranged by nature, being thus destroyed,
fine flour preparations are not healthy
for a continuous diet. Thinking people
are beginning to understand this matter,
and the demand for unbolthead prepara
tions of wheat, such as German flour,
crushed wheat, cracked wheat, etc., is
increasing rapidly.

A proposal has been made for the
erection, at a cost of £10,000, of a memo
rial in St. Paul's Cathedral, London,
Eng. of Wm. Tyndale, to whose efforts
in the translation of the Bible we owe so
much.

At a meeting of the Metropolitan Rail
way, a letter from Mr. Bradstone was
read advocating a modification of the
fares charged. The London Govern
ment said that his bill of experience had
been laid him that, as the State, or
individual, or company, which dives deepest
into the mass of the community, and
arranges its interests, should be the greatest
benefactor.

BY TELEGRAPH TO THE MERCURY

Anglo American Cable.

Marquis of Ripon.
Victor Hugo on the Peace Congress.

LONDON, Sept. 5th.—A despatch from
Shanghai reports that the difficulty be
tween China and Japan in regard to
Formosa has been settled.

LONDON, Sept. 5th.—The Irish team of
rifemen embarked at Queenstown to
day on the steamship Scotia for New
York. Their departure was witnessed by
a very large and enthusiastic crowd.

At noon yesterday, the Great Eastern
left London, on 1,550 nautical miles of the
Anglo-American Cable. She was then in
lat. 51.30 north, long. 47.35 west. All
was going on well.

The Times says the Marquis of Ripon
has become a Roman Catholic. The
announcement a few days ago that he
had resigned the Grand Mastership of
the Freemasonry, and that the Prince of
Wales would temporarily succeed him
caused much excitement, which is
strengthened by the information that the
Marquis has embraced Catholicism.

LONDON, Sept. 6th.—Mario, the famous
tenor, has been arrested at Venice, for
violation of the Press laws. His resi
dence has been searched, and he has
been taken to Turin for examination.

PARIS, Sept. 3th.—Victor Hugo has
written a letter declining an invitation
to the Peace Congress at Geneva. He
says peace cannot be established until
another war has been fought between
France and Germany. He points to the
existence of a deep and unending hatred
between the two countries, and declares
war will be a duel between the principles
of Monarchy and Republicanism.

The Governor-General's Movements.
The Governor-General and party left
Cobourg on Saturday morning, but be
fore they did so a deputation of the young
ladies of the public schools of the town
visited Lord Dufferin in the drawing
-room of the Arlington Hotel, and
presented her with a very complimentary
address, accompanied by a magnificent
bouquet for herself, and one for Lord
Dufferin. They reached Belleville at 11
o'clock. The party having got into the
carriages, a procession was formed, and
proceeded into the town, which was very
gayly decorated with flags and banners.
The Mayor and Warden presented ad
dresses, also the President of Albert Col
lege. Having stopped a few minutes at
the High School to hear the children of
the town, at 1,500 in number, sing
"God Save the Queen," the party pro
ceeded to the Deaf and Dumb Institute,
where they were very cordially welcomed
by the affable Superintendent, Dr.
Palmer, and the teachers. The party
made a thorough examination of the sys
tem of instruction pursued in the Insti
tute, and Lord Dufferin expressed him
self highly gratified with what he saw.
From the Deaf and Dumb Institute the
party drove to Marchmont, Miss Mac
pherson's Children's Home at this place.
The next stopping place was Napanee,
where there was a large crowd gathered
at the station. After the civic address,
one on behalf of the Mohawk Indians was
presented.

KINROSS was reached about 5 o'clock.
The city was tastefully decorated, and
a large crowd was assembled at the foot
of Princess's. The Mayor and Warden
presented addresses. The party were
taken for a drive through some of the
fine clean streets of the city, and past
many of the best of its trim and solid
stone buildings. They then
got on board the steamer Mande, and
were taken round Point Henry to the
residence of the Hon. Mr. Cartwright,
whose guests they are during their stay.
In the evening a reception was held in
the City Hall.

Toronto on Sunday.
Mr. Cook, the great organizer of excu
sions all over the world, was lately in
Toronto, and thus writes of it in an
English journal. What he says of To
ronto, might with equal truth be said
of every city and town in Ontario:—
"This Toronto, with its 60,000 to
70,000 inhabitants, astonishes me more
than any place which recognizes the
authority of Queen Victoria. While I
read of sharp conflicts in the British Par
liament on the miserable question of an
extra half-hour for getting drunk after
drinking, I found here, on Saturday
evening last, every drink shop closed
after seven o'clock, not to be re-opened
until six on Monday morning, and at the
very hour when the dram shops were
shut the Savings' Bank opened, and the
people were crowding in to pay their
deposits. All through the Province of
Ontario, not a drink shop, not a cigar
shop—not even an ice-cream shop—is
opened on Sunday. The public thorough
fares are not half as beclouded with
smoke or infested with little smoking
puppies as are the public walks of the
'mother country.' Without a State
Church, places of worship abound here
in every street, and they are thronged
with worshippers. There is scarcely a
church or chapel in which the singing
from a neighbouring house of prayer
may not be heard. At 11 a.m. and 7
p.m. the place seems to be redolent with
hymns of praise, and better order in
the streets I never witnessed. No wonder
that in such a place great numbers of
working men own their habits.

HAMILTON MARKET.—The expecta
tions of buyers that life would soon be
made manifest in the Hamilton markets
have been disappointed so far. Two
weeks ago, it was thought the farmers
would begin to run their grain in exten
sively, but for some reason they are
timidly holding off. The only kind of
grain in which any kind of business is
done is oats. The market opened with
quotations at 45c to 46c, but were down
to 38c and 40c, at which figure they have
remained steady ever since. The crop
is abundant, and a considerable quantity
comes in daily. The delivery in barley
is poor, and prices remain as they open
ed about 78c to 80c. Wheat is very
poorly supplied; the little that comes in
brings \$1 to \$1.05, having opened at first
at \$1.10. A few loads of peas sold at
56c to-day. The markets next week
are confidently expected to be much
brisker.

A splendid new Masonic Hall which
has been erected in St. Thomas recently,
was dedicated to masonry on the 1st
instant.

The Gallian-Paulino Murder.

The proceedings of the Superior Court
at Bathurst, N.B., have during the last few
days, attracted much interest, owing to
the trial of Gallian and Angele Paulin,
for the murder of the husband of the
latter, in April last, Gallian and Paulin's
wife had for the last few years been
living in criminal intercourse. This
woman frequently urged her paramour
to kill her husband and to consummate the
crime by marriage. The evidence showed
that she had risen from her husband's
bed-side one night, and whispered to
Gallian, who slept in the same room to
choke her husband as he was asleep, and
they could say he died in a fit. The
husband, however, awoke, and her pur
pose could not be carried into execution.
They afterwards sharpened a knife on a
grindstone, and with it Gallian follow
ed Paulin into the woods on the following
day, but returned saying his heart failed
him. After urgent and repeated solici
tations upon the part of this woman, he
eventually murdered Paulino by follow
ing him into the woods beating him with
a stick, his victim imploring on his knees
for mercy.

The prisoner's confession before the
Coroner was the principal evidence
against him. He was found guilty, and
the woman was then put on trial as an
accessory before the fact, and Gallian
was placed upon the stand. He was,
however, persistently silent, refusing to
answer any question, although in his
former confession at the Coroner's inquest
he had stated that he was incited to the
act by Angele Paulin, who made him do
it. Sufficient evidence, however, was ad
vanced to enable the jury to find a verdict
of guilty against her.

Sentence of death was passed upon
both prisoners. Gallian was condemned
to be hanged on the 29th October next,
and the woman Paulin, who is *exceute*
by Gallian, on the 5th January next.

Both prisoners are very ignorant. Al
though neither could speak English, the
sentence of death was passed upon them
in that language, the Court, strange to
say, not affording them any interpreta
tion of the proceedings. The sentence
will no doubt, be put into execution.

POLICE COURT.

(Before the Police Magistrate.)
Sept. 7.

THE HIGHWAY ROBBERY.
Alexander McGuire and David Tobin
were brought up and charged of highway
robbery, on the night of Wednesday the
2nd instant.

Mr. Watt appeared for McGuire, and
Mr. Dunbar for Tobin.

James Brennan was sworn, and said
he was on his way home from Guelph on
the night in question, between eight and
nine o'clock. He met McGuire and Tobin
at the Victoria Hotel, in town, who told
him they were going up the road as far
as the Junction. McGuire asked him if
he would have a ride in the wagon. He
said he would, and they all drove off.
When they reached the road leading to
Piper's Mill, the wagon turned suddenly
into it. Witness attempted to jump out,
when McGuire caught him by the collar
of the coat and dragged him in again.
Witness caught the lines out of Tobin's
hands, and turned the horses into Cox's
place, when he jumped out. McGuire
following him, who caught hold of his
hat. Witness wanted to get his hat
back, but they said to do it unless he
paid for his ride. This he consented to
do, giving McGuire 25 cents, which Mc
Guire, when he got it, said was only a
five cent piece, and that he (witness) had
more money. He said he had upon
which McGuire tripped him and knocked
him down. Mr. Pipe and his son hear
ing the disturbance, came out, and the
defendants let him go. Had two \$4 bills
and a \$2 bill in his purse. One of the
\$4 bills had the corner torn off. Felt
McGuire's left hand in his vest pocket,
the one in which he had the money, im
mediately after getting up, and said to
those present that his money was gone.
Returned to town at once, and informed
Mr. Kelly of what had happened. Tobin
was in the wagon all the time. Have no
charge against him, except that he said
"Hold the horse." After the search was
over, when Mr. Pipe came out, McGuire
jumped into the wagon, in which was
Tobin and another person named Sutton.
They drove off and went up to Hood's
farm. Went back the next day to the
place to look if the money could be found,
but did not find it. Never saw McGuire
before that day. It was his money in
the wagon, and he was the man who
Tobin is the man who drove the horses.
McGuire was the only one who came out
of the wagon. When he put his hands
into my pockets I shouted "murder."

Cross-examined by Mr. Watt.—Had
drank one glass of whiskey that day. Had
several glasses of beer and some cigar
beer. My boss went home at 4 o'clock,
which suit my vision perfectly easy and
comfortable, both by day and night, for
any length of time at one sitting, and
are far better than any others I ever
used. Signed by
THE REV. ARTHUR PALMER, M.A., Rec
tor of Guelph, and Archdeacon of
Toronto.

Dr. Franks has suited my sight so ac
curately from an examination of the eye
alone, at the first attempt, with the first
pair of his Uniform Focus Spectacles he
adjusted to my vision, that I recommend
them with pleasure.
GEORGE S. HENROD, M.D., Guelph.

I believe the improved spectacles
adapted to my vision, by Dr. Franks, to
be the best I ever had, I can see perfect
ly by day or night even at the most
minute employment, for any length of
time, with a comfort I have not had
with any other spectacles. They were
the first and only pair he tried.

REV. THOS. WARDROBE, Presbyterian
Church, Guelph.

We feel pleasure in adding our recom
mendation, of Dr. Franks' Uniform Focus
Spectacles, and his scientific method of
adjusting them to the sight, with the first
pair he tries. From an examination of the
eye alone, he suited us to perfection.
MISS INDINGTON, Guelph.

Mrs. Wm. BROWNLOW, Guelph.

The spectacles Dr. Franks adjusted to
my eyes, were the only pair he tried.
They give me as good sight as ever I
had, because I now see as well as I ever
did.
ROBERT BURNS, Grocer, Guelph.

We, the undersigned, have much pleas
ure in recommending Dr. Franks' Uni
form Focus Spectacles, and his scientific
way of correctly adjusting them to the
sight, that is, from an examination of the
eye only, with the first pair he tries,
which he did in our case, giving us better
sight than with any spectacles we ever
used.
E. NEWTON, Guelph.
WM. PICKARD, Sr., Guelph.
CHAS. RAYMOND, Sewing Machine Man
-ufacturer, Guelph.

The admirable method of adjusting
Spectacles to the eye with the first pair
he selects, from an examination of the
eye alone, was fully demonstrated in my
case by Dr. Franks. He gave me the
best sight I ever had with spectacles.
STEPHEN BOUT, Architect, Guelph.

I recommend Dr. Franks' Uniform
Focus Spectacles as the best I ever had.
He merely examines the eye, and suits it
with the first pair he selects.
REV. WM. F. CLARKE, Cong. Minister
Guelph.

With every satisfaction I state that Dr.
Franks suited my eyes with his Uniform
Focus Spectacles, so very perfectly from
an examination of the eye alone, with the
only pair he selected, that I now see per
fectly, and recommend them to all.
REV. W. S. BALL, Minister, Knox Church,
Guelph.

PROFESSOR E. S. FRANKS,
OCULIST AND OPTICIAN,
Is now at the Royal Hotel, Guelph, in
parlor No. 22, with a large assortment of
his Uniform Focus Spectacles for sale—
for a few days only. These Spectacles,
as adjusted to the eye by the Professor,
suit equally well by artificial as daylight,
from 15 to 25 years, without needing a
change to others.
