GETTING READY FOR WINTER.

THAT IS WHAT OUR BEST

FARMERS ARE DOING.

"PARIS" STRAW AND ENSILAGE CUTTER.

TESTIMONIAL "PARIS" IMPROVED. THE BEST.

GENTLY, P.Q., Nov. 6th, 1894.—I, the undersigned, certify that there has been in my barn, on the 23rd of October last a great trial of the following Straw Cutters: The "Paris" manufactured by Massey-Harris Co., the No. 12 manufactured by—, the No. 11 sold by—, and the No. 11 manufactured by—.

The agents who sell the above mentioned Straw Cutters and about seventy-five farmers of the parish came on Mr. Jos. Polson's invitation to judge for themselves which Straw Cutter was superior and which one should be bought by the Agricultural Circles or those who have a large number of cattle.

After having twice given them an equal chance to show their superior qualities, it has been an easy matter to notice from the very beginning that the "Paris Improved," manufactured by Massey-Harris Co., was to come out victorious, and all the other competitors' efforts to prevent that result were useless, and the "Paris" was pronounced by all the Farmers and disinterested parties present as being able to cut twice more than the others in the same time without any difficulty whatever, while the representatives of the three others had all they could do to keep their machines from choking every moment notwithstanding the great speed they had, forcing the horses to trot on the Horse-Power, &c.

Not wishing to encourage trials, I would advise all farmers who want to buy a Straw Cutter to buy the "Paris" because it is three times superior to those above mentioned, and, if they doubt my word, let them do as I did, that is, to try them together giving them all the same advantage, and, I, as well as all those who were present at this trial, are certain that the "Paris" will be the choice of the buyers.

(Signed),

EMILE CARIGNAN.

Insure Your Brains

Did it ever occur to you that every man having the energy and capacity to earn a dollar, has in his BRAINS the most valuable part of his capital, notwithstanding that his accumulations may be reckoned by hundreds of thousands of dollars? Yes, he may have a hundred dollars invested somewhere, or it may be a million, but beyond the interest earning power of his investments it is himself which is the producer.

For 15 cents

But how can a man insure his brains? Easy enough.

The cost of a life policy in the MANUFACTURERS LIFE for \$5,000, is about 15 cents a day only. Insure your BRAINS upon a policy of that description, the rates for which are the lowest of any policy in the market.
