Reading and N.E. was weak, under fear of assessment.

Henry A. King & Co.'s special wire from Hubbard, Price & Co., New York: St. Paul's earnings for fourth week of April made a comparatively smaller decrease. There is one very important fact that must not be ignored, because it is certain to have a very wide bearing upon the course of St. Paul inside of three weeks. In April, 1893, the operating expense amounted to 71 per cent. It is unlikely, however, that such a bad showing will be made for the month of April just ended, and if the operating expenses are kept even at 63 per cent, the net returns for the ten months of the fiscal year will be away in excess of what they were for a corresponding period 12 months ago and they will insure the payment of fall dividends. The industrial stocks, as a general thing, were strong. There was no activity except perhaps in Sugar. An attempt that was made to down Lead proved abortive, A sever raid was made on three stocks, Atchison, Reading and N.E. The crops in Kansas will this year be greater than they were in 1898. Atchison is worth \$10 per share more than is Northera Pacific preferred. delicacy for table use 500
