

GAZETTE—Continued.

LIST OF RESERVE SPEAKERS—Continued
Wheatley, T. C., Blackwell—December.

COLLEGE STAFF.

The members of the staff of the Ontario Agricultural College can attend meetings as follows:

Dean, Prof.	} In June.
Reed, Prof.	
Reynolds, Prof.	
Shuttleworth, Dr.	

LADY DELEGATES.

Hollingworth, Miss A., Beatrice—December and January.
Kinny, Mrs. A., Grand View—December, and after January 22nd.
Maddock, Miss B., Guelph—Any time after December 9th.
Rogers, Mrs. M. J., Kinsale—December, January, and February.
Rose, Miss L., O.A.C., Guelph—Occasionally in January and February, and when needed in any other month.
Smith, Mrs. J. L., Whitby—December, January, and February.

A Good Programme.

Of all the institutes which hold their meetings in December, West Huron has been the first to send in a programme of their meetings, which is a model that may well be followed by other institutes in the province. The talent is entirely local, with the exception of Miss Rose, whose services have been engaged for the meetings by the officers themselves. This institute evidently does not desire to be spoon-fed. We will publish in our next issue their programme in full, and have but one criticism to make, namely, that the secretary should have inserted the time of day each address was to be delivered.

FARM HELP EXCHANGE

The Farm Help Exchange has been started with the object of bringing together employers of farm and domestic labor and the employees. Any person wishing to obtain a position on a farm or dairy, or any person wishing to employ help for farm or dairy, is requested to forward his or her name and full particulars to F. W. Hodson, Secretary Live Stock Association. In the case of persons wishing to employ help, the following should be given: particulars as to the kind of work to be done, probable length of engagement, wages, etc. In the case of persons wishing employment, the following should be given: experience and references, age, particular department of farm work in which a position is desired, wages expected, and where last employed.

These names when received together with particulars will be published FREE in the two following issues of the "Agricultural Gazette" and will afterwards be kept on file. Upon a request being received the particulars only will be published, the names being kept on file.

Every effort will be made to give all possible assistance to the end that suitable workers, male or female, may be obtained. Every unemployed person wishing to engage in farm or dairy work is invited to take advantage of this opportunity.

Owing to the space occupied this week by the list of Farmers' Institute Meetings, "Help Wanted" and "Situations Wanted" are crowded out of this issue. They will be published next week.

American Cow Ties Will Outlast all others

This is because the form of the link, the exact size and shape of which are shown above, is such that the wear is distributed evenly over its entire end. The tearing surface is thus very large, and the chain will wear for years without becoming worn appreciably.

With other styles of chain the tearing surface is only a very small portion of the extreme end of the link. Grooves are soon formed, and in a comparatively short time the links are worn—or, properly speaking, cut—through.

These facts are well shown on a cow tie recently brought us for repairs. It was an ordinary No. 00 three-chain tie. One chain was wire, the other two American. One of the wire links was worn entirely through. The others were nearly as bad—a strong pull would have broken almost any of them. With the American chains, on the other hand, the wear was very slight, and hardly noticeable—three times this amount would not have weakened the chains seriously.

American Cow Ties are made in all the standard patterns and sizes. If your hardware dealer does not handle them, kindly let us know, and we will see that you are supplied.

See our Special Cow Tie Catalogue—just published—sent Free on application.

ONEIDA COMMUNITY, Limited, Niagara Falls, Ont

ALEXANDRE AND MELOTTE CREAM SEPARATORS

We ask all intending buyers of Cream Separators to study the merits of the "Melotte," if they want to get the best results. The "Melotte" has beaten all competitors in public working trials. Takes one-third less power. Sent on free trial.
