have to deal with a case which is in many ways interesting and remarkable. The case before us is not an ordinary sensational one of attempted suicide, or an effort to take life; to the public it is a matter of great moment—the story is pregnant with a great and wonderful interest to every individual and family.

The facts of this strange poisoning case given through the press of this country, will be the means of calling attention to what we believe to be a great evil—a disease that is now doing dreadful work in some of our large centers of population. We now

that is now doing dreadful work in some of tour large centers of population. We now refer to "tobacco poisoning," which at the present time is common in many of our large tobacco and cigar factories.

Mr. Edward Odell, of No. 158 Mary street, Hamilton, is a cigarmaker by trade, he is a very worthy man, and highly respected by his friends and employers, and is called a first-class workman.

Some time ago Mr. Odell found that his health was not in the condition it ought to be. He found himself terribly weakened and shattered by nervousness and nervous debility. He naturally became anxious and troubled, and for a time wondered why he was so weak and broken down. The truth dawned upon him with startling force that he was suffering from the condition of the conditio

This wonderful and rapid cure effected by Paine's Celery Compound, after the doctors failed, is just the kind of work that is being done every day in all parts of Canada, when this great remedy is used. Who can doubt the truth of this marvelous cure and rescue which we have just recorded? Mr. Odell is well known, and we are sure will be pleased to satisfy all inquiries. Then we have the confirming statement of Mr. Yapp, one of Hamilton's best known druggists. All these strong evidences of honesty and truth should lead all doubters who suffer to begin at once with Paine's
