DR. S. N. MIL United States politics. Unusual in- W. A. Fowler, Secretary. terest has been felt in President Clevethe 8th inst., from its being his first since he assumed the reins of office, and being the first Democrat Presidential message, for something over twenty years. Canadians were particularly desirous to become acquainted with the contents of this document, as it was expected that it would pressage the course the United States Government would be likely to adopt in regard to future trade relations between the two land's message, which was delivered on

would be likely to adopt in regard to future trade relations between the two countries. The following is, however, the only reference made to Canadian affairs in the whole document:—

The marked good will between the United States and Great Britain has been maintained during the past year. The termination of the fishing clauses of the treaty of Washington in pursuance of the joint resolution of March 3, 1883, must have resulted in the abrupt cessation on the 1st of July of this year in midst of their ventures of the operations of citizens of the United States engaged in fishing in British-American waters, but for the diplo

In the interest of good neighborhood and commercial intercourse of adjacent communities the question of the North American fisheries is one of much importance. The interiors of good indignoronod and interconse of adjacent communities the question of the North American fisheries is one of much importance. Following out the intimation given by me when the extensory arrangement above described was negotiated, I recommend that Congress provide for the appointment of a commission in which the governments of the United States and Greats Britian shall be respectively represented, charged with the consideration and settlement upon a just, equitable and honorable basis of the entire question of the fishing rights of the entire question of the fishing rights of the two governments and their respective citizens on coasts of the United States and British North America. The fishing interests being intimately related to other general questions dependent upon condiguity and intercourse, consideration thereof in all their details might also properly come within the province of euch a commission, and the fullest latitude of expression on both sides should be permitted.

Negotiations with the English government for an enlarged treaty of extradition bave been pending since 1870, and strong hopes are expressed that a santistactory result will be soon attained.

Our fishermen will feel gratified that.
