The Anarchists of Germany Associated With the Walsall Dynamites.

Moonlighting and Boototting Renewed in Ireland—Serious Trouble Anticipated.

Disestablishment in Wales—A Blow Aimed at the English Church.

LONDON, Feb. 27.—A Berlin despatch says the police of that city seem to be already on the track of a Socialistic conspiracy as the origin of the present troubles. This conspiracy appears to have no connection with the Socialist Democratic Society; but to be the work of the men who broke off from the recent congress of that party, because it would not adopt their revolutionary views. The Socialist Democrats are strictly in favor of constitutional agitation, and hope to accomplish their aims without resort to force or bloodshed.

The London police are convinced there is some connection between the Walsall dynamite explosion and the anarchists of Germany, although the time and place of the explosion have not been ascertained. It is believed that the explosion was the work of a man who had been in the city for some time, and who had been in contact with the anarchists.

Mr. Deacon is said to be held in extreme aversion to his act by the large majority of the upper society of France. One reason is, that M. Abelle, his victim, was popular in the salons and another that the French think Mr. Deacon should have allowed his wife and M. Abelle to go, if he found Mrs. Deacon cared for the latter, or else have shot the two of them. A despatch from Cannes, it may be added, says Mr. Deacon may not have such an easy acquittal as he expects. The French code excuses the husband for slaying, if the parties are found in a flagrant adultery, and the whole question hinges on this issue. Mrs. Deacon being prepared, apparently, to testify that M. Abelle was not guilty, the occasion of the slaying, and of the death. A Paris letter states that in that city sympathy leans strongly towards M. Abelle, and that influence is being brought to bear on the authorities to commit Mr. Deacon with proper severity. It is shown as intimated by Mrs. Deacon, that her husband had connived in any way at the relations, the jury will find that the killing was not justifiable, and recommend a term of imprisonment. The influence of every cavalier servant in France, is thrown against the avenging husband, besides the occasional judge, letrado, and of the death. THE GERMAN OUTLOOK. Advice from the various papers of Germany show that the leading Conservatives are inclined to make little of the riots which have disturbed Berlin during the past few days. They declare that the agitation is without any basis, and is part of a Socialist scheme to test the temper of the Government and see how the authorities would be likely to treat a real outbreak of violence.
